Gower Handbook of Discrimination at Work Hazel Conley, 2016-04-29 Workplace discrimination is an experience that despite four decades of equality legislation continues to blight the lives of thousands every year. Discrimination persists on the protected grounds of sex race disability age sexual orientation religion or belief and gender reassignment as well as where no legal protection exists such as in relation to class background or migration status. The Handbook discusses recent changes in equality legislation as well as considering the limitations of legal frameworks in addressing inequality. However complying with the law is only the first step towards addressing discrimination in the workplace and the book goes beyond the law and provides evidence of good practice in promoting organisational culture change as well as considering future directions for policy on equality action. The Gower Handbook of Discrimination at Work looks at both social justice and business case perspectives and its message is not a negative one. The contributors have considerable depth of understanding of workplace discrimination both as academics and equality practitioners their work has contributed to policy formation and all are committed to improving the lives of people at work.
