Remembering the Institute of Pacific Relations William Lancelot Holland,1995 **Preliminary Observations for a Study of Javanese Culture** Francis J. Galbraith,1949 *Indonesia* Howard W. Beers,2021-10-21 The need to find solutions to the grave economic and political problems faced by Indonesia presents a constant challenge In this volume scholars in a variety of fields study a broad spectrum of the problems of this new nation Their overall focus centers on Indonesia s land and population with emphasis on the most efficient means of developing physical and human resources *When Men Revolt and Why* Harold J. Bershad,2020-03-26 The environment within which humans interact has changed dramatically since the Industrial Revolution However their expectations stem from the same hopes and dreams people have had from the beginning of humankind *When Men Revolt and Why* encourages readers to look closer and more deeply into the relationships between humans and the institutions that have originated to help them realize their full potential The contributors not only examine people but also the need to change institutions that have outworn their usefulness When institutions inhibit rather than facilitate everyone s desire to live a full life the result is likely to be violence This book offers the ideas of many people who have tried to dig deeper into basic causes of violence Included in this volume are selections by Aristotle Tocqueville Marx and Engels and Brinton The ideas they espoused still hold vitality In his new introduction James Davies talks about the circumstances under which this book was originally published In Vietnam a people were fighting for their autonomy In the United States many Americans were protesting against American involvement in the Vietnam War Blacks were marching for their civil rights Women were fighting for equality Time has tempered these conflicts Davies maintains that we remain ignorant of the elemental forces that impel people and nations to resort to violence We are usually surprised by their anger and shocked by their violence Davies asserts that we need to learn more about how humans respond to change so as to prepare ourselves for such responses to change *When Men Revolt and Why* is as timely as ever as we deal with uncertainty in various areas of the world the former Yugoslavia the Middle East and Ireland among others It is especially pertinent for political scientists historians and sociologists *Postmodernism & a Sociology...(c)* , In the fifth volume in the Studies in American Sociology Series Stanford M Lyman offers commentaries on and critiques of postmodernism poststructuralism and deconstruction posing questions concerning theoretical and epistemological problems arising from what appears to be a nouvelle vague Postmodernism poststructuralism and deconstructionism are interrelated aspects of the newest theoretical development in sociology and the social sciences This new wave of thought challenges virtually all paradigms currently in use In this his fifth volume in the Studies in American Sociology Series Stanford M Lyman offers commentaries on and critiques

of this new perspective posing questions concerning theoretical and epistemological problems arising from what appears to be a nouvelle vague Among the basic themes and issues explored are the allegation that modernity has defaulted on the promise of the Enlightenment the question of whether the rational basis for knowledge and action is still valid the controversy over the place of metanarratives and macrosociological outlooks and newer concerns over race gender sexual preferences the self and the Other Professor Lyman provides empirically based and historically specific analyses of the relation of the race question to the problem of otherness and to the legal construction of racial identity in American court proceedings Focusing on the issues of citizenship affecting European Middle Eastern and Asian immigrants African Americans and the special cases of the Chinese and Native Americans he relates major public problems to the modern as well as the postmodern perspectives on justice The debate over assimilation and multiculturalism the dynamics of gender specific emotions as expressed in six decades of Hollywood films and the postmodern approach to deviance are each examined He also offers proposals for a social science attuned to but critical of postmodernism and poststructuralism Such a sociology might offer a perspective that treats the drama of social relations in the routine as well as the remarkable aspects of everyday life Professor Lyman provides not only a new understanding of postmodernism but also a program of how to proceed with respect to its challenges

The Myth of the Lazy Native Syed Hussein Alatas, 2013-05-13 The Myth of the Lazy Native is Syed Hussein Alatas widely acknowledged critique of the colonial construction of Malay Filipino and Javanese natives from the 16th to the 20th century Drawing on the work of Karl Mannheim and the sociology of knowledge Alatas analyses the origins and functions of such myths in the creation and reinforcement of colonial ideology and capitalism The book constitutes in his own words an effort to correct a one sided colonial view of the Asian native and his society and will be of interest to students and scholars of colonialism post colonialism sociology and South East Asian Studies

The Earth and I Arthur Firstenberg, 2025-01-07 Almost all environmental books treat the environmental crisis as though humans are in charge of nature rather than part of it The Earth and I is the first book to put all preconceived notions aside and to ask na vely Who are we really What is our relationship to the earth How is it possible that we out of all the millions of species have come to destroy our common home The answers are surprising and have far reaching implications for those searching for solutions Part One tells what is happening to the earth s systems and how they are being destroyed It rewrites the two million year history of humanity s tenure on the earth as if we are part of nature and not separate from it and describes both the earth and the universe as living systems It paints a global coherent picture of the devastation to Earth s air water forests and creatures that is not found elsewhere It reviews assaults on these systems that are not treated adequately if at all elsewhere chemicals radiation plastics detergents biocides noise cars and guns Part Two Digging below the Surface asks why and enters territory not previously explored by environmentalists It describes the various ways to make a living on the earth hunting and gathering shifting agriculture nomadic herding settled agriculture and industrial technology as choices not eras

choices coexisting with one another until today It rewrites economics It explores the relationship of warfare slavery religion and human sexuality to the environmental crisis And it is forced to conclude that these aspects of human culture are not only shaped but created by the technologies we use that the use of non human sources of energy interferes with human psychological development and that the unfulfilled urges within us explode in the violent technologies that are destroying our planet The solutions if it is not too late therefore lie in wise choice rather than wise use of our technologies *Orientalia Nova* Arthur Probsthain,1946 Sociology: A Systematic Introduction Harry M. Johnson,1966-07-12 Harry M Johnson s *Sociology A Systematic Introduction* stands as a landmark in sociological education blending scholarly rigor with accessibility Echoing Donald Fleming s ideal of a textbook that channels consensus without stifling innovation Johnson s book offers a coherent yet flexible account of core sociological principles It is both a manual for students and a treatise that contributes meaningfully to the discipline Rather than impose a rigid framework Johnson draws upon a working consensus in sociology often associated with structural functionalism while avoiding theoretical dogmatism He integrates a wide range of empirical evidence from diverse sources including anthropology political science and economics without ever losing focus on sociological relevance This is not a superficial or oversimplified text Instead Johnson invites readers to think critically offering a balanced blend of theoretical insight and empirical depth He presents complex topics like ideology authority and bureaucracy with clarity and substance The annotated bibliographies at the end of each chapter further enrich the text guiding students toward deeper inquiry While demanding intellectual effort the book rewards it with understanding not rote memorization Johnson s lucid and graceful writing elevates the student s learning experience making the book an enduring educational resource It is a textbook that teaches and inspires by example preparing students for advanced study and independent sociological thought **Economics of Forestry and Rural Development** William F. Hyde,Gregory S. Amacher,2000 An empirical overview of social forestry in Asia and how it relates to community development and household behavior Catalogue of the Collection of Education in Tropical Areas: Regional catalogue University of London.
