Ethical Leadership in Organizations Bernhard Bachmann, 2016-09-06 This book links ethical leadership theory to the implementation of improved leadership practices particularly in highly operational environments It builds on the recognition that bad forms of leadership lead to declining motivation and consequently to problems in the social climate and quality of work in organizations and the personal health of employees It is based on a qualitative study from 100 in depth interviews using inductive categorization retrieving deep rich and unprompted data from a highly developed and advanced production facility The book reviews the current state of research in this field and describes the setup of the underlying study linking it to the author s professional experience It discusses the research design its testing and its adaption to organizational practice The book presents the findings of the study introduces specific issues arising from the analysis then critically discusses the interpretation of the findings and matches these with theoretical concepts One finding of the study is that CSR and ethics are too often implemented with a focus on governance process and reporting without looking at leadership on all levels as the critical component Finally it discusses the conclusions and implications derived from the findings Overall the book critically assesses how ethical leadership can be practically implemented in business organizations as a means of transforming organizations into better governed institutions that exhibit ethical behavior Foreword by Prof Dr James F O Kane Dean of The Business School Edinburgh Napier University div

Women as Global Leaders Faith Wambura Ngunjiri, Susan R. Madsen, 2015-02-01 Women as Global Leaders is the second volume in the new Women and Leadership Research Theory and Practice book series published for the International

Leadership Association by IAP Global leadership is an emerging area of research with only a small but growing published literature base. More specifically, the topic of women's advances and adventures in leading within the global context is barely covered in the existing leadership literature. Although few women are serving in global leadership roles in corporate and non-profit arenas and as heads of nations that number is growing (e.g., Indira Nooyi at PepsiCo, Sheryl Sandberg at Facebook, Marissa Mayer at Yahoo, Ellen Johnson Sirleaf as president of Liberia, Angela Merkel as chancellor of Germany). The purpose of this volume is to provide the reader with current conceptualizations and theory related to women as global leaders, recent empirical investigations of the phenomenon, analysis of effective global leadership development programs, and portraits of women who lead or have led in a global role. The volume is divided into four sections. The first section covers the state of women as global leaders, containing chapters by Joyce Osland and Nancy Adler, pioneers in the field of global and/or women's leadership. The second section describes approaches to women's global leadership. The third section offers an analysis of programs that are useful in developing women as global leaders, with the final section profiling women as global leaders, including Margaret Thatcher, Nobel Laureate Malala Yousafzai, and Golda Meir. As Barbara Kellerman noted in the Foreword, this book should be understood as a collection whose time has come precisely because women now have opportunities to lead that are far more expansive than they were even in the recent past. Though their numbers remain low, they are able in some cases to exercise leadership not only as outsiders but also as insiders from the very positions of power and authority to which men forever have had access.
