The Worst Journey in the World Apsley Cherry-Garrard, 2022-09-04 In *The Worst Journey in the World* Apsley Cherry Garrard masterfully recounts the harrowing Antarctic expedition of Robert Falcon Scott interweaving personal narrative with the broader themes of exploration and human endurance Written in a vivid yet austere literary style the work juxtaposes moments of stark beauty against the brutal realities of one of the most unforgiving landscapes on Earth Cherry Garrard's keen observations and poignant reflections provide a nuanced portrayal of not only the physical challenges presented by the Antarctic but also the psychological burdens endured during this ill fated journey thereby situating the text within the literary context of early 20th century adventure narratives and existential inquiry Apsley Cherry Garrard a member of Scott's Terra Nova Expedition drew upon his own experiences of hardship and discovery to pen this seminal work Born into an upper middle class English family Cherry Garrard's academic background in natural science and profound passion for exploration positioned him to document the landscape and the trials of his fellow explorers with precision and empathy His firsthand encounters with both the sublime and the terrifying aspects of nature are illuminated in this compelling narrative This book is highly recommended for those

who cherish the spirit of adventure and appreciate the complexities of human ambition in the face of nature's vast indifference. *The Worst Journey in the World* not only serves as an essential historical account but also invites readers to reflect on the limits of human endurance and the moral imperatives of exploration, making it a timeless classic. [The Worst Journey in the World](#) Apsley Cherry-Garrard, 2013-03-25. In 1910, hoping that the study of penguin eggs would provide an evolutionary link between birds and reptiles, a group of explorers left Cardiff by boat on Robert Falcon Scott's expedition to Antarctica. Not all of them would return. Written by one of its survivors, *The Worst Journey in the World* tells the moving and dramatic story of the disastrous Scott expedition. Driven by an obsession for scientific knowledge, these brave polar explorers embarked on a journey into the unknown, testing their endurance by pushing themselves to the ultimate physical and mental limits as they surveyed the striking and mammoth land that lay far to the south. Their goal was to discover as much as was scientifically possible about the terrain and habitat of Antarctica and to be the first to reach the South Pole. The party was plagued by bad luck, weather conditions of unanticipated ferocity, and the physical deterioration of the party itself. On the last part of the journey, the youngest member of the team and its sole survivor, Apsley Cherry-Garrard, gives a gripping account of Scott's last expedition. The author was also part of the rescue team that eventually found the frozen bodies of Scott and the three men who had accompanied him on the final push to the Pole. These deaths would haunt him for the rest of his life as he questioned the decisions he had made and the actions he had taken in the days leading up to the Polar Party's demise. Prior to this sad denouement, Cherry-Garrard's account is filled with details of scientific discovery and anecdotes of human resilience in a harsh environment. Each participant in the expedition is brought fully to life. The author's recollections are supported by diary excerpts and accounts from other teammates. At the age of twenty four Apsley Cherry Garrard was one of the youngest members of the Terra Nova expedition

This was Robert F Scott's second attempt to be the first to reach the South Pole

Cherry's application to join the expedition was initially rejected as Scott was looking for scientists but he made a second application along with a promise of 1 000 equivalent to 103 000 in 2019 towards the cost of the expedition

Rejected a second time he made the donation regardless

Struck by this gesture and at the same time persuaded by E A Wilson Scott agreed to take Cherry Garrard as assistant zoologist

The expedition arrived in the Antarctic on 4 January 1911

Scott and four companions eventually attained the pole on 17 January 1912 where they found that a Norwegian expedition led by Roald Amundsen had preceded them by 34 days

Scott's entire party died on the return journey from the pole

some of their bodies journals and photographs were found by a search party eight months later

After returning to England Cherry Garrard travelled to China and then volunteered to the First World War and commanded a squadron of armoured cars in Flanders

Invalided out in 1916 he suffered from clinical depression as well as ulcerative colitis which had developed shortly after returning from Antarctica

Although his psychological condition was never cured the explorer was able to treat himself to some extent by writing down his experiences

In 1922 encouraged by his friend George Bernard Shaw Cherry Garrard wrote *The Worst Journey in the World* his memoir of the incredible 3 years he spent in Antarctica

Over 80 years later this book is still in print and is often cited as a classic of travel literature having been acclaimed as the greatest true adventure story ever written

Polar exploration is at once the cleanest and most isolated way of having a bad time which has been devised

