Reframing Police Education and Freedom in America Martin Alan Greenberg, Beth Allen Easterling, 2023-09-15 This book untangles the components of police education and advocates a robust community based training model with significant civilian oversight The recommended approach recognizes that the citizenry needs to be included in the provision of basic police education for it is they who must both support and be served by their police The police must be role models for society demonstrating that freedom and rights come with obligations both to the community as a whole and to individuals in need within that community Ultimately the quality of police training and the public s safety depend not only on the leadership of police executives as well as the quality of educational institutions and police candidates but also on the building of a community s trust in its police The issues of police recruitment education and retention have greater consequence in an era when protests and other signs of negativity surround law enforcement Several incidents including most notably George Floyd s murder by police have sparked new training initiatives regarding police de escalation and community engagement At the same time the proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police Protest Policing and Human Rights Michael Smith, 2022-12-30 This book examines protest policing and the toolbox of options available to police commanders in response The right to peacefully protest is intrinsic to democracy and embedded in British history and tradition The police are responsible for managing public order and facilitating peaceful protest and this has not been without criticism On occasions the police have found themselves in opposition to protest groups and there have been incidents of disorder as a result In response the development of Police Liaison Teams in the UK has presented the police with a gateway

for dialogue between themselves and those involved in protest Drawing on two contrasting case studies the policing of the badger cull in South West England and an English Defence League EDL march in Liverpool this book explores the experiences of police commanders police liaison officers protesters counterdemonstrators members of local businesses and other interested parties It explores how a dialogical approach with all those engaged in or affected by a protest has assisted the police in balancing human rights and reducing conflict for all An accessible and compelling read this book will appeal to students scholars and practitioners of policing politics criminology sociology human rights and all those interested in how protests are policed

Justice Required Robert J. Durán, Oralia Loza, 2025-10-07 Police have remarkably broad discretion to use deadly force Evidence shows that more than 1 000 shooting deaths occur each year at the hands of the police in the United States disproportionately in minority communities and often under questionable circumstances Despite public outrage there continue to be obstacles to assessing the extent of bias and addressing the harms of police violence including a lack of

transparency and limitations on access to data Justice Required is a groundbreaking quantitative and qualitative investigation of police violence Robert J Dur n and Oralia Loza provide a comprehensive data analysis of all police shootings in Denver Colorado over nearly forty years highlighting persistent patterns of racial and ethnic inequality They examine the institutional and political dynamics that thwart efforts to hold police officers accountable after controversial incidents Dur n and Loza contextualize the data with regional comparisons and enliven the analysis with vivid storytelling Justice Required argues that while police shootings are typically treated as a criminal justice issue they should be understood as a public health problem Rigorous and urgent this book provides evidence based data driven solutions to prevent further loss of life and promote accountability *Gold Medal Policing* Judy M. McDonald,2025-03-24 This straightforward easy to understand textbook inspires tools for improving job performance productivity and morale in law enforcement The groundbreaking first edition of Gold Medal Policing inspired by work with Olympic athletes confirmed the importance of mental readiness in frontline policing excellence Partnerships with policing and related fields positioned Gold Medal Policing principles across recruitment multilevel training web based learning and field assessment The second edition consolidates two decades of peer reviewed research and training reflecting new trends lessons contemporary issues and proven tools Drawing on insights from frontline officers recognized for their excellence including coach officers it introduces an Operational Readiness Framework rooted in scientific principles This framework systematically assesses physical technical and mental readiness creating a detailed police specific profile A comprehensive literature review informs current police preparedness practices Mental readiness is upheld to strict measurable standards akin to traditional physical and technical readiness Best practices from exceptional officers are isolated and operational benchmarks and strategies are established The ultimate result is to empower officers to excel in the practice of their profession Gold Medal Policing is indispensable for law enforcement leaders scholars students and aspiring officers Questions about the research Contact the author Judy McDonald at judy mcdonald uottawa ca Police Use of Force Michael J. Palmiotto,2016-08-05 Police use of force has been a major concern for police departments and citizens in the United States since the 1840s when police first started carrying guns Starting with a historical introduction Police Use of Force presents readers with critical and timely issues facing police and the communities they serve when police encounters turn violent Dr Palmiotto offers in depth coverage of the use of force deadly force non lethal weapons militarization of policing racism and profiling legal cases psychology perception and training and violence prevention Police Use of Force also investigates many case studies both famous Rodney King and contemporary Ferguson MO Essential reading for both criminal justice professionals and academics this text places police conflict within a complex modern context inviting cogent conversation in the classroom and the precinct **Disassembling Police Culture** Mike Rowe,2023-02-10 Drawing on six years of ethnographic research this book critically examines police culture exploring police behaviours decisionmaking and actions Police culture is a concept widely used often critically to characterise the working

attitudes and behaviours of usually uniformed police officers It is shorthand for a workplace imbued with machismo racism sexism a thirst for danger and excitement cynicism and conservatism Rather than looking for culture or identifying how culture affects behaviours this book identifies factors that influence the decisions and actions including technology targets training timing intelligence geography and supervision thus reassembling police culture much as Bruno Latour sought to reassemble the social The analysis develops a clearer and critical understanding of culture by explicitly connecting the debates about police culture to those about organisational culture Offering a detailed ethnography of two shifts it grounds the analysis of the idea of police culture in a thick description of the day to day activities observed in the police station and the patrol car rather than using brief illustrative extracts The book dispenses with any assumption of the utility of the concept of police culture not least because it is opaque and reassembles our understanding of policing and if it retains any relevance of police culture An accessible and compelling read this book will appeal to students and scholars of policing criminology sociology law politics and all those interested in the day to day lives of police officers
