Between Winnicott And Lacan A Clinical Engagement:

Between Winnicott and Lacan Lewis A. Kirshner, 2011-03-25 D W Winnicott and Jacques Lacan are arguably two of the most important psychoanalytic theoreticians since Freud and somewhat ironically seemingly two of the most incompatible Lewis Kirshner and his colleagues attempt to demonstrate how the intellectual contributions of these two figures such as Winnicott's self and Lacan's subject complement productively despite their apparent contrast Throughout the book their major concepts are clarified and differentiated but always with an eye toward points of intersection and a more effective psychoanalytic practice Furthermore these contributors address the Winnicott Lacan relationship itself and the evolution of their respective theories peppered with detailed clinical examples of how integrations of their ideas have been utilized with patients directly

Finding Winnicott Fadi Abou-Rihan, 2023-03-03 In *Finding Winnicott Philosophical Encounters with the Psychoanalytic* Fadi Abou Rihan expands upon Winnicott's category of the found object and argues that a genuine understanding of the analyst's own thought requires that it be considered in relation to that of another The essays in this collection are in dialogue with the work of Freud Deleuze and Guattari Laplanche Bonaventure Ibn Al Arabi and Huizinga these encounters showcase some of Winnicott's yet unexplored contributions to the questions of subjectivity time and language They weave psychoanalytic theory clinical vignette and key moments from the history of ideas in order to shed light on our findings regarding and indeed findings of desire on some of the playful but no less compelling ways in which the subject lives suffers understands questions and or normalizes desire Chapters span a range of topics including rationales findings and spaces and highlight the subject as not only that which finds but that which is found With clinical vignettes throughout this book is vital reading for practicing analysts as well as analysts in training and students of both philosophy and psychoanalysis

Winnicott and Labor's Eclipse of Life Nathan Gerard, 2023-09-11 Nathan Gerard draws upon the pathbreaking insights of pediatrician and psychoanalyst D W Winnicott to offer a new set of ideas in the novel domain of contemporary work life and

its discontents Locating Winnicott within a broad landscape of critical scholarship that dissects work's perils the book positions Winnicott as both a radical critic and creative advocate for building a different kind of work life one that might make room for the presence of self By shuffling the discourse on neoliberal subjectivity to reclaim what Winnicott calls unit status of the separate self Gerard differentiates Winnicott from the relational tradition by advocating for Winnicott's non-relational aspects Through such analysis the book reveals how work and home have become two sides of the same impoverished coin each contributing to a legitimately bad environment that perpetuates self absence and annihilates one's unique sense of feeling real and alive Winnicott and Labor's Eclipse of Life will be of interest to readers of Winnicott and psychoanalysis organization and management studies and anyone hoping to deepen their engagement with the dynamics of contemporary work life

Psychoanalytic Reflections on Politics Eszter Salgó, 2013-11-07 Psychoanalytic Reflections on Politics Fatherlands in mothers hands is a playful exploration of how people's desires fantasies and emotions shape political events and social phenomena It highlights the mythical sources of today's political projects the power of political imagination and the function of symbolism in political thought Eszter Salgó argues that the driving force for the formation of political communities is fantasy illusions in a Winnicottian sense

phantasies in a Lacanian sense phantoms as described by Nicolas Abraham and Maria Torok and dreams as interpreted by Sándor Ferenczi She introduces the metaphor of the fantastic family as a symbolic representation of political communities both to reflect on people's deeply felt desire to find in public life the resolution love and wholeness of early childhood and to unveil the political elite's readiness to don the mask of the ideal parent The book is divided into two parts The first part of the book explores the theories of Donald Winnicott and Jacques Lacan the matrimony on the stage of politics between the good enough mother and the Symbolic Father which inaugurates the story of democracy's fantastic family The second part presents the fantastic families of selected countries such as Hungary Italy and the world community to explain the proliferation of cosmogony projects and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions *Psychoanalytic Reflections on Politics Fatherlands in mothers hands* presents a new way of considering the art of politics based on the understanding that people perceive reality through imagination and unconscious fantasy It will be of interest to psychoanalysts and academics from across the disciplines of politics psychology anthropology sociology philosophy literature and art

