Programming and Robotics in the Classroom is an all encompassing reference book that discusses how computational thinking programming and robotics can be used in education as well as the benefits and difficulties of implementing these elements into the classroom The book includes strategies for preparing educators to teach computational thinking in the classroom as well as design techniques for incorporating these practices into various levels of school curriculum and within a variety of subjects Covering topics ranging from decomposition to robot learning this book is ideal for educators computer scientists administrators academicians students and anyone interested in learning more about how computational thinking programming and robotics can change the current education system *Intelligence of Things: Technologies and Applications* Nhu-Ngoc Dao,Quang-Dung Pham,Sungrae Cho,Ngoc Thanh Nguyen,2024-12-23 This book aims to provide state of the art knowledge in the field of Intelligence of Things to both academic and industrial readers In particular undergraduate graduate and researchers may find valuable information to drive their future research This book is considered a reference for numerous courses such as Artificial Intelligence Internet of Things Intelligent Systems and Mobile Networks In the industrial area this book provides information on recent studies in applying AI to IoT developments which help to align and shorten R D processes to introduce new classes of intelligent IoT products Brain Function Assessment in Learning Claude Frasson,George Kostopoulos,2017-09-11 This book constitutes the thoroughly refereed proceedings of the First International Conference on Brain Function Assessment in Learning BFAL 2017 held in Patras Greece in September 2017 The 16 revised full papers presented together with 2 invited talks and 6 posters were carefully selected from 28 submissions The BFAL conference aims to regroup research in multidisciplinary domains such as neuroscience health computer science artificial intelligence human computer interaction education and social interaction on the theme of Brain Function Assessment in Learning *Scientific Foundations and Practical Applications of Periodization* G. Gregory Haff,2024-02-26 The concept of periodization is not new with the precursors of periodized training dating back more than 2 000 years ago But it is now obvious that the holistic development of an athlete encompasses more than their physical and tactical training Scientific Foundations and Practical Applications of Periodization is the first book of its kind designed to optimize sport performance by integrating both classic and modern periodization theories with recovery methodologies nutritional interventions and athlete monitoring guidelines Written by G Gregory Haff a world leading expert on periodization Scientific Foundations and Practical Applications of Periodization incorporates the latest scientific evidence to provide a comprehensive understanding of how to implement planning and programming strategies to enhance physiological adaptations While other periodization books may discuss training theory few provide information on how to integrate various training models into the periodization process Here are just some of the approaches incorporated into Scientific Foundations and Practical Applications of Periodization Employing and blending parallel sequential and emphasis periodization models to develop athletes Syncing recovery strategies with various phases and periods of training to enhance the adaptational process

Manipulating nutritional strategies to magnify performance Using and interpreting monitoring data to adjust an athlete's program in accordance with the periodized plan Applicable for athletes at all levels and in any sport Scientific Foundations and Practical Applications of Periodization translates the latest research into usable information that directly enhances programming You will have access to real world practical examples and discussions of how to make scientifically sound programming decisions A glossary of over 400 terms will help you digest the content Plus you will find periodization templates and directions on how to use them to create annual training mesocycle and microcycle plans Templates are provided online via HKPropel to help you easily design periodized programs Get the most comprehensive resource about periodization ever written and use scientific evidence to take your periodization programming to the next level with Scientific Foundations and Practical Applications of Periodization Earn continuing education credits units A continuing education exam that uses this book is also available It may be purchased separately or as part of a package that includes both the book and exam Note A code for accessing HKPropel is not included with this ebook but may be purchased separately

Palliative Care for Chronic Cancer Patients in the Community Michael Silbermann, 2020-10-29 The new global cancer data suggests that the global burden has risen to 18.1 million new cases per year and 9.6 million cancer deaths per year A number of factors appear to be driving this increase in particular a growing and aging global population and an increase of exposure to cancer risk factors linked to social and economic development For rapidly growing economies the data suggests a shift from poverty or infection related cancers to those associated with lifestyles more typical in industrialized countries There is still large geographical diversity in cancer occurrence and variations in the magnitude and profile of the disease between and within world regions There are specific types of cancer that dominate globally lung female breast and colorectal cancer and the regional variations in common cancer types signal the extent to which societal economic and lifestyle changes interplay to differentially impact on the profile of this most complex group of diseases Unfortunately despite advances in cancer care a significant proportion of patients at home experience sub optimal outcomes Barriers to successful treatment outcomes include but are not limited to access to oncologists in the primary health centers non adherence lack of experienced oncology and palliative care nurses in the community inadequate monitoring and the lack of training of family and pediatric physicians Telemedicine approaches including telephone triage education telemonitoring teleconsultation and status tracking through mobile applications have shown promise in further improving outcomes in particular for chronic cancer patients following their hospitalization Lessons can be learned from existing hospices in North America the United Kingdom Australia Centers of Excellence in Africa Uganda and modern community services in India Kerala An important goal of this book is to describe and encourage professionals to develop new community programs in palliative care which include training and empowering physicians and nurses in the community on the principles of palliative care The Middle East Cancer Consortium MECC together with the American Society of Clinical Oncology ASCO and the American Oncology Nursing Society ONS have

