In Search of Harmony in a Disharmonious World Velimir Srića, 2014-08-01. Each one of us is in a sense a leader in this world and the author encourages us to adopt a model of harmony based leadership. In easily digested lessons Prof Srić gives fifty-two examples explaining in detail how each of us can develop internal harmony and how to build and develop harmonious teams and organizations. Prof Srić finds the source of today's global chaos in the lack of leadership in politics and business and he explains why the current paradigm is exhausted. The first pages are valuable in their own right as they present an ice bath of cold facts that will wake up anyone who doubts that change is urgently needed.

Iraqi Arab Nationalism Peter Wien, 2008-02-22. Peter Wien presents a provocative discussion on the history of Iraq and the growth of nationalism during the 1930s and early 1940s. He deconstructs the established view that a large proportion of the nationalist movement in Iraq during this period was heavily influenced by Nazi Germany, arguing that the admiration for Germany was highly nuanced and only rarely translated into admiration for Nazism. National unity and patriotism were important, but models of leadership were overwhelmingly based on Iraqis and not Hitler. Analyzing the activities of the Iraqi youth and Jewish Iraqis, *Iraqi Arab Nationalism* gives an understanding of Iraqis from diverse backgrounds. It incorporates source material not previously used in discussions of Iraq and nationalism and contains autobiographical and biographical material from officers, intellectuals, and politicians, along with contemporary journalistic writings which shed new light on Iraqi nationalism.

Leadership in the '80s Chris Argyris, Richard Michael Cyert, 1979. Two essays and two commentaries on leadership in higher education in the 1980s are presented. In *Education Administrators and Professionals*, Chris Argyris considers the decline of public confidence in institutions and professionals by elaborating the concepts of single loop detecting and correcting error without altering underlying values or policies, and double loop detection correction accompanied by changed values or policies learning. He proposes ways by which academic leaders may unfreeze the predisposition for the status quo that exists in single loop learning in order to make way for double loop detection and correction of error that involves the changing of underlying values and policies. In *Managing Universities in the 1980s*, Richard M. Cyert focuses on the major problem facing academic administrators. He suggests that it is difficult for faculty to concentrate on maintaining excellence because of the struggle for institutional survival. Uncertainty will prevail with regard to how institutions will reduce their scales of operation and

university presidents will be involved to a greater degree than in the past with conflict resolution at a level of individual problems Cyert offers strategies indicating how administrators may best manage the complex deescalation problems facing them In Leadership An Attempt to Look at the Future Gene I Maeroff summarizes the essays and analyzes discussion by participants in the 1979 Symposium on Leadership which was sponsored by the Institute for Educational Management A preface by Stephen K Bailey assesses the challenges to educational leadership in the past several decades and poses an optimistic argument for the 1980s SW *Army JROTC Leadership Education & Training: Foundations for success* ,2002
