Domination by Region 4 Ramesh Gampat,2023-03-30 This book argues that Guyana presently operates a system of domestic colonialism DM DM

builds on institutions established during imperial colonialism strengthened and expanded since independence in 1966 and regionalization which balkanized the country into ten administrative regions Regionalization is a flexible instrument that enables political and economic control with one strengthening the other further empowering Region 4 where the metropole is located and enhancing the dependency of the nine satellite regions Both political parties exploits regionalization when in power the PPP principally through financial strangulation and discrimination the PNC and its various incarnations via political control Regionalization is the symbol of domestic colonialism PPP I last six years of its previous regime 2009 to 2014 allocated an annual average of 11.1 percent of public funds to the regions the APNU AFC 14.1 percent from 2015 to 2020 and PPP II the current PPP administration 12.5 percent during its first two years in office Over the fourteen years from 2009 to 2022 the four largest agencies consumed 42.5 percent of total Central Government expenditure Under PPP I these agencies spent 15 percentage points more on capital costs than they did under APNU AFC However under the latter government they spent more than 10 percentage points on the amorphous category Other Charges These anomalies are hard to explain because there were no functional enhancements or reach of coverage by these agencies Incredibly the Ministry of Finance MoF the largest agency for all but one year spent 46.1 percent of what the Ministry of Public Works incurred on public infrastructure for the entire country An important avenue of political patronage is the employment of contract and temporary workers who are hired outside of the public service legislative framework These workers comprised half of the MoF's workforce over the fourteen year period and the last six years of PPP I for the Ministry of Health that figure is around 37.0 percent for both periods Employment patronage rose during APNU AFC's term of office to 53.8 percent in the MoF and to 41.8 percent in the MoH Employment patronage at these two big agencies was lower during PPP I than the six years of the APNU AFC Government Patronage employment is considerably lower with the PPP II than all previous regimes The strategic deviation is explained by the rise of three separate categories of low and unskilled workers who account for 48.5 percent and 57.7 percent of workforce of the MoF and the MoH respectively These figures are more than 10 percentage points larger than those of all previous administrations In effect the PPP doles out patronage away from hiring outside of the public service legislative framework to hiring within it Not only has the PPP legalized patronage it has also increased it significantly

Collaborative Learning in a Global World Miri

Shonfeld,David Gibson,2018-11-01 The 21st century has brought about changes in every aspect of life through ubiquitous technology and Internet based social media The distances between cultures and continents have narrowed the world has become flat and multicultural work teams composed of members from different countries have become a daily reality in global businesses However in many ways these global changes in work practices have only just begun to have an impact on education To better prepare students for the information age researchers and policy makers largely agree about the skills needed for shared knowledge construction Indeed the education systems in several different countries have begun to integrate these skills into teaching and learning and are placing a strong emphasis on their implementation Melamed et al 2010 Resta et al 2011 In 2015 the OECD PISA exam for the first time included assessment of collaborative problem solving in its country by country comparison Collaborative learning is not a trivial challenge nor is it intuitive for all teachers and learners One must acquire and practice the essential skills in order to successfully work in a team Consequently it is essential to train teachers in collaborative teamwork as they must serve as role models for students In addition new tools and practices become available at a rate that outpaces the abilities of many higher education institutions to adopt and implement This book surveys the current state of the field and provides theoretical guidance and practical examples to help meet the gaps in research development and practice **New Ecology for Education – Communication X Learning** Will W.K.

technical perspectives It presents the main findings of 4WARD Architecture and Design for the Future Internet a European Integrated Project within Framework Programme 7 which addressed this area from an innovative approach Today s network architectures are stifling innovation restricting it mostly to the application level while the need for structural change is increasingly evident The absence of adequate facilities to design optimise and interoperate new networks currently forces a convergence to an architecture that is suboptimal for many applications and that cannot support innovations within itself the Internet 4WARD overcomes this impasse through a set of radical architectural approaches built on a strong mobile and wireless background The main topics addressed by the book are the improved ability to design inter operable and complementary families of network architectures the enabled co existence of multiple networks on common platforms through carrier grade virtualisation for networking resources the enhanced utility of networks by making them self managing the increased robustness and efficiency of networks by leveraging diversity and the improved application support by a new information centric paradigm in place of the old host centric approach These solutions embrace the full range of technologies from fibre backbones to wireless and sensor networks

In Defense of the Second Amendment Larry Correia,2023-01-24 What Part of the Second Amendment Don t You Understand That s the question posed by award winning New York Times bestselling author and professional firearms instructor Larry Correia Bringing with him the practical experience that comes from having owned a high end gun store catering largely to law enforcement and as a competitive shooter and self defense trainer Correia blasts apart the emotion laden logic free rhetoric of the gun control fanatics who turn every mass shooting into a crazed call for violating your rights abusing the Constitution and doing absolutely nothing to really fight crime In his essential new book In Defense of the Second Amendment Correia reveals Why gun free zones are more dangerous for law abiding citizens How the Second Amendment does indeed include your right to own an AR 15 and why that s not an outdated concept Why red flag laws don t work can be easily abused and ignore a much more commonsensical approach to keeping guns out of the wrong hands The insanity of criminal justice reform that frees dangerous criminals and gun reform that penalizes your right to self defense How we can return to a society that has a safe and healthy relationship with guns as we had for most of our history Correia s promise Believe me I ve heard every argument relating to gun control possible I can show you how to defend your rights Urgent informed with vitally important information for whoever who owns a gun or is thinking about owning a gun or who cares about the preservation of our constitutional rights In Defense of the Second Amendment is a landmark book of enduring importance