conducted multiple courses ranging from basic palliative care to more specialized training in palliative care for multiple nationalities in Europe Asia and Africa Our experience clearly indicates that to promote such activities one needs strong leadership and confirmed political will to support the endeavor The new book will emphasize the importance of having a core of multiple stakeholders including community leaders government NGOs and media to be actively involved in advocating for the cause and generating public awareness This text will provide the reader with a comprehensive understanding of the outside of the hospital treatment of cancer patients by medical paramedical and volunteer personnel In doing so this text will encourage the creation of new palliative care services improving upon the existing ones and stimulate further research in this field Part 1 of the text will begin with an overview of the current state of affairs of services provided to cancer patients while being cared for by primary health centers It will also review the current literature regarding medical and psychological based therapy options in the community for cancer patients at different stages of their disease Part 2 will address the unique role of the community nurse within the framework of the multidisciplinary team treating the patient in the attempt to provide optimal evaluation and care in very challenging situations such as with terminal patients Part 3 will provide insightful models of this new discipline and serve as a valuable resource for physicians nurses social workers and others involved in the care of cancer patients The book will take a multidisciplinary approach integrating clinical and environmental data for practical management to enhance the efficacy of treatment while relieving suffering Part 4 will also discuss the application of modern technological approaches to track symptoms quality of life diet mobility duration of sleep and medication use including pain killers in chronic cancer patients in the community Part 5 of the book will also be devoted to modes of developing a collaborative program between governmental and non governmental organization sectors This includes volunteer workers in close collaboration with medical professionals for providing emotional and spiritual support nursing care nutritional support and empowering family caregivers Such a model makes palliative care in the community a people s movement thus transferring part of the responsibility and ownership to the community

Emerging Horizons: Business and Society in the Post-Pandemic Era Rajiv Divekar,Komal Chopra,Smita Mehendale,Pravin Kumar Bhoyar,2024-11-11 The COVID 19 pandemic dominated our lives since its outbreak in the year 2020 The whole economy was disrupted and businesses and society had to adapt to the new normal Since the last two years the release of different vaccines and the vaccination drive have helped to contain the pandemic to quite an extent It is believed that irrespective of the different doses of vaccination and its impact on the citizens the virus is here to stay and will translate into an endemic An endemic situation is where the COVID 19 virus will be confined to certain people and regions The COVID 19 pandemic drastically impacted businesses which had to move from a physical mode to an online mode and hybrid mode While several steps were taken to contain the pandemic its lasting effect made organizations and society rethink the future Organizations have moved from offline to hybrid mode and now work from home The propositions in sales have changed from price to consumer well being and convenience Consumers have become

health conscious Healthcare has become a necessity and healthcare companies are taking different steps to penetrate the market with immunity boosters Education is now offered extensively through digital media and has become another alternative The conference theme Pandemic to Endemic Propositions for the Future aims to identify the initiatives businesses and society will adopt for their sustained growth and development The book provides research insights on how organizations should deal with endemic situations in different business areas This book includes research in finance marketing human resources healthcare economics education and general management such as leadership and decision making

Voices to Choices Jennifer L. Solotaroff, Aphichoke Kotikula, Tara Lonnberg, Snigdha Ali, Ferdous Jahan, 2019-06-06 Women have experienced significant changes in various spheres of their lives during the last decades as Bangladesh made economic progress Yet women s economic engagement and empowerment are subdued as they cannot make sufficient choices for themselves This book provides a comprehensive analysis of the economic developments in gender equality in Bangladesh Through examining women s participation in the labour force ownership and control of household assets use and control of financial assets and opportunities for entrepreneurship the authors have made concrete recommendations to overcome challenges that lie ahead for women s economic empowerment This book is an important contribution to the knowledge on interventions required by the policy makers and broader stakeholders towards narrowing gender gaps Fahmida Khatun PhD Executive Director Centre for Policy Dialogue CPD Bangladesh The women s story is central to Bangladesh s economic and social transformation There is an urgent need to deepen researched understanding of the multidimensional pathways of women s economic empowerment and extent of real progress made Voices to Choices is an important contribution to this story Surely the journey of women s economic empowerment remains a long and challenging one Realizing the full benefits of new opportunities is often hampered by both new and entrenched insecurities The task is as much one of empowering women s agency as of dismantling barriers The responsibility is as much women s as society s Hossain Zillur Rahman PhD Executive Chairman Power and Participation Research Centre PPRC This book provides critical insights and is timely as it outlines how girls and women in Bangladesh have gained more opportunities in labor force participation control over household and financial assets as well as greater prospects for entrepreneurship The findings will greatly contribute to future policy and planning for government and key stakeholders working to advance women s economic empowerment in the country Sabina Faiz Rashid PhD Dean and Professor BRAC James P Grant School of Public Health BRAC University

Cancer Personalized Treatment Nima Rezaei, 2025-10-07 The rapid flow of studies in the field of cancer and immunology during the last decades has increased our understanding of the interactions between the immune system and cancerous cells In particular it has been well known that such interactions result in the induction of epigenetic changes in cancerous cells and the selection of less immunogenic clones as well as alterations in immune responses Understanding the crosstalk between nascent transformed cells and cells of the immune system has led to the development of combinatorial
