Porto,2020-02-11 Classical rhetorical techniques can enhance the

persuasiveness of Supreme Court opinions by making their language clear lively and memorable This book focuses on three techniques invention creation of arguments arrangement organization and style word choice in the work of Oliver Wendell Holmes Jr Robert Jackson Hugo Black William Brennan and Antonin Scalia respectively The justices featured here contributed to the Court s rhetorical legacy in different ways but all five rejected the magisterial opinion style of the eighteenth and nineteenth centuries in favor of a more personal and conversational format As a result their opinions have endured and even modern readers who cannot recall the justices names understand and embrace the ideas expressed in their legal writings and apply those ideas to current debates Practicing lawyers professors and students can use this book to study legal writing techniques and make their own writing more persuasive **Sourcebook on Legal Writing Programs** Eric B. Easton,2006 *When Dissents Matter* Pamela C. Corley,Amy Steigerwalt,Artemus Ward,2023-09-26 The ability of US Supreme Court justices to dissent from the majority to formally register and explain their belief that a case has been wrongly decided represents a time honored tradition of perhaps the most august American institution Yet the impact of these dissents which allow justices to engage in a dialogue over law and policy has seldom if ever been the focus of dedicated study Analyzing the influence of past dissents on later Supreme Court majority opinions this book presents the first comprehensive study of the effects of dissenting opinions and illuminates which types of dissents successfully influence legal and policy debates which ones fail to make a difference and why Drawing on the private papers of the justices and original data this book demonstrates that court majorities engage with dissents posing a particular threat to their opinions and that they can be persuaded by thoughtful and careful dissenting arguments **Introduction to Classical Legal Rhetoric** Michael H. Frost,2017-03-02 Lawyers law students and their teachers all too frequently overlook the most comprehensive adaptable and practical analysis of legal discourse ever devised the classical art of rhetoric Classical analysis of legal reasoning methods and strategy is the foundation and source for most modern theories on the topic Beginning with Aristotle s Rhetoric and culminating with Cicero s De Oratore and Quintilian s Institutio Oratoria Greek and Roman rhetoricians created a clear experience based theoretical framework for analyzing legal discourse This book is the first to systematically examine the connections between classical rhetoric and modern legal discourse It traces the history of legal rhetoric from the classical period to the present day and shows how modern theorists have unknowingly benefited from the classical works It also applies classical rhetorical principles to modern appellate briefs and judicial opinions to demonstrate how a greater familiarity with the classical sources can deepen our understanding of legal reasoning **The Rhetoric of Seeing in Attic Forensic Oratory** Peter A. O'Connell,2017-03-01 In ancient Athenian courts of law litigants presented their cases before juries of several hundred citizens Their speeches effectively constituted performances that used the speakers appearances gestures tones of voice and emotional appeals as much as their words to persuade the jury Today all that remains of Attic forensic speeches from the fifth and fourth centuries BCE are written texts but as Peter A O Connell convincingly

demonstrates in this innovative book a careful study of the speeches rhetoric of seeing can bring their performative aspect to life Offering new interpretations of a wide range of Athenian forensic speeches including detailed discussions of Demosthenes On the False Embassy Aeschines Against Ktesiphon and Lysias Against Andocides O Connell shows how litigants turned the jurors scrutiny to their advantage by manipulating their sense of sight He analyzes how the litigants words work together with their movements and physical appearance how they exploit the Athenian preference for visual evidence through the language of seeing and showing and how they plant images in their jurors minds These findings which draw on ancient rhetorical theories about performance seeing and knowledge as well as modern legal discourse analysis deepen our understanding of Athenian notions of visibility They also uncover parallels among forensic medical sophistic and historiographic discourses that reflect a shared concern with how listeners come to know what they have not seen

Berger, Kathryn M. Stanchi, 2017-08-07 This book develops a central theme legal persuasion results from making and breaking mental connections This concept of making connections inspired the authors to take a rhetorical approach to the science of legal persuasion That singular approach resulted in the integration of research from cognitive science with classical and contemporary rhetorical theory and the application of these two disciplines to the real life practice of persuasion The combination of rhetorical analysis and cognitive science yields a new way of seeing and understanding legal persuasion one that promises theoretical and practical gains The work has three main functions First it brings together the leading models of persuasion from cognitive science and rhetorical theory blurring boundaries and leveraging connections between the often separate spheres of science and rhetoric Second it illustrates this persuasive synthesis by working through concrete examples of persuasion demonstrating how to apply this new approach to the taking apart and the putting together of effective legal arguments In this way the book demonstrates the advantages of a deeper and more nuanced understanding of persuasion Third the volume assesses and explains why how and when certain persuasive methods and techniques are more effective than others The book is designed to appeal to scholars in law rhetoric persuasion science and psychology to students learning the practice of law and to judges and practicing lawyers who engage in persuasion **Legal Writing**, 2004 **Effective Lawyering** Austen L.
