IN A NEW EPIC FANTASY SERIES from Monster Hunter series creator and New York Times best selling author Larry Correia After the War of the Gods the demons were cast out and fell to the world Mankind was nearly eradicated by the seemingly unstoppable beasts until the gods sent the great hero Ramrowan to save them He united the tribes gave them magic and drove the demons into the sea Ever since the land has belonged to man and the oceans have remained an uncrossable hell leaving the continent of Lok isolated It was prophesized that someday the demons would return and only the descendants of Ramrowan would be able to defeat them They became the first kings and all men served those who were their only hope for survival As centuries passed the descendants of the great hero grew in number and power They became tyrannical and cruel and their religion nothing but an excuse for greed Gods and demons became myth and legend and the people no longer believed The castes created to serve the Sons of Ramrowan rose up and destroyed their rulers All religion was banned and replaced by a code of unflinching law The surviving royalty and their priests were made casteless condemned to live as untouchables and the Age of Law began Ashok Vadal has been chosen by a powerful ancient weapon to

Perspectives on Causation Elitzur A. Bar-Asher Siegal, Nora Boneh, 2020-07-27 This book explores relationships and maps out intersections between discussions on causation in three scientific disciplines linguistics philosophy and psychology The book is organized in five thematic parts investigating connections between philosophical and linguistic studies of causation presenting novel methodologies for studying the representation of causation tackling central issues in syntactic and semantic representation of causal relations and introducing recent advances in philosophical thinking on causation Beyond its thematic organization readers will find several recurring topics throughout this book such as the attempt to reduce causality to other non causal terms causal pluralism vs one all encompassing account for causation causal relations pertaining to the mental as opposed to the physical realm and more This collection also lays the foundation for questioning whether it is possible to evaluate available philosophical approaches to causation against the variety of linguistic phenomena ranging across diverse lexical and grammatical items such as bound morphemes prepositions connectives and verbs Above all it lays the groundwork for considering whether the fruits of the psychological cognitive study of the perception of causal relations may contribute to linguistic and philosophical studies and whether insights from linguistics can benefit the other two disciplines

In Defense of the Second Amendment Larry Correia, 2023-01-24 What Part of the Second Amendment Don t You Understand That s the question posed by award winning New York Times bestselling author and professional firearms instructor Larry Correia Bringing with him the practical experience that comes from having owned a high end gun store catering largely to law enforcement and as a competitive shooter and self defense trainer Correia blasts apart the emotion laden logic free rhetoric of the gun control fanatics who turn every mass shooting into a crazed call for violating your rights abusing the Constitution and doing absolutely nothing to really fight crime In his essential new book In Defense of the Second Amendment Correia reveals Why gun free zones are more dangerous for law abiding citizens How the Second Amendment does indeed include your right to own an AR 15 and why that s not an outdated concept Why red flag laws don t work can be easily abused and ignore a much more commonsensical approach to keeping guns out of the wrong hands The insanity of criminal justice reform that frees dangerous criminals and gun reform that penalizes your right to self defense How we can return to a society that has a safe and healthy relationship with guns as we had for most of our history Correia s promise Believe me I ve heard every argument relating to gun control possible I can show you how to defend your rights Urgent informed with vitally important information for whoever who owns a gun or is thinking about owning a gun or who cares about the preservation of our constitutional rights In Defense of the Second Amendment is a landmark book of enduring importance
