**A Call From Heaven** Josie Varga,2025-09-12 What happens when we die Do we really die alone What if death is not the end but a new beginning As the dying prepare to leave this world they often begin to get a glimpse of what lies beyond through deathbed visits from deceased loved ones strangers and angelic or divine figures Religious beliefs appear to have no bearing on these experiences even atheists and nonbelievers have reported such phenomena At times these visits are experienced by others in the room offering incredible validity to the idea that life truly does continue A Call from Heaven will Report a wide variety of recent documented deathbed visits from around the world Introduce you to the many different forms of deathbed phenomena including angelic visions shared death experiences gateway or portal appearances and many others Highlight accredited research by renowned experts and scientists Present substantial evidence perhaps the most compelling to date that we do not die alone A Call from Heaven illustrates that death is not the end and that we all will be guided to the other side comforting those who are grieving and removing the fear of death for all of us

most challenging of times      **He Could Not Contain Her:** Kathleen McCartan,2014-09-23 First and foremost this book gives you a glimpse into one creative some say genius bipolar mind which I have had for a little over twelve years Beyond that using a Sacred Feminine Holy Spirit Breath and Wind of God perspective as well as an educational creative perspective and a Course in Miracles perspective I attempt to create a total world reversal of thought on all issues related to the world humans why were here and whats to come of us This book reverses so called normal human thinking about almost everything including what is life and what is death what the real story of Lucifer and Mary Magdalene John the Baptist and Jesus really is and what the actual laws of the universe really are whats actually normal and abnormal the answer will surprise you what humans are actually like as a species what the current state of our world actually is and what humans mean to Christ John the Baptist Christ Alter Ego Christ in reality and in the great scheme of things It will be no surprise that I determine that to save the world and yes it can be done love is the only question and love is the only answer The only problem is that most people on Earth arent really listening despite the fact that we live in an almost dead world mentally emotionally and spiritually The spiritual light of the world is very dim if its even shining at all anymore Humans must wake up now today This book is about starting a creative spiritual educational revolution in America and letting it spread throughout the whole world This book takes a forward looking approach to the future and gives readers a glimpse into upcoming events      **HEAVEN'S CHOICE** Kerry Alexander,2011-05-31 Grief love and loss elevates our consciousness to a higher level of understanding It is in this heartache we are given our greatest life lessons and spiritual gifts from our departed loved ones Divine truth is awareness      **Spiritual Medicine** Laurie Leah Levine,2000 In this book Laurie Leah Levine asserts that true health is achievable only through integrating mental emotional spiritual and physical well being She offers a wide range of techniques for improving health on many levels meditation relaxation exercises affirmations and simple physical exercises Chapters focus on work body family and emotions encouraging readers to realize their choices and act from the heart      **Into the Field of Suffering** David Schenck,Scott Neely,2023 This book is written for people who spend the bulk of their days working with others who are suffering What I want to offer here is an invitation to conversation a conversation with me a conversation within yourself and a conversation with the people with whom you work A conversation about what it means to spend your days with people whose lives are disrupted by illness or overwhelmed by brokenness That can be brokenness in bodies It can be anything from flu to cancer from sprains to AIDS It can be traumatic brain injury severe mental illness or debilitating chronic conditions Or it could be families in neonatal units dealing with children with debilitating genetic defects struggling to make decisions about if when and how to end lives Or violence on the street or the devastation of a flood ravaged community What is it that we can learn from these situations I put an emphasis on learning because I do believe that if we don't learn every day if we don't learn every hour this work will destroy us It's important to use a word as strong as destroy There are reasons not everyone does this work and there are limits to how much of this work anyone can do What we must

keep asking ourselves is Why do we do this work Why are we drawn to those who suffer What is it that s good about this And what not so good What is it that is admirable and something that we should show enormous compassion and respect to ourselves for And what is there in it that is self destructive that we should be constantly questioning and challenging To answer these questions we must get past the assumption that attending to the suffering is entirely saintly and noble or that it is a symptom of a deep perverse drive Much attention is rightly being focused on people who serve on healthcare s front lines The framework for these discussions tends most often to be the terms burnout and moral distress These terms certainly point to very real experiences very painful experiences Unfortunately they also often carry with them judgmental messages You are failing You must do better What I want to say to you here is that while these terms point to realities for those of us who have worked with suffering day in and day out they may not help us move and grow into the deeper ranges of compassion and recognition and attention that are possible unless we supplement them with other constructs and insights When I say that I want to encourage a conversation within you part of what I have in mind is this We are all multiple selves And one of the things that happens when we work with people and communities that are suffering and in pain physical pain psychological pain spiritual pain is that distinct pieces of ourselves often respond quite differently to what is going on in front of us Many different feelings are stirred We may be terrified and at the same time move with great compassion while being also completely exhausted and madly energized
