Blood Novels Julia H. Chang, 2022-08-31 In the late nineteenth century Spain's most prominent writers Juan Valera Leopoldo Alas and Benito Pérez Galdós made blood a crucial feature of their fiction *Blood Novels* examines the cultural and literary significance of blood unsettling the dominant assumption of the period that blood no longer played a decisive role in social hierarchies By examining fictional works through the rubric of blood novels Julia H Chang identifies a shared fascination with blood that probes the limits of realism through blood's dual nature of matter and metaphor Situating the literature within broader cultural and theoretical debates *Blood Novels* attends to the aesthetic contours of material blood and in particular how bleeding is inflected by gender caste and race Critically engaging with feminist theory theories of race and whiteness literary criticism and medical literature this innovative study makes a case for treating blood as a critical analytic tool that not only sheds new light on Spanish realism but more broadly challenges our understanding of gendered and racialized embodiment in Spain

A Morbid Fascination Richard Peck, 1997-02-19 Using a broad range of literature to examine the political culture of white South Africa Peck finds both a preoccupation with political issues and a dislike for politics The literature examined ranges from South African propaganda through a variety of bestsellers adventure stories and mystery novels written by authors such as Wilbur Smith and James McClure to self-conscious literary works of the canonical white South African authors such as Alan Paton André Brink and Nadine Gordimer The study gives attention to anti-political features of the liberal tradition that dominated South African writing and to the failure of writers who undermined that tradition to generate a more positive view of politics The morbid fascination with politics that is found across the full spectrum of creative writing is a reflection of the circumstances in which writers found themselves but it is still a worrisome feature of the white South African political culture
