Between Man And Man Routledge Classics:

The Undiscovered Self C.G. Jung, 2014-12-18 In *The Undiscovered Self* Jung explains the essence of his teaching for a readership unfamiliar with his ideas. He highlights the importance of individual responsibility and freedom in the context of today's mass society and argues that individuals must organize themselves as effectively as the organized mass if they are to resist joining it. To help them achieve this, he sets out his influential programme for achieving self understanding and self realization. *The Undiscovered Self* is a book that will awaken many individuals to the new life of the self that Jung visualized.

From New Age to New Gnosis Peter Wilberg, 2003 Peter Wilberg presents a political history of the subversive gnostic theologies of the first century and with it a political critique of the ruling god concepts of the 21st century. *From New Age to New Gnosis* is spiritual Marxism and a powerful spearhead aimed at the New World Order of economic liberalism, neo conservatism and military imperialism. It challenges all four faces of its famous dollar pyramid: the idolatry of new technologies, the reduction of the human being to a genetic machine, the politically illiterate platitudes of New Age spirituality and the spiritual illiterate literalism of Christian biblical fundamentalism and racist Zionism, which now see their own zealotry mirrored and confronted by militant Islam. What Peter Wilberg recognises is that what our divided world now calls for is not a revival of fundamentalisms of any sort but a New Gnostic spirituality that understands the wordless knowledge within the word. Seth

The Qualia Revolution Peter Wilberg, 2004-04 The most fundamental scientific fact is not the existence of the physical universe but our awareness of that universe. Not even the most advanced physics, physiology or psychology however can explain even the most elementary qualities of our sensory awareness of that universe: qualities such as redness, for example. Qualia used to be defined as sensory qualities such as colour and tone. But what if awareness is not an empty receptacle for sensory impressions but has its own intrinsic sensual qualities of the sort we experience as the inwardly sensed shape and substantiality of our bodies, the sensed lightness or darkness, colour or tone of our moods or a sensed feeling of warmth or coolness, closeness or distance to another human being? What if such sensual qualities of awareness are intrinsically meaningful, being the felt essence of meaning or sense is not energetic quanta but qualia in this sense: sensed and sensual qualities of awareness that are the basic stuff of which the universe is composed? It argues that qualia are not simply qualities of our own human awareness but fundamental units of awareness. Atoms, molecules and cells are recognised as the physical form taken by field patterns of atomic, molecular and cellular awareness composed of such units. The soul is understood as an ever changing gestalt of such units, each of which possess characteristics of both unit and field, particle and wave, allowing the soul qualities of our own awareness to mix and merge with those of all other beings.

Etty Hillesum and the Flow of Presence Meins G. S. Coetsier, 2008 Although she died cruelly at Auschwitz at the age of twenty nine, Etty Hillesum left a lasting legacy of mystical thought in her letters and diaries. Hillesum was a complex and powerful witness to the openness of the human spirit to the call of God even under the most harrowing circumstances. Her life was as much

shaped by Hitler's regime as was that of philosopher Eric Voegelin and as Meins Coetsier reveals her thought lends itself to interpretation from a uniquely Voegelinian perspective Etty Hillesum and the Flow of Presence analyzes the life and writings of Hillesum from the standpoint of Voegelin's views on consciousness especially his philosophy of luminous participation in the transcendent ground of being Through a careful reading of her letters and diaries Coetsier reveals the inner development of Hillesum's mystically grounded resistance to Nazism as he guides readers through the symbolism of her spiritual journey making effective use of Voegelin's analytics of experience and symbolization to trace her path to spiritual truth Intertwining the lives works and visions of these two mystical thinkers Coetsier demonstrates his mastery of both Voegelin's philosophy and Hillesum's Dutch language materials He shows how mystical attunement to the flow of presence Voegelin's designation for human responsiveness to the divine is the key to the development of Hillesum's life and writings He displays a special affinity for the suffering and grace filled transformation that she underwent as she approached the end of her life and gained insight into the ultimate purpose of each individual's contribution to the well being and maintenance of the human spirit Retrieving one of the lesser known but most compelling figures of the Holocaust Etty Hillesum and the Flow of Presence is an original contribution to both Voegelin and Hillesum scholarship that reflects these writers strong valuation of the human person It presents Hillesum's life and work in an original and provocative context shedding new light on her experiences and their symbolizations while further broadening the application of Voegelin's thought

The Possibility of Love Kathleen O'Dwyer, 2009 The Possibility of Love is an exploration of a concept close to the human heart Grounded in the ordinary everyday experiences of human living the book provides an exploration of the diverse obstacles to the experience of love the consequences of love's absence and the unquenchable desire for love which propels influences and ultimately motivates much of human behaviour The Possibility of Love poses the question is love actually possible between human beings or is it an ideal a fantasy an illusion or a comforting aspiration which enables a palliative denial and distortion of the reality of human being This expansive question is approached through an interdisciplinary analysis The author addresses the question of love's possibility as it is explored in a selection of literature from the disciplines of philosophy psychoanalysis and poetry The interdisciplinary nature of the study is based on the assertion of an interconnection between the three disciplines and that this interconnection enables a unique and insightful exploration of the question of love's possibility Thus the question is explored from diverse view points and also from different time frames convergences and divergences are noted and discussed and conclusions are drawn from the ensuing findings The book is essentially a philosophical analysis of an emotion that significantly impacts on human experience It attests to the gradually increasing acknowledgement of the power of emotional experience in the search for knowledge wisdom and truth Thus it is a uniquely honest exploration of human nature in contemporary times

Gender Justice in Muslim-Christian Readings Anne Hege Grung, 2015-09-29 In recent decades women in the Christian and Islamic traditions have been negotiating what it means to participate in religious practice as a woman within the two traditions and how to interpret canonical scripture This book creates a shared space for Muslim and Christian women with diverse cultural and denominational backgrounds by making meaning of texts from the Bible the Koran and the Hadith It builds on the reading and discussion of the Hagar narratives as well as 1 Timothy 2:8-15 and Sura 4:34 from the New Testament and the Koran

respectively by a group of both Christian and Muslim women Interpretative strategies and contextual analyses emerge from the hermeneutical analysis of the women's discussions on the ambiguous contributions of the texts mentioned above to the traditional views on women This book shows how intertextual dialogue between the Christian and Islamic traditions establishes an interpretative community through the encounter of Christian and Muslim readers The negotiation between a search for gender justice and the Christian and Islamic traditions as lived religions is extended into a quest for gender justice through the co-reading of texts In times when gender and the status of women are played into the field of religious identity politics this book shows that bringing female readers together to explore the canonical texts in the two traditions provides new insights about the texts the contexts and the ways in which Muslim-Christian dialogue can provide complex and promising hermeneutical space where important questions can be posed and shared strategies found

Mitias, 2021-04-22 Is dialogue between the major religions of the world possible If it is possible under what conditions In this book Michael H Mitias argues that it is possible provided various conditions are met These conditions include mutual respect mutual understanding and God-centeredness First how can a religion that is unusually complex composed of a doctrine founded in a unique divine revelation a leadership class of theologians teachers clergy and administrators and a community across global cultures show uniform respect to another religion How can a complex institution like a religion truly understand another religion Third can the different religions worship the same God if their conceptions of God are based on their unique doctrines Mitias addresses these questions and argues that it is possible for religions to respect and understand one another Further he argues that the different conceptions of God are necessarily founded in a belief in the existence of a transcendent infinite and wise being
