Scott, 2016-10-04 Over recent decades International Relations scholars have investigated norm dynamics processes at some length with the norm entrepreneur concept having become a common reference point in the literature The focus on norm entrepreneurs has however resulted in a bias towards investigating the agents and processes of successful normative change This book challenges this inherent bias by explicitly focusing on those who resist normative change norm antipreneurs The utility of the norm antipreneur concept is explored through a series of case studies encompassing a range of issue areas and contributed by a mix of well known and emergent scholars of norm dynamics In examining the complexity of norm resistance particular attention is paid to the nature and intent of the actors involved in norm contestation the sites and processes of resistance the strategies and tactics antipreneurs deploy to defend the values and interests they perceive to be threatened by the entrepreneurs and whether it is the entrepreneurs or the antipreneurs who enjoy greater inherent advantages This text will therefore be of interest to scholars and students of International Relations International Law Political Science Sociology and History

**Relations** Christine Daymon, Kristin Demetrious, 2013-08-15 Although there is a small body of feminist scholarship that problematizes gender in public relations gender is a relatively undefined area of thinking in the field and there have been few serious studies of the socially constructed roles defining women and men in public relations This book is positioned within the critical public relations stream Through the prism of gender and public relations it examines not only the manipulatory but also the emancipatory subversive and transformatory potential of public relations for the construction of meaning Its focus is on the dynamic interrelationships arising from public relations activities in society and the gendered lived experiences of people working in the occupation of public relations There are many previously unexplored areas within and through public relations which the book examines These include the production of social meaning and power relations advocacy and activist campaigns for social and political change the negotiation of identity diversity and cultural practice celebrity bodies fashion and harassment in the workplace notions of managing reputation and communicating policy In extending the field of inquiry this edited collection highlights how gender is accomplished and transformed and thus how power is exercised and inequality reproduced or challenged in public relations The book will expand thinking about power relations and privilege for both women and men and how these are affected by the interplay of social cultural and institutional practices Winner of the Outstanding Book PRide Award awarded by the National Communication Association