Intersubjectivity in Psychoanalysis Lewis Kirshner, 2017-05-12 In this book Lewis Kirshner explains and illustrates the concept of intersubjectivity and its application to psychoanalysis By drawing on findings from neuroscience infant research cognitive psychology Lacanian theory and philosophy Kirshner argues that the analytic relationship is best understood as a dialogic exchange of signs between two subjects a semiotic process Both subjects bring to the interaction a history and a set of unconscious desires which inflect their responses In order to work most effectively with patients analysts must attend closely to the actual content of the exchange rather than focusing on imagined contents of the patient's mind The current situation revives a history that is shaped by the analyst's participation Supported by numerous case studies *Intersubjectivity in Psychoanalysis A Model for Theory and Practice* is a valuable resource for psychotherapists and analysts seeking to refine their clinical goals and methods

Imagination applies Barry's unique mixture of teaching art learning and creativity to the very form of the volume exploring Barry's imaginative praxis and offering readers their own. Divided into four sections: Teaching and Learning which focuses on critical pedagogy; Comics and Autobiography which targets various practices of remembering; Cruddy, a self-explanatory category that offers two extraordinary critical interventions into Barry criticism around a challenging text; and Research Creation which offers two creative synthetic artistic pieces that embody and enact Barry's own mixed academic and creative investments, this book offers numerous inroads into Barry's idiosyncratic imagination and what it can teach us about ourselves.

The Legacy of Sandor Ferenczi Adrienne Harris, Steven Kuchuck, 2015-04-17 Winner of the 2016 Grady Award for Edited Book. *The Legacy of Sándor Ferenczi* first published in 1993, edited by Lewis Aron. Adrienne Harris was one of the first books to examine Ferenczi's invaluable contributions to psychoanalysis and his continuing influence on contemporary clinicians and scholars. Building on that pioneering work, *The Legacy of Sándor Ferenczi: From Ghost to Ancestor* brings together leading international Ferenczi scholars to report on previously unavailable data about Ferenczi and his professional descendants. Many, including Sigmund Freud himself, considered Sándor Ferenczi to be Freud's most gifted patient and protégé. For a large part of his career, Ferenczi was almost as well-known, influential, and sought after as a psychoanalyst, teacher, and lecturer as Freud himself. Later, irreconcilable differences between Freud, his followers, and Ferenczi meant that many of his writings were withheld from translation or otherwise stifled, and he was accused of being mentally ill and shunned. In this book, Harris and Kuchuck explore how newly discovered historical and theoretical material has returned Ferenczi to a place of theoretical legitimacy and prominence. His work continues to influence both psychoanalytic theory and practice and covers many major contemporary psychoanalytic topics such as process, metapsychology, character structure, trauma, sexuality, and social and progressive aspects of psychoanalytic work. Among other historical and scholarly contributions, this book demonstrates the direct link between Ferenczi's pioneering work and subsequent psychoanalytic innovations. With rich clinical vignettes, newly unearthed historical data, and contemporary theoretical explorations, it will be of great interest and use to clinicians of all theoretical stripes as well as scholars and historians.

Chiasmus and Culture Boris Wiseman, Anthony Paul, 2014-03-01 Anyone who has heard of chiasmus is likely to think of it as no more than a piece of rhetorical playfulness at times challenging though useful for supplying a memorable, sententious note or for performing a pirouette of syntax and thought. Going beyond traditional rhetoric, this volume is concerned with the possibility of using the figure of chiasmus to model a broad array of phenomena from human relations to artistic creation. In the process, it provides the first book-length study not of chiasmus, the rhetorical figure, but of chiasmic thought. The contributors are concerned with chiasmic inversion and its place in social interactions, cultural creation, and more generally human thought and experience. They explore from a variety of angles what the

unsettling logic of chiasmus from the Greek meaning cross wise has to tell us about the world human relations cultural patterns psychology and artistic and poetic creation

