L'architecture Moderne En France Tome I 1889-1940:

L'architecture moderne en France Claude Loupiac, Gérard Monnier, Joseph Abram, 1999 **L'architecture moderne en France: De la croissance à la compétition, 1967-1999** Claude Loupiac, 1997 *L'architecture moderne en France: 1889-1940* Claude Loupiac, Gérard Monnier, Christine Mengin, 1997 **Reading Architecture and Culture** Adam Sharr, 2012-11-12

Architecture displays the values involved in its inhabitation construction procurement and design It traces the thinking of the individuals who have participated in it their relationships and their involvement in the cultures where they lived and worked In this way buildings their details and the documents used to make them can be read closely for cultural insights Introducing the idea of reading buildings as cultural artefacts this book presents perceptive readings by eminent writers which demonstrate the power of this approach The chapters show that close readings of architecture and its materials can test commonplace assumptions help architects to appreciate the contexts in which they work and indicate ways to think more astutely about design The readings collected in this innovative and accessible book address buildings specifications and photographs They range in time from the fifteenth century examining the only surviving drawing made by Leon Battista Alberti to the recent past projects completed by Norman Foster in 2006 and Herzog and De Meuron in 2008 They range geographically from France to Puerto Rico to Kazakhstan and they range in fame from buildings celebrated by critics to house extensions and motorway service areas Taken together these essays demonstrate important research methods which yield powerful insights for designers critics and historians and lessons for students

L'architecture en Algérie de 1830 à nos jours Vincent Bertaud du Chazaud, Soraya Bertaud du Chazaud, 2023-12-06 Cet ouvrage richement illustré présente l'évolution historique des lieux des édifices et des acteurs de l'architecture et de l'urbanisme en Algérie de 1830 fin de l'hégémonie ottomane au Maghreb à l'aube du XXI^e siècle dans un pays ayant recouvré son indépendance depuis un demi siècle Il met en lumière la créativité des réalisations les expérimentations techniques et l'importance de l'héritage matériel et culturel Le but de ce livre est de décrypter ce passé afin de donner des pistes de recherches et d'analyses pour l'avenir

Structurant autour de 1962 date de l'indépendance l'ouvrage est rythmé par deux décennies Ainsi il met en évidence l'importation du modèle européen dans les villes où l'architecture locale fut parfois malmenée la charnière des XIX^e et XX^e siècles avec la France pour les expositions universelles et coloniales le goût pour l'orientalisme qui permit le sauvetage de quelques édifices ou ensembles urbains durant les années 1930 la construction dopée par la célébration du centenaire de la conquête de l'Algérie et influencée par l'Art déco en vogue après guerre l'annexion de l'Algérie qui devint un terrain d'expérimentation fabuleux pour les nouveautés architecturales et constructives du Mouvement moderne l'indépendance l'édification de quelques projets importants confiés des architectes internationalement reconnus comme le brésilien Oscar Niemeyer puis l'intégration des premiers architectes algériens dans les ministères les administrations ou les organismes techniques permettant des réalisations parfois inspirées de l'architecture ottomane depuis les années 1990 le virage libéral de l'état algérien qui impacte le statut des

architectes qui toujours plus nombreux ouvrent des agences privées dans les grandes villes. L'ouvrage met ainsi en évidence de nombreuses réalisations architecturales remarquables pas seulement celles des principales villes d'Algérie que sont Alger, Oran et Constantine mais de tout son territoire comme Oranville, Chlef, Ghardaia. Ce livre véritable voyage dans l'histoire de l'architecture constitue une référence pour les architectes et tous les curieux désireux de prendre conscience des efforts de l'administration algérienne et des architectes algériens et étrangers pour dépasser les empreintes du colonialisme et créer une architecture ayant sa propre identité.

Avery Index to Architectural Periodicals Avery Library, 1997

Quand l'architecture internationale s'exposait, 1922-1932 Danièle Pauly, 2010. C'est en mars 1926 que se tint à Nancy l'initiative du jeune Comité Nancy-Paris, une grande exposition d'art contemporain qui se voulait la présentation au grand public des pièces du processus moderne. La section d'architecture initiée par André Lurati est depuis lors considérée comme la première manifestation internationale du Mouvement moderne. Dans le prolongement de l'exposition reconstituée en 2006, Nancy s'est déroulée sous le guide de Catherine Coley et Danièle Pauly. ENSA Nancy-LHAC le colloque intitulé Nancy 1926 le printemps du Mouvement moderne quand l'architecture internationale s'exposait. Ce colloque s'est donné comme ambition de reconsidérer la place de l'événement nancien de 1926 et plus largement d'interroger les modes de diffusion de l'architecture des années 20, notamment les nouveaux outils de transmission. Partant de l'analyse du contexte local et national, les communications voquent la scène internationale et précisent l'engagement de certains pays et de leurs représentants dans cette dynamique de groupe où certaines individualités apparaissent aussi importantes que les réseaux relationnels. Les actes du colloque sont complétés par une étude inédite rassemblant et présentant toutes les expositions tenues en Europe et aux États-Unis entre 1922 et 1932 et qui ont servi la diffusion internationale de l'avant-garde architecturale européenne.

Sir Banister Fletcher's Global History of Architecture Sir Banister Fletcher, 2020. Sir Banister Fletcher's Global History of Architecture is the acknowledged classic reference work for architectural history. It has been essential reading for generations of architects and students since the first edition was published in 1896 and this tradition continues today as the new 21st edition provides the most up-to-date authoritative and detailed account of the global history of architecture available in any form. Thousands of major buildings from around the world are described and explained accompanied by over 2,200 photographs, plans and drawings. Architectural styles and traditions are placed within a clear framework and the chronological and geographical arrangement of the work's 102 chapters allows for easy comparative analysis of cultural contexts, resources and technologies.

Grandes residencias de Buenos Aires Fabio Grementieri, Xavier A. Verstraeten, 2006. La influencia de la arquitectura francesa en la ciudad de Buenos Aires ha sido determinante en algunos periodos de su historia especialmente a principios del siglo XX cuando se construyeron las grandes residencias en la zona que se extiende desde Retiro hasta Recoleta y que culmina en torno a la plaza Carlos Pellegrini. El estilo predominante fue el del clasicismo francés de los siglos XVII y XVIII. Por ello se conoció a la ciudad como la
