The Ranch Chris Peck, 2013-10-24 This book and its author grew up together The 1960s in America transformed everyone who lived through this amazing time in our nation's history Civil rights laws were fought for and passed women began to find a voice and break down barriers Immigrant workers and Native Americans raised their voices We became a smarter more aware nation for a while The Vietnam War became a symbol of those times The music helped define us and the illegal use of banned substances gave some of us the temporary courage to face the insanity head on The ranch is a mostly accurate first person account of one young man's strange journey from gung ho high school student to landing himself in the middle of the world's most dangerous navy Our hero slowly evolves into a war resister who gets into the exact amount of trouble to get assigned to a horse ranch in the U S Navy There are a few rants that I included for mostly therapeutic reasons and several well chosen fits of profanity that help to paint the military experience as it was and I believe still is to this day I consider this book funny and thoughtful but then I'm severely prejudiced I wrote this back cover account myself because George Carlin and Joseph Heller had busy schedules in the afterlife and I don't know Sara Silverman yet The Ranch is my first attempt at being considered a writer I have plans to write a second book which will document my experience as a telephone man in Northeast New Jersey There will be plenty of danger sex drugs and rock and roll with a hint of The Sopranos so don't spoil my enthusiasm and buy this book Thanks America

Exprovement R.A. Mashelkar,Harsh Haladker,2023-04-24 Can an outdated or failed solution in one industry bring disruption to another Can a racing team improve industrial manufacturing productivity Can science fiction offer entrepreneurs valuable lessons in innovative thinking Such examples lie at the core of exprovement which is an exponential improvement borne out of drawing parallels between the seemingly unrelated Henry Ford revolutionized the automotive industry by comparing and correlating his business with the meat packing industry Through the various examples highlighted in this book Hersh Haladker and Raghunath Mashelkar emphasize that searching for growth opportunities within an offering s existing industry usually results in incremental improvement whereas exponential improvement can be achieved by drawing parallels from outside of the current context This book will inspire leaders to look outward for parallels keeping in mind that obvious comparisons can at best lead to improvement whereas unexpected ones can lead to exponential improvement and perpetuate a legacy of innovation
