The American Jury System Randolph N. Jonakait, 2008-10-01 How are juries selected in the United States? What forces influence juries in making their decisions? Are some cases simply beyond the ability of juries to decide? How useful is the entire jury system? In this important and accessible book, a prominent expert on constitutional law examines these and other issues concerning the American jury system. Randolph N. Jonakait describes the historical and social pressures that have driven the development of the jury system, contrasts the American jury system to the legal process in other countries, reveals subtle changes in the popular view of juries, examines how the news media, movies, and books portray and even affect the system, and discusses the empirical data that show how juries actually operate and what influences their decisions. Jonakait endorses the jury system in both civil and criminal cases, spelling out the important social role juries play in legitimizing and affirming the American justice system.

Justice in the Making: Relating, Participating, Communicating Robyn Ann Penman, 2025-01-12 Why don't measures relying on distributive justice really seem to solve social justice problems? How can we account for the persistence of racist injustice despite good intentions? How well is justice really served in our adversarial system in courts? Are procedural justice measures really good enough? Has restorative justice been co-opted and compromised by the conventional justice system? Robyn Penman invites you to explore with her what it can mean to reimagine justice as something we make together in the dynamic process of relating and communicating with all its uncertainties and open-endedness. She draws particularly on ideas from the relational turn in philosophy, on pragmatism, on social constructionism, and on a communication perspective. Using a relational communication

framework Robyn Penman shows how it is possible to pick up the threads of recent critiques and reform proposals in the justice literature and transform them into something so much better In doing so she develops a rich grammar including concepts such as relational responsivity and responsibility to account for the dynamics of making justice She also offers new insights and possibilities towards acting justly in an ongoing co created process
