making this a must for both the astrological expert and those unfamiliar with the science. It takes the basic information from the chart and shows you how to change your life so you can achieve your spiritual and worldly goals easily. The technique starts with the birth chart. If you are an astrologer you can draw this yourself. If not, the book includes a coupon to receive a free natal chart. Even the postage is paid. The book describes the basic meanings of the sun, signs, planets, and more, but that is just the start. Astrology for Self Empowerment shows that you are not at the mercy of the planets and stars. Instead, you can use their archetypal power to create the future you want. Overcome self-defeating subconscious programming. Create a life that is richer in every way. This book shows you how to do this with techniques of self-exploration, visualization, affirmation, invocation, breath work, and working with the gems and crystals associated with the planets and signs. These are tied together in a powerful and easy-to-use program for self-change and empowerment. Examples show you how to do this easily for yourself. Astrology for Self Empowerment will empower you to change your universe and become what you want to be. You owe it to yourself to get this book. This is a Print on Demand title. The Integrated Astrological Guide to Self Empowerment Edmond H. Wollmann, Wollmann Edmond, 2019-04-12. This academically integrated text offers the first in-depth astrological/psychological guide to empower and transform one's life and perspective. All cross-disciplined and academic subjects that can be integrated into this philosophic structure are referenced and explained. This text is complete, with all basic astrological signifiers delineated with new and expanded insight. A complete explanation of how we bring our early environment and beliefs into adulthood and create our reality and experiences is explored and explained psychologically, metaphysically, and pragmatically. This book blends many different philosophies and gives the message that using astrology can be a tool to self-understanding and transformation; that it is not a mysterious tool of divination but that it can be used to examine our existing beliefs and that it is up to us what we do with that knowledge. The ideas in this book challenge the reader to look at the responsibility they have for their own lives and begin to teach how to do this using astrology. The individual interpretations of placements are basic. The author has delved to the core of the meanings of the archetypes from a psychological perspective. The results are dynamic, all-encompassing yet specific to the placement keys with which to begin delineations. This is something that has been lacking in many other astrology books with more shallow definitions. There are several example delineations of charts which take the reader through the process of using this information in a complete chart showing how the insight from the previous chapters can be used to read a chart. Definitely a work of text-book caliber, not a coffee-table book.
