Kuo, John Travis Marshall, Ryan Rowberry, 2022-09-29 This century s major disasters from Hurricane Katrina and the Fukushima nuclear meltdown to devastating Nepalese earthquakes and the recent crippling volcanic eruptions and tsunamis in Tonga have repeatedly taught that government institutions are ill prepared for major disaster events leaving the most vulnerable among us unprotected These tragedies represent just the beginning of a new era of disaster an era of floods heatwaves droughts and pandemics fueled by climate change Laws and government institutions have struggled to adapt to the scope of the challenge old models of risk no longer apply This Handbook provides timely guidance taking stock of the field of disaster law and policy as it has developed since Hurricane Katrina Experts from a wide range of academic and practical backgrounds address the root causes of disaster vulnerability and offer solutions to build more resilient communities to ensure that no one is left behind *The Politics of Musical Time* Eben Graves, 2022-10-04 How do the temporal features of sacred music affect social

life in South Asia Due to new time constraints in commercial contexts devotional musicians in Bengal have adapted longstanding features of musical time linked with religious practice to promote their own musical careers The Politics of Musical Time traces a lineage of singers performing a Hindu devotional song known as krtan in the Bengal region of India over the past century to demonstrate the shifting meanings and practices of devotional performance Focusing on pad bal krtan a type of devotional sung poetry that uses long duration forms and combines song and storytelling Eben Graves examines how expressions of religious affect and political belonging linked with the genre become strained in contemporary shortened performance time frames To illustrate the political economy of performance in South Asia Graves also explores how religious performances and texts interact with issues of nationalism gender and economic exchange Combining ethnography history and performance analysis including videos from the author's fieldwork The Politics of Musical Time reveals how ideas about the sacred and the modern have been expressed and contested through features of musical time found in devotional performance

Cities of Tomorrow and the City to Come Noah J. Toly, 2015-05-05 Each day the world's urban population swells by almost 200 000 With every passing week more than a million people new to cities face unexpected realities and challenges of urban life Just like the sheer volume of people in the city these challenges can be staggering As with the height and breadth of our metropolises the wonders of urban life can be breathtaking Like the city itself the questions and challenges of urban life are both sprawling and pulsing with vitality As part of Zondervan's Ordinary Theology series this volume offers a series of Christian reflections on some of the most basic and universal challenges of 21st century urban life It takes one important dimension of what it means to be human that human beings are made to be for God for others and for creation and asks What are the implications of who God made us to be for how we ought to live in our cities This book is intended for Christians facing the riddle of urban creation care discerning the shape of community life struggling with the challenges of wealth and poverty and wondering at the global influence of cities It is meant for those whose lives and livelihoods are inextricably bound up in the flourishing of their neighborhood and also for those who live in the shadow of cities Most of all it is meant for those grappling with the relationship between the cities of tomorrow and the glorious city to come

Design and Order Nigel C. Lewis, 2020-07-06 Teaches the principles behind the successful planning and creation of inspired built forms and urban places This book offers an integrated understanding of both the principles and the perception of the design of built environments and public spaces It outlines the fundamental characteristics that are evident in the creation of built form and illustrates how they determine the experience of resultant places It also consolidates the key criteria that need to be taken into consideration in the development of these areas All of the above mentioned aims to provide designers with a solid understanding of the implications of their decisions on perception and behavior during the creation of new spaces Design and Order Perceptual experience of built form Principles in the Planning and Making of Place starts by examining the designing of natural environments and the affect that they have on

humans It teaches readers how people experience and are shaped by a space via their eyes brain and overall perception It then instructs on proper grammar of form and syntax so that designers can understand how to pursue design processes systematically The book then takes readers through this process of designing informing them on the principles of form function configuration communication organization color and contrasts building structures good practice and more Seeks to improve the methodological approach to the planning and design of buildings Broadly address all of the functions that impact the realization of new built and urban form Outlines the fundamental characteristics that are evident in the design of built forms and illustrates how these characteristics determine the experience of the resultant places Comprehensively covers the ideas principles and the perception of design Teaches designers to make informed decisions about applying or discarding principles when creating spaces Design and Order is a unique book that will appeal to students and professionals in architecture urban design and planning as well as designers and developers

Global Happiness Roman Adrian Cybriwsky, 2015-12-14 An authoritative comprehensive and highly accessible assessment of the happiest and least happy countries and cities in the world as well as of the happiest and least happy cities and states in the United States Which are the happiest countries in the world and which nations are the least contented Which cities in the world are considered the happiest and unhappiest Which American cities and states are at the top of the list and which ones rank poorly Presenting findings that are based on solid data and authoritative information this book offers a bold take on the geography of happiness around the world and presents results that are often unexpected It enables readers to make informed cross cultural comparisons between countries and world cities and uniquely synthesizes global information in a way that allows us answer the important question What makes us happy A book like no other Global Happiness A Guide to the Most Contented and Discontented Places around the Globe tackles the complex equation of determining what places offer the happiest living experiences by considering quality of life prospects for the future social relations confidence in good government and many other factors that together constitute critical differences in living experience The author a professor of geography and urban studies as well as a world traveler also takes into account the current events politics and environmental situations of specific regions states and cities and considers what residents of the cities and countries say about their own places to derive accurate and fair assessments