It is the only form of adventure in which you put on your clothes at Michaelmas and keep them on until Christmas and save for a layer of the natural grease of the body

find them as clean as though they were new

monastery and the post comes but once a year As men will compare the hardships of France Palestine or Mesopotamia so it would be interesting to contrast the rival claims of the Antarctic as a medium of discomfort A member of Campbell s party tells me that the trenches at Ypres were a comparative picnic But until somebody can evolve a standard of endurance I am unable to see how it can be done Take it all in all I do not believe anybody on earth has a worse time than an Emperor penguin Even now the Antarctic is to the rest of the earth as the Abode of the Gods was to the ancient Chaldees a precipitous and mammoth land lying far beyond the seas which encircled man s habitation and nothing is more striking about the exploration of the Southern Polar regions than its absence for when King Alfred reigned in England the Vikings were navigating the ice fields of the North yet when Wellington fought the battle of Waterloo there was still an undiscovered continent in the South This book contains the travel tales of Robert Falcon Scott s last Expedition which in 1910 moved him from England to Antarctica where he died tragically two years later The author Apsley Cherry Garrard was part of the expedition team and along with others he found the captain and others frozen to death The expedition should bring the men of British origin to the South Pole before the Norwegian Roald Asmundsen would reach it but the way turned out to be too hard they hardly managed their daily stint In addition the Antarctica gave them a very hard time particularly the harsh weather conditions This The Worst Journey in the World Apsley Cherry-Garrard,2009-12-01 Published in 1922 by an expedition survivor this riveting adventure classic recounts the ill fated expedition to the South Pole led by Robert Falcon Scott Journal entries by other expedition members complement the narrative offering an incredible unforgettable story of struggle and courage in the face of overwhelming odds *The Worst Journey in the World* Apsley Cherry-Garrard,1989 The author recounts his experiences on Scott s last Antarctic expedition and describes the hardships of polar exploration

The Worst Journey in the World Apsley CHERRY-GARRARD, 2017-09-16 The Worst Journey in the World is a memoir of the 1910-1913 British Antarctic Expedition led by Robert Falcon Scott It was written and published in 1922 by a member of the expedition Apsley Cherry Garrard and has earned wide praise for its frank treatment of the difficulties of the expedition the causes of its disastrous outcome and the meaning if any of human suffering under extreme conditions Preparations and the Worst Journey In 1910 Cherry Garrard and his fellow explorers travelled by sailing vessel the Terra Nova from Cardiff to McMurdo Sound Antarctica Cherry was teased at first by some of the other members of this expedition because of his lack of Antarctic experience his lack of specialised credentials for the position of assistant zoologist to which he had been named and persistent suspicions among some of his comrades that he had in fact bought his way on board by contributing 1 000 to the expedition's troubled funds Cherry Garrard responded to these taunts with modesty a self-sacrificial ability to work hard and acute observational skills He was also according to novelist biographer and socialite Nancy Mitford the only intellectual amongst the crew These traits were to serve him well when it came time for him to write down his memories of the expedition They also caught the eye of the expedition's second in command Dr Edward Bill Wilson who adopted Cherry Garrard as a protégé Dr Wilson's personal goal in Antarctica was to recover eggs of the Emperor penguin for scientific study It was thought at the time that the

flightless and primitive penguin might shed light on an evolutionary link between reptiles and birds through its embryo As the bird nests during the Antarctic winter it was necessary to mount a special expedition in July 1911 from the expedition s base at Cape Evans to the penguins rookery at Cape Crozier Wilson chose Cherry Garrard to accompany him and Birdie Bowers across the Ross Ice Shelf under conditions of complete darkness and temperatures of 40 C and below All three men barely alive returned from Cape Crozier with their egg specimens which were stored It was this Winter Journey not the later expedition to the South Pole that Cherry Garrard later described as The Worst Journey in the World Later the tragedy and the book The expedition then swung into preparations for a march from Cape Evans to the as yet unreachable South Pole This march was to be done during the Antarctic summer in 1911 1912 Scott s strategy called for a large team of men ponies motor sledges and dogs to start out southward from their base hauling food and fuel on sledges As the team progressed southward the leader would successively send support groups back home leaving a small Pole party of the fittest men to make the final advance to the South Pole Cherry Garrard accompanied the initial team across the Ross Ice Shelf and up the Beardmore Glacier that discharges ice from the Antarctic Plateau down onto the shelf At the edge of the polar plateau Scott told him that he would have to return northward The men not chosen to go on to the Pole all returned to the base camp at Cape Evans Some returned by ship to Britain while others stayed in the Antarctic and prepared to meet Scott and his four companions on the return journey But for a variety of reasons partly described in The Worst Journey in the World the rendez vous failed Cherry had been given the task of using the dog teams to meet Scott s party and assist them home but in fact Cherry Garrard did not penetrate beyond One Ton Depot only 11 miles distant from Scott s final location where he and his companions froze to death In 1912 1913 Cherry Garrard and other expedition members once again marched southward this time to try to find traces of their lost comrades
