focuses on the efforts toward reforming women's dress that took place in Europe and America in the latter half of the 18th century and the first decade of the 20th century and the types of garments adopted by women to overcome the challenges posed by fashionable dress. It considers the many advocates for reform and examines their motives, their arguments for change, and how they promoted improvements in women's fashion. Though there was no single overarching dress reform movement, it reveals similarities among the arguments posed by diverse groups of reformers, including especially the equation of reform with an ideal image of improved health. Drawing on a variety of primary and secondary sources in the USA and Europe, including the popular press, advice books for women, allopathic and alternative medical literature, and books on aesthetics, art, health, and physical education, the text makes a significant contribution to costume studies, social history, and women's studies.

**Economic Empowerment of Women for Sustainable Development** Dr. V. Malarvizhi, Dr. S. Gandhimathi, Dr. R. Annapoorni, 2024-03-25

In the global pursuit of equitable progress, the empowerment of women emerges as not merely an ethical imperative but a pragmatic necessity. The imperative of women's economic empowerment finds resonance throughout history, woven into the fabric of social movements, policy reforms, and economic progress. From the suffragette movements of the late 19th and early 20th centuries to the landmark conventions on women's rights and development in the latter half of the 20th century, the trajectory of gender equality has been marked by both triumphs and trials. The 1995 Fourth World Conference on Women in Beijing stands as a watershed moment, galvanizing global commitments to women's empowerment and setting forth an ambitious agenda for action. Subsequent milestones, including the adoption of the Sustainable Development Goals (SDGs) in 2015, further underscore the intertwined nature of gender equality and sustainable development. Over the years, though the researchers, academicians, and government have tried to find ways and means for economic empowerment of women, many aspects of women's economic empowerment, entrepreneurship, and innovation, workplace

equality global partnership etc are yet to be completely resolved Little attention has been paid to the above aspects by the researchers policy makers and development planners The present volume titled Economic Empowerment of Women for Sustainable Development containing 32 papers covers different aspects and issues related to economic empowerment of women and sustainable development It is an initiative for shedding light on the pivotal role women play in fostering sustainable economic development The main themes with the volume covers are financial inclusion education skill development technology and digital inclusion leadership decision making policy and advocacy The volume will provide women s input and health for the academicians researchers policy makers and government officials