Cities in a World Economy Saskia Sassen, 2018-05-30 Cities in a World Economy examines the emergence of global cities as a new social formation As sites of rapid and widespread developments in the areas of finance information and people global cities lie at the core of the major processes of globalization The book features a cross disciplinary approach to urban sociology using global examples and discusses the impact of global processes on the social structure of cities The Fifth Edition reflects the most current data

available and explores recent debates such as the role of cities in mitigating environmental problems the global refugee crisis Brexit and the rise of Donald Trump in the United States Society of Singularities Andreas Reckwitz,2020-04-21 Our contemporary societies place more and more emphasis on the singular and the unique The industrial societies of the early 20th century produced standardized products cities subjects and organizations which tended to look the same but in our late modern societies we value the exceptional unique objects experiences places individuals events and communities which are beyond the ordinary and which claim a certain authenticity Industrial society s logic of the general has been replaced by late modernity s logic of the particular In this major new book Andreas Reckwitz examines the causes structures and consequences of the society of singularities in which we now live The transformation from industrial to cultural capitalism the rise of digital technologies and their culture machine and the emergence of an educated urban new middle class form a powerful engine for the singularization of the social In late modernity what is singular is valorized and stirs the emotions while what is general has to remain in the background and this has profound social consequences The society of singularities systematically produces devaluation and inequality winner takes all markets job polarization the neglect of rural regions and the alienation of the traditional middle class The emergence of populism and the rise of aggressive forms of nationalism which emphasize the cultural authenticity of one s own people thus turn out to be the other side of singularization This prize winning book offers a new perspective on how modern societies have changed in recent decades and it will be of great value to anyone interested in the forces that are shaping our world today Stay in the City Mark R. Gornik,Maria Liu Wong,2017-10-09 We live in an urban age To a degree unprecedented in human history most of the world s people live in cities It is thus vital say Mark Gornik and Maria Liu Wong for Christians to think constructively about how to live out their faith in an urban setting In Stay in the City Gornik and Liu Wong look at what is happening in the urban church and what Christians everywhere can learn from it Once viewed suspiciously for their worldly temptations and vices cities are increasingly becoming centers of vibrant Christian faith Writing from their experience living and working in New York City Gornik and Liu Wong invite readers everywhere to join together in creating a more flourishing and faith filled urban world

Connectography Parag Khanna,2016-04-19 From the visionary bestselling author of The Second World and How to Run the World comes a bracing and authoritative guide to a future shaped less by national borders than by global supply chains a world in which the most connected powers and people will win Connectivity is the most revolutionary force of the twenty first century Mankind is reengineering the planet investing up to ten trillion dollars per year in transportation energy and communications infrastructure linking the world s burgeoning megacities together This has profound consequences for geopolitics economics demographics the environment and social identity Connectivity not geography is our destiny In Connectography visionary strategist Parag Khanna travels from Ukraine to Iran Mongolia to North Korea Pakistan to Nigeria and across the Arctic Circle and the South China Sea to explain the rapid and unprecedented changes affecting every part of

the planet He shows how militaries are deployed to protect supply chains as much as borders and how nations are less at war over territory than engaged in tugs of war over pipelines railways shipping lanes and Internet cables The new arms race is to connect to the most markets a race China is now winning having launched a wave of infrastructure investments to unite Eurasia around its new Silk Roads The United States can only regain ground by fusing with its neighbors into a super continental North American Union of shared resources and prosperity Connectography offers a unique and hopeful vision for the future Khanna argues that new energy discoveries and technologies have eliminated the need for resource wars ambitious transport corridors and power grids are unscrambling Africa s fraught colonial borders even the Arab world is evolving a more peaceful map as it builds resource and trade routes across its war torn landscape At the same time thriving hubs such as Singapore and Dubai are injecting dynamism into young and heavily populated regions cyber communities empower commerce across vast distances and the world s ballooning financial assets are being wisely invested into building an inclusive global society Beneath the chaos of a world that appears to be falling apart is a new foundation of connectivity pulling it together Praise for Connectography Incredible With the world rapidly changing and urbanizing Khanna s proposals might be the best way to confront a radically different future The Washington Post Clear and coherent a well researched account of how companies are weaving ever more complicated supply chains that pull the world together even as they squeeze out inefficiencies He has succeeded in demonstrating that the forces of globalization are winning Adrian Woolridge The Wall Street Journal Bold With an eye for vivid details Khanna has produced an engaging geopolitical travelogue Foreign Affairs For those who fear that the world is becoming too inward looking Connectography is a refreshing optimistic vision The Economist Connectivity has become a basic human right and gives everyone on the planet the opportunity to provide for their family and contribute to our shared future Connectography charts the future of this connected world Marc Andreessen general partner Andreessen Horowitz Khanna s scholarship and foresight are world class A must read for the next president Chuck Hagel former U S secretary of defense This title has complex layouts that may take longer to download *Catalog of Copyright Entries* Library of Congress.
