Beyond Silence and Denial Lucy Bregman,1999-01-01 Lucy Bregman guides the reader through the wealth of recent literature on death and dying giving special attention to the autobiographical narratives of terminally ill people and to books offering counsel to the dying their caregivers and the bereaved She argues that this literature should supplement not supplant Christian understandings of death A Journey to Unlearn and Learn in Multicultural Education Hongyu Wang,2009 Multicultural teacher education does not work without attending to the inner landscapes of learners This collection of essays depicts a journey of unlearning deeply cherished assumptions and gaining new difficult understandings of race ethnicity gender sexuality class and global issues in teacher education Foregrounding learners own voices and highlighting those intimate moments of awakening through a process oriented and dialogic approach this book in its profoundly moving narrative and critically reflective voices speaks directly to pre service and in service teachers and informs teacher educators multicultural pedagogical theory and practice Demonstrating the power of multicultural education through the learner s lens this compelling and inspirational book is a much needed text for undergraduate and graduate courses in teacher education multicultural education curriculum studies and social foundations of education **Living Well and Dying Faithfully** John Swinton,Richard Payne,2009-11-10 Living Well and Dying Faithfully explores how Christian practices love prayer lament compassion and so on can contribute to the process of dying well Working on the premise that one dies the way one lives the book is unique in its constructive dialogue between theology and medicine as offering two complementary modes of care **Burdened Agency** Travis Pickell,2024-08-15 Travis Pickell explores the paradoxes of choice in modern dying and the ways Christian theology can aid in navigating the relationship between moral agency and dignity at the end of life Burdened Agency addresses the problem of death and dying through Christian theology and ethics In previous centuries death was something that simply happened to us To choose how or when one died was the exception not the rule However due to advances in modern medicine individuals are increasingly required to make concrete choices about the nature and timing of death Modernity with its emphasis on individualism complicates this further because we are increasingly bereft of cultural and religious guidance regarding death This gives rise to the phenomenon of burdened agency the predicament of having to make such difficult choices with so little to help us This engaging book offers a historical and philosophical account of the origins of our situation of burdened agency as well as a Christian solution to the problems that it raises Looking to theologians such as Karl Rahner Karl Barth and Stanley Hauerwas Pickell devises a radically countercultural approach to death and dying rooted in Christian theological commitments and enacted in the practices of baptism Eucharist and prayer Teaching Death and Dying Christopher M Moreman,2008-10-03 The academic study of death rose to prominence during the 1960s Courses on some aspect of death and dying can now be found at most institutions of higher learning These courses tend to stress the psycho social aspects of grief and bereavement however ignoring the

A Future Beyond Growth Haydn Washington, Paul Twomey, 2016-04-14 There is a fundamental denial at the centre of why we have an environmental crisis a denial that ignores that endless physical growth on a finite planet is impossible Nature provides the ecosystem services that support our civilisation thus making humanity unavoidably dependent upon it However society continues to ignore and deny this dependence A Future Beyond Growth explores the reason why the endless growth economy is fundamentally unsustainable and considers ways in which society can move beyond this to a steady state economy The book brings together some of the deepest thinkers from around the world to consider how to advance beyond growth The main themes consider the deep problems of the current system and key aspects of a steady state economy such as population throughput and consumerism ethics and equity and policy for change The policy section and conclusion bring together these various themes and indicates how we can move past the growth economy to a truly sustainable future This volume will be of great interest to students and scholars of economics sustainability and environmental studies in general

Violence Expressed Maria Six-Hohenbalken, Nerina Weiss, 2016-02-11 Violence Expressed explores the diverse expressions and manifestations through which the meaning of violent experiences and events is re produced As language alone does not always suffice for the description of violence this book focuses not only on the verbal and discursive expressions of violence but also on the performative acts material culture and the spaces that constitute these expressions Such an approach provides a method of more comprehensively registering and understanding the manifestations and long lasting effects of violence whilst exploring violence both as an extreme subjective experience and the ultimate truth thus overcoming a common epistemological antagonism in researching violence Offering a variety of analytical approaches and methodological perspectives Violence Expressed presents the latest empirical studies ranging from the everyday violence experienced by children stories of rape social memory and the discrepancy between private and public narratives to rumours and silences or the iconography of violence A compelling contribution to ongoing discussions on anthropological writing this book will be of interest to anthropologists and social scientists working on violence gender collective representations and memory

Beyond Memory Alexandre Dessingué, Jay M. Winter, 2015-08-14 Beyond Memory Silence and the Aesthetics of Remembrance analyses the intricate connections between silence acts of remembrance and acts of forgetting and relates the topic of silence to the international research field of Cultural Memory Studies It engages with the most recent work in the field by viewing silence as a remedy to the traditionally binary approach to our understanding of remembering and forgetting The international team of contributors examine case studies from colonialism war politics and slavery from across the globe as well as drawing examples from literature philosophy and sites of memory to draw three main conclusions Firstly that the relationship between remembering and forgetting is relational rather than hermetic and the space between the two is often occupied by silence Secondly silence is a force in itself capable of stimulating more or less remembrance Finally that silence is a necessary and key element in the interaction between the human mind and the outer world and enables people to

challenge their understanding of art music literature history and memory With an introduction by the editors discussing Memory Studies and concluding remarks by Astrid Erll this collection demonstrates that acceptance and consideration of silence as having both a performative and aesthetic dimension is an essential component of history and memory studies

