Apple Store North Point:

Opening Government John Wanna, Sam Vincent, 2018-04-23 Transparency and citizen engagement remain essential to good government and sound public policy. Indeed, they may well be the key to restoring trust in government itself, currently at an all-time low in Australia. It is ironic then that this has occurred at a time when the technological potential for information dissemination and interaction has never been greater. **Opening Government: Transparency and Engagement in the Information Age** explores new horizons and scenarios for better governance in the context of the new information age, focusing on the potentials and pitfalls for governments and governance more broadly operating in the new information-rich environment. Its contributors, a range of international and Australian governance academics and practitioners, ask what are the challenges to our governing traditions and practices in the new information age and where can better outcomes be expected using future technologies. They explore the fundamental ambiguities extant in opening up government with governments intending to become far more transparent in providing information and in information sharing but also more motivated to engage with other data sources, data systems and social technologies. **Wikitravel Chicago** Peter B. Fitzgerald, Marc Heiden, 2008-11-12 Wikitravel Chicago is the most comprehensive guide ever published to Chicago with museums, sports and skyscrapers from top to bottom, up-to-date info on jazz, blues and Chicago nightlife, in-depth coverage of amazing restaurants across the city and 27 handy city maps with attractions marked. Built using the award-winning Wikitravel website, all Wikitravel guides are written by fellow travelers and updated by our editors from top to bottom multiple times per year so you're always guaranteed to get the newest information. **Copy, Copy, Copy** Mark Earls, 2015-05-26 **THE 1 HACK FOR SMARTER MARKETING** We all want new answers and new solutions for the very real and pressing challenges that our organizations face. New things to point to and talk about, new ways of working and new ways of thinking that might just be better than the old ways. But rather than this endless search for a brilliant and novel solution, why don't you just copy something that's worked before? Mark Earls, leading expert in marketing and consumer behaviour, quashes the stigma around copying and shows that it can help us to rethink how we go about solving problems. By understanding what other people are doing and the choices they make, we can develop strategies to solve the challenges that we face inside and outside the organization. Based on extensive research and proven examples, **Copy Copy Copy** provides over 50 strategies that you can use right away to copy, borrow or steal as the basis for better ideas, faster. If it's good enough for Elvis, Newton, Shakespeare, The British Olympic Cycling Team and Great Ormond Street Hospital, isn't it good enough for you? This delightful book argues convincingly that transferring ideas usually produces greater value than cooking them up from scratch. And then shows you how. Rory Sutherland, Vice Chairman, Ogilvy London and the Spectator Magazine's Wikiman. Yet another entertaining handbook from the acclaimed Herdmeister for anyone involved in marketing, behavioural change and understanding why we all make the choices we make. Earls convincingly disrupts convention about what is innovation, though.

praxis This is jammed with great case studies and 52 actionable strategies Stephen Maher Chairman The Marketing Society and CEO MBA Yet again this leading British business thinker has got us to see the world we inhabit today in fresh and mind altering ways A book which marries theory and practice better than the vast majority out there Most of all his message of copying one s way to greatness is entertaining counter intuitive and fun David Abraham CEO Channel 4 PLC
