Dorman, 2007 **Adventures of Purse and Person** Virginia M. Meyer, John Frederick Dorman, 1987 **Early New England** David A. Weir, 2005 The idea of covenant was at the heart of early New England society In this singular book David Weir explores the origins and development of covenant thought in America by analyzing the town and church documents written and signed by seventeenth century New Englanders Unmatched in the breadth of its scope this study takes into account all of the surviving covenants in all of the New England colonies Weir s comprehensive survey of seventeenth century covenants leads to a more complex picture of early New England than what emerges from looking at only a few famous civil covenants like the Mayflower Compact His work shows covenant theology being transformed into a covenantal vision for society but also reveals the stress and strains on church state relationships that eventually led to more secularized colonial governments in eighteenth century New England He concludes that New England colonial society was much more English and much less American than has often been thought and that the New England colonies substantially mirrored religious and social change in Old England **Three Golden Ages** Alf J. Mapp, 1998-11-13 In this intriguing book best

selling author Alf Mapp Jr explores three periods in Western history that exploded with creativity Elizabethan England Renaissance Florence and America s founding What enabled these societies to make staggering jumps in scientific knowledge develop new political structures or create timeless works of art **I, Too, Am America** Theresa A. Singleton, 1999 The moral mission archaeology set in motion by black activists in the 1960s and 1970s sought to tell the story of Americans particularly African Americans forgotten by the written record Today the archaeological study of African American life is no longer simply an effort to capture unrecorded aspects of black history or to exhume the heritage of a neglected community Archaeologists now recognize that one cannot fully comprehend the European colonial experience in the Americas without understanding its African counterpart This collection of essays reflects and extends the broad spectrum of scholarship arising from this expanded definition of African American archaeology treating such issues as the analysis and

representation of cultural identity race gender and class cultural interaction and change relations of power and domination and the sociopolitics of archaeological practice I Too Am America expands African American archaeology into an inclusive historical vision and identifies promising areas for future study **Through a Glass Darkly** Ronald Hoffman, Mechal Sobel, Fredrika J. Teute, 2012-12-01 These thirteen original essays are provocative explorations in the construction and representation of self in America's colonial and early republican eras Highlighting the increasing importance of interdisciplinary research for the field of early American history these leading scholars in the field extend their reach to literary criticism anthropology psychology and material culture The collection is organized into three parts Histories of Self Texts of Self and Reflections on Defining Self Individual essays examine the significance of dreams diaries and carved chests murder and suicide Indian kinship and the experiences of African American sailors Gathered in celebration of the Institute of Early American History and Culture's fiftieth anniversary these imaginative inquiries will stimulate critical thinking and open new avenues of investigation on the forging of self identity in early America The contributors are W Jeffrey Bolster T H Breen Elaine Forman Crane Greg Denning Philip Greven Rhys Isaac Kenneth A Lockridge James H Merrell Donna Merwick Mary Beth Norton Mechal Sobel Alan Taylor Laurel Thatcher Ulrich and Richard White **Captain Billy Bush and the Bush Settlement, Clark County, Kentucky, A Family History** Harry G. Enoch, 2015-10-23 No one played a more important role in the settlement of Clark County than Capt William Billy Bush Born in Orange County Virginia Billy came out with Daniel Boone in 1775 resided for a time at Fort Boonesborough then spent the rest of his life living a few miles from the fort He thus became one of the first permanent settlers in Kentucky Billy was also a key figure in establishing Providence Baptist Church the first church in Clark County Their place of worship the Old Stone Church is now the oldest church on Kentucky soil Billy Bush laid claim to thousands of acres of land between Winchester and the Kentucky River and Daniel Boone ran the surveys for him This land became the foundation of the Bush Settlement **Adapting to a New World** James Horn, 2012-12-01 Often compared unfavorably with colonial New England the early Chesapeake has been portrayed as irreligious unstable and violent In this important new study James Horn challenges this conventional view and looks across the Atlantic to assess the enduring influence of English attitudes values and behavior on the social and cultural evolution of the early Chesapeake Using detailed local and regional studies to compare everyday life in English provincial society and the emergent societies of the Chesapeake Bay Horn provides a richly textured picture of the immigrants Old World backgrounds and their adjustment to life in America Until the end of the seventeenth century most settlers in Virginia and Maryland were born and raised in England a factor of enormous consequence for social development in the two colonies By stressing the vital social and cultural connections between England and the Chesapeake during this period Horn places the development of early America in the context of a vibrant Anglophone transatlantic world and suggests a fundamental reinterpretation of New World society History in My Bones William Howard, 2024-12-18 Not content knowing that his father's African roots rest in 16th century