Autobiographical Comics and Graphic Novels Mathijs Peters, Yasco Horsman, 2025-10-01 This book offers philosophical and psychoanalytical reflections on the selfhood shaped in autobiographical graphic narratives or autographics These reflections revolve around the autographic gesture This gesture refers to firstly the leaving of graphic traces of an embodied self which secondly transform into a drawn figure that represents this self and acquires a certain autonomy as a character and which thirdly are embedded in a narrative that tells

all or part of this self's life story By combining the semiotic logics of trace image and narrative the book argues autographics perform this gesture and shape a specific form of selfhood The book studies this process by turning to theories about selfhood constructed primarily within the following three intellectual traditions existential hermeneutics as developed by Paul Ricoeur existential phenomenology as embodied by Jean Paul Sartre and psychoanalysis through the lenses of Jacques Lacan Marion Milner and Donald Winnicott The ideas of these authors as well as Paul de Man's and Johann Gottlieb Fichte's analyses of subject constitution are brought into dialogue with autobiographical graphic narratives by Zoe Thorogood Katie Green Peter Pontiac Alison Bechdel Yoshihiro Tatsumi Marjane Satrapi Riad Sattouf Keiji Nakazawa Lynda Barry and others

R. Johnson, 2014-10-15 Delineates Lacan's theory of the four discourses as a practical framework through which faculty can reflect on where their students are developmentally and where they might go University classrooms are increasingly in crisis though popular demands for accountability grow more insistent no one seems to know what our teaching should seek to achieve This book traces how we arrived at our current impasse and it uses Lacan's theory of the four discourses to chart a path forward via an analysis of the freshman writing class How did we forfeit a meaningful set of goals for our teaching T R Johnson suggests that by the 1960s the work of Bergson and Piaget had led us to see student growth as a journey into more and more abstract thought a journey that will happen naturally if the teacher knows how to stay out of the way Since the 1960s we've come to see development in turn only as a vague initiation into the academic community This book however offers an alternative tradition one rooted in Vygotsky and the feminist movement that defines the developing student writer in terms of a complex intersubjective ecology and then through these precedents proposes a fully psychoanalytic model of student development To illustrate his practical use of the four discourses Johnson draws on a wide array of concepts and a colorful set of examples including Franz Kafka Keith Richards David Foster Wallace Hannah Arendt and many others Graceful provocative thoughtful and well researched The Other Side of Pedagogy connects theory and teaching in compelling ways This is a groundbreaking book that scholars of writing will want to read reread and teach Joseph Harris author of A Teaching Subject Composition Since 1966 *The Winnicott Tradition* Margaret Boyle Spelman, Frances Thomson-Salo, 2018-05-01 This book includes articles that describe how Winnicott's thinking facilitates the building of bridges between the internal and external realities and outside the boundaries of psychoanalysis as well as within it between different schools of thought *Kaplan & Sadock's Synopsis of Psychiatry* Robert Boland, Marcia L. Verduin, Pedro Ruiz, 2021-04-14 Accurate reliable objective and comprehensive Kaplan Sadock's Synopsis of Psychiatry has long been the leading clinical psychiatric resource for clinicians residents students and other health care professionals both in the US and worldwide Now led by a new editorial team of Drs Robert Boland and Marcia L Verduin it continues to offer a trusted overview of the entire field of psychiatry while bringing you up to date with current information on key topics and developments in this complex specialty The twelfth edition has been completely reorganized to make it more useful and easier to navigate in today's busy clinical settings **Culture and Policy-Making** Marco Cremaschi, Carlotta Fioretti, Terri Mannarini, Sergio Salvatore, 2021-04-19 This book advances the understanding and modelling of sensemaking and cultural processes as being crucial to the scientific study of contemporary complex societies It outlines a dynamic processual conception of culture and a general view of the role of cultural dynamics in policy making drawing three significant methodological implications pluralism performativity and semiotic capital It focuses on the theoretical and methodological

aspects of the analysis of culture and its dynamics that could be applied to the developing of policymaking and in general to the understanding of social phenomena It draws from the experience and data of a large scale project RECRIRE funded by the H2020 program that mapped the symbolic universes across Europe after the economic crisis It further develops the relationship between culture and policy making discussed in two previous volumes in this series and constitutes the ideal third and final element of this trilogy The book is a useful tool for academics involved in studying cultural dynamics and for policy oriented researchers and decision makers attentive to the cultural dimensions of the design implementation and reception of public policies
