Mental Health: Intervention Skills for the Emergency Services Tricia Scott, 2023-03-28 This book addresses the practical management of mental health scenarios in the emergency setting and offers first hand reflections on how emergency nurses practitioners and allied mental health professionals handle these situations Responding to mental health needs in emergency situations can be profoundly complex Frequently emergency nurses and other personnel express their feelings of powerlessness as they do not know what to say or do in order to achieve the best outcome and have concerns that their intervention may make the situation worse for those in their care How a practitioner confronts the mental health encounter and takes the essential steps in managing the event can have a critical impact on how that person copes in the future This book helps readers understand what is involved in mental health work in emergency situations and the practical psychosocial and spiritual tensions that arise from managing the event and the sequelae Moreover it shows that it may be possible to provide a more effective emergency mental health service This unique edited book presents critical reflections on aspects of mental health work gathered from the hands on experiences of the personnel Mental health encounters in the emergency context are described in detail illustrating not only what emergency nurses and mental health workers do when mental health crises occur but also what they feel about what they do Written by a diverse team of emergency and mental health nurses and allied professionals currently engaged in emergency care both in hospital and pre hospital settings this book will appeal to emergency nurses and allied health professionals alike

High-skilled Migration Mathias Czaika, 2018 Political and scientific debates on migration policies have mostly focused on governments efforts to control or reduce low skilled asylum and irregular migration or to encourage the return migration of these categories Less research and constructive discourse has been conducted on the role and effectiveness of policies to

attract or retain high skilled workers An improved understanding of the drivers and dynamics of high skilled migration is essential for effective policy making as most highly developed and emerging economies experience growing shortages of high skilled labour supply in certain occupations and sectors and skilled immigration is often viewed as one way of addressing these Simplistic assumptions that high skilled migrants are primarily in pursuit of higher wages raise the expectation that policies which open channels for high skilled immigration are generally successful Although many countries have introduced policies aimed at attracting and facilitating the recruitment of high skilled workers not all recruitment efforts have had the desired effects and anecdotal evidence on the effectiveness of these programmes is rather mixed The reason is that the rather narrow focus on migration policy coincides with a lack of systematic and rigorous consideration of other economic social and political drivers of migration which may be equally or sometimes even more important than migration policies per se A better understanding of migration policies their making consequences and limitations requires a systematic knowledge of the broader economic social and political structures and their interaction in both origin and destination countries This book enhances this vibrant field of social scientific enquiry by providing a systematic multidisciplinary and global analysis of policies driving international high skilled migration processes in their interaction with other migration drivers at the individual city national and international level
