The Report: Oman 2015 Oxford Business Group,2015-01-21 As with most of its neighbours in the GCC region oil and gas remains a significant contributor to Oman s economy accounting for around 50% of GDP While the recent slump in oil prices is a concern increased investment in enhanced oil recovery techniques in recent times has attempted to make up for this decline with supply increasing as a result Meanwhile Oman s industrial sector particularly the petrochemicals segment is poised for large expansion with ongoing investment in downstream infrastructure and new facilities in the pipeline for the Sohar and Salalah industrial regions expected to contribute significantly to output before 2020 Added to this is the rapid development of Oman s ports rail and airports which is expected to drive its reputation as a regional logistics hub while developing the tourism sector which is considered as key moving forward

Managing oil palm landscapes Lesley Potter,2015-05-26 This study comprises a review of oil palm development and management across landscapes in the tropics Seven countries have been selected for detailed analysis using surveys of the current literature mainly spanning the last fifteen years Indonesia and Malaysia are the obvious leaders in terms of area planted and levels of production and export but also in literature generated on social and environmental challenges In Latin America Colombia is the dominant producer with oil palm expanding in disparate landscapes with a strong focus on palm oil based biodiesel and small scale growers and companies in Peru and Brazil offer contrasting ways of inserting oil palm into the Amazon Nigeria and Cameroon represent African nations with traditional groves and old plantations in which foreign land grabs to establish new oil palm have recently occurred

The Report: South Africa 2014 Oxford Business Group,2014-12-08 Indeed since the end of apartheid in 1994 South Africa has become a major diplomatic player both on the African continent as well as further afield Despite the size of South Africa s economy the country currently faces a number of major economic challenges As of the end of July 2014 the unemployment rate was at 25.5% according to data from Statistics South Africa which was among the highest in the world While the government s long term development plans are generally highly regarded delivery and execution has occasionally been problematic While there are major hurdles that must be cleared given the country s strong institutions and the rapid pace of economic expansion over the past two decades South Africa should be able to look forward to 20 more years of peace and steady sustained economic growth

The Report: Indonesia 2015 Oxford Business Group,2015-05-21 With the application of the right policies Indonesia could return to growth above 6% and perhaps eventually reach the 7% target set by the new president The government intends to double expenditure in the key areas of public works transport and agriculture and new plans include the construction of 2600 km of roads 15 airports 24 ports 3258 km of railway and the addition of around 35 000 MW to the state electricity company s current capacity The investments to be made in infrastructure have the potential to boost the economy in both the short and long term A shift to more investment

and less consumption would help lead to more sustainable growth and insulate the country from external shocks Already the numbers are starting to head in the right direction

Interacting Dark Energy and the Expansion of the Universe Alexander S. Silbergleit, Arthur D. Chernin, 2017-04-22 This book presents a high level study of cosmology with interacting dark energy and no additional fields It is known that dark energy is not necessarily uniform when other sources of gravity are present interaction with matter leads to its variation in space and time The present text studies the cosmological implications of this circumstance by analyzing cosmological models in which the dark energy density interacts with matter and thus changes with the time The book also includes a translation of a seminal article about the remarkable life and work of E B Gliner the first person to suggest the concept of dark energy in 1965
