Jisung Park, 2025-07-29 How

the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle them today It s hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In *Slow Burn* R Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally

White Privilege

Kalwant Bhopal, 2025-09-30 Why do racial inequalities persist and in some cases deepen in an era that claims to be post racial Despite popular narratives of progress Black and minority ethnic communities continue to face systemic disadvantage In this fully revised and updated edition Kalwant Bhopal uncovers how shifting social political and economic landscapes in both the UK and US have not only failed to reduce racial discrimination but instead have intensified it From the backlash against BlackLivesMatter to the rise of far right governments denying the relevance of race altogether this book dismantles the illusion of racial progress Drawing on timely debates and grounded in empirical evidence Bhopal reveals how race continues to shape access to power opportunity and justice Urgent and unflinching this is essential reading for anyone interested in exposing the myth of a post racial society

Learning from Difference: Comparative Accounts of Multicultural Education Joseph Lo Bianco, Aydin Bal, 2016-03-30 This book analyses the experiences of multicultural education in nine very different international settings uncovering insights from a vast variety of educational contexts Taking a multi critical approach in reporting and discussing problems faced by increasingly multicultural and multilingual societies the nine case studies reflect radically different assumptions about what counts as difference and what should be the appropriate ways for education systems to respond to differences While each country s approach seems unique analysis of the divergent treatments of internal population diversity elicits a genuinely global instance of the increasingly shared phenomenon of cultural pluralism Discussing various successes and failures of policy enactment theory pedagogy and management of

diversity the book isolates both the differences and similarities in the unique geopolitical and socio historical contexts of the countries investigated A key value of the book is that it greatly expands the range of settings experiences epistemologies ontologies and practical experiences that are typically encountered in mainstream discussion of what counts as multicultural education In effect all societies are in some way dealing with difference this volume helps widen the scope of reflection and thus facilitates increased global learning from difference
