Before installing Your Cable Modem

Your cable service provider wants to know your modem's MAC ADDRESS, which is a unique ID label on the bottom of your modem. This information identifies your cable modem service or your device manufacturer by linking the cable company (ISP/DSL) to the cable modem. You may be asked to provide the modem's model name and number, which is **BCM6025**. If you read the modem serial number, you can find it from the MAC address on the modem label.