Angola author William Howard embarked on a 7 year search for the history specific to his male paternal ancestors during the era 1525 AD to the present Starting with the stories passed on to him by his grandfather who died in 1976 William relied on DNA test results plus printed and oral history to substantiate what his grandfather told him as well as what he could not The result is History in My Bones the title of an essay William wrote for his extended family The book documents the history of every one of his paternal ancestors who lived in several parts of the world from the 16th century to the present They include the son of an African chief an Afro Portuguese Filipino serf whose fathers sailed with Portuguese explorers to Asia and the second wealthiest nonwhite property owner in Halifax County North Carolina To further document the history William traveled to Africa Southeast Asia Europe and to the American locations where these male ancestors lived Using his camera face to face interviews and such rarified sources as the Virginia Carolorum England Birth and Christenings 1538 1975 Database and of course U S Federal and local census records since 1790 and other sources William documents his fascinating story with over 300 endnotes court cases and photographs This material explains the history of his ancestors since the early 16th century in Africa and goes on to explore the life of his ancestral Mbundu family who escaped the Atlantic Slave Trade and lived among the Black Rocks Pedras Negras of today s northern Angola History in My Bones is an unusual story of free and enslaved African American ancestors written in a way no other African American has dared to before now

The World of Colonial America Ignacio Gallup-Diaz, 2017-04-28 The World of Colonial America An Atlantic Handbook offers a comprehensive and in depth survey of cutting edge research into the communities cultures and colonies that comprised colonial America with a focus on the processes through which communities were created destroyed and recreated that were at the heart of the Atlantic experience With contributions written by leading scholars from a variety of viewpoints the book explores key topics such as The Spanish French and Dutch Atlantic empires The role of the indigenous people as imperial allies trade partners and opponents of expansion Puritanism Protestantism Catholicism and the role of religion in colonization The importance of slavery in the development of the colonial economies The evolution of core areas and their relationship to frontier zones The emergence of the English imperial state as a hegemonic world power after 1688 Regional developments in colonial North America Bringing together leading scholars in the field to explain the latest research on Colonial America and its place in the Atlantic World this is an important reference for all advanced students researchers and professionals working in the field of early American history or the age of empires

Everyday Life in the Early English Caribbean Jenny Shaw, 2013-11-15 Set along both the physical and social margins of the British Empire in the second half of the seventeenth century Everyday Life in the Early English Caribbean explores the construction of difference through the everyday life of colonial subjects Jenny Shaw examines how marginalized colonial subjects Irish and Africans contributed to these processes By emphasizing their everyday experiences Shaw makes clear that each group persisted in its own cultural practices Irish and Africans also worked within and challenged the limits of the colonial regime Shaw s research

demonstrates the extent to which hierarchies were in flux in the early modern Caribbean allowing even an outcast servant to rise to the position of island planter and underscores the fallacy that racial categories of black and white were the sole arbiters of difference in the early English Caribbean The everyday lives of Irish and Africans are obscured by sources constructed by elites Through her research Jenny Shaw overcomes the constraints such sources impose by pushing methodological boundaries to fill in the gaps silences and absences that dominate the historical record By examining legal statutes census material plantation records travel narratives depositions interrogations and official colonial correspondence as much for what they omit as for what they include *Everyday Life in the Early English Caribbean* uncovers perspectives that would otherwise remain obscured This book encourages readers to rethink the boundaries of historical research and writing and to think more expansively about questions of race and difference in English slave societies

Freedom's Gardener Myra Beth Young Armstead, 2012-02 In 1793 James F Brown was born a slave and in 1868 he died a free man At age 34 he ran away from his native Maryland to spend the remainder of his life in upstate New York's Hudson Valley where he was employed as a gardener by the wealthy Dutch descended Verplanck family on their estate in Fishkill Landing Two years after his escape he began a diary that he kept until two years before his death In *Freedom's Gardener* Myra B Young Armstead uses seemingly small details from Brown's diaries entries about weather gardening steamboat schedules the Verplancks social life and other largely domestic matters to construct a bigger story about the development of national citizenship in the United States in the years predating the Civil War Brown's experience of upward mobility demonstrates the power of freedom as a legal state the cultural meanings attached to free labour using horticulture as a particular example and the effectiveness of the vibrant political and civic sphere characterizing the free democratic practices begun in the Revolutionary period and carried into the young nation In this first detailed historical study of Brown's diaries Armstead thus utilizes Brown's life to more deeply illuminate the concept of freedom as it developed in the United States in the early national and antebellum years That Brown an African American and former slave serves as such a case study underscores the potential of American citizenship during his lifetime
