Course In Electronics Kevin Karplus, 2023-06-06 This textbook is for a first course on electronics. It assumes no prior electronics experience but does assume that students have had calculus 1, single variable differential calculus, and high school physics. A key idea of the course is that students need a lot of design experience and hands-on work rather than a lot of theory. The course is centered around the labs, which are a mix of design labs and measurement modeling labs. This unique volume takes students from knowing no electronics to being able to design and build amplifier and filter circuits for connecting sensors to microcontrollers within 20 weeks. Students design a digital thermometer, a blood pressure meter, an optical pulse monitor, an EKG, an audio preamplifier, and a class D power amplifier. They also learn how to measure and characterize components including impedance spectroscopy of a loudspeaker and of electrochemical electrodes. [Related Links](#)

The Kinneavy Papers Lynn Worsham, Sidney I. Dobrin, Gary A. Olson, 2000-04-20 Documenting an era of dramatic change and growth in the sophistication of scholarship in rhetoric and composition studies, this book includes essays which find in contemporary theory the language to ask new questions, to reframe existing problems, and to move beyond current impasses in thought and action. The different perspectives offer a stand against current backlash theory as seen in the reassertion of expressivism and creative writing as the antidote to the difficulties wrought by too much theorizing. All the essays included are winners of the James L. Kinneavy Award and celebrate the award's tenth anniversary as well as its founder, one of the discipline's most learned and beloved scholars. Contributors include David Bleich, Richard M. Coe, William A. Covino, Reed Way Dasenbrock, Sidney I. Dobrin, Lester Faigley, Pamela K. Gilbert, Susan C. Jarratt, Bruce McComiskey, Michael Murphy, Richard E. Miller, Jasper Neel, Gary A. Olson, Joseph Petraglia, George L. Pullman, Joy S. Ritchie, Phillip Sipiora, David W. Smit, Patricia A.