Jeremiah and God's Plans of Well-being Barbara Green, 2013-11-01 In *Jeremiah and God's Plans of Well-being* Barbara Green explores the prophet Jeremiah as a literary persona of the biblical book through seven periods of his prophetic ministry focusing on the concerns and circumstances that shaped his struggles Having confronted the vast complexity of scholarly issues found in the Book of Jeremiah Green has chosen to examine the literary presentation of the prophet rather than focus on the precise historical details or the speculative processes of composition What Green exposes is a prophet affected by the dire circumstances of his life struggling consistently but ultimately failing at his most urgent task of persuasion In the first chapter Green examines Jeremiah's predicament as he is called to minister and faces royal opposition to his message She then isolates the central crisis of mission the choice facing Judah and the sin repeatedly chosen Delving into the tropes of Jeremiah's preaching and prophecy she also analyses the struggle and lament that express Jeremiah's inability to succeed as an intermediary between God and his people Next Green explores the characterizations of the kings with whom Jeremiah struggled and his persistence in his ministry despite repeated imprisonment and finally Green focuses on Jeremiah's thwarted choice to remain in Judah at the end of the first temple period and his descent into Egypt after the assassination of Gedaliah In *Jeremiah and God's Plans of Well-being* Green shows the prophet as vulnerable even failing at times while suggesting the significance of his assignment and unlikelihood of success She explores the complexities of the phenomenon of prophecy and the challenges of preaching unwelcome news during times of uncertainty and crisis Ultimately Green provides a fresh treatment of a complex biblical text and prophet In presenting Jeremiah as a literary figure Green considers how his character continues to live on in the traditions of Judaism and Christianity today

Tillich and the Abyss Sigridur Gudmarsdottir, 2016-09-07 This book examines Paul Tillich's theological concept of the abyss by locating it within the context of current postmodern antifoundalist discussions and debates surrounding feminism gender and language Sigridur Gudmarsdottir develops these tropes into a constructive theology arguing that Tillich's idea of the abyss can serve as a necessary means of deconstructing the binaries between the theoretical and the practical in producing nihilistic relativism and the safe foundations of knowledge divine as well as human How does one search for a map and method through an abyss In his writings Tillich expressed the ambiguity and groundlessness of being the depth structure of the human condition and the reality of God as an abyss The more we gaze

into this abyss the more we encounter the faults in our various foundations This book outlines how Tillich's concept of the abyss creates greater opportunities for complexity and liminality and opens up a space where life and death destruction and construction fecundity and horror womb and tomb can coincide **Liturgy and the Beauty of the Unknown** Dr David Torevell, 2013-04-28 Contemporary culture is rediscovering the importance of beauty for both social transformation and personal happiness Theologians have sought in their varied ways to demonstrate how God's beauty is associated with notions of truth and goodness This book breaks new ground by suggesting that liturgy is the means par excellence by which an experience of beauty is communicated Drawing from both secular and religious understandings in particular the mystical and apophatic tradition the book demonstrates how liturgy has the potential to achieve the one ultimately reliable form of beauty because its embodied components are able to reflect the disturbing beauty of the One to whom worship is always offered Such components rely on understanding the aesthetic dynamics upon which liturgy relies This book draws from a broad range of disciplines concerned with understanding beauty and self transformation and concludes that while secular utopian forms have much to contribute to ethical transformation they ultimately fail since they lack the Christological and eschatological framework needed which liturgy alone provides **The Latter-Day Saints' Millennial Star**, 1918

Beyond Kundalini Science Premyogi vajra, 2025-08-17 When a human being walks too long upon the paths of energy bliss awakening or self realisation a strange fatigue arises In the beginning there is curiosity the spark that ignites the journey Soon it deepens into excitement even pride I have touched something higher But after a while the very things that once felt magical begin to lose their sheen Energy rising energy falling head pressure visions inner sounds blissful states all of these start moving in circles repeating like patterns in a dream A time comes when the seeker grows tired of them almost bored and feels an inner urge to escape beyond their endless play That moment of weariness is not an end but a true beginning For only then does something fresh spontaneous and unforced open up That is the soil where Nirvikalpa begins to grow on its own Not as a state that can be achieved not as a medal that can be earned but as a natural flowering that needs no effort The Vedas remind us through a beautiful image just as a hidden gem buried deep within the forest can be discovered only after one has searched through the entire jungle so too the highest spiritual knowledge can be attained only after one has first passed through all preceding stages of knowledge and experience To seek forced Nirvikalpa is like wanting a PhD before completing graduation One may dream of it imagine it or even fake it for a while but it will not hold The real Nirvikalpa dawns only when all holding all chasing and all wanting dissolve It is not another path to walk but the quiet ending of every path This book is simply a collection of such steps and missteps from my own journey Nothing complete nothing final only fragments of experience recorded as they arrived In fact many of these pages first took form as blog posts written in the raw flow of daily reflection Later they gathered themselves into this book not as a manual but as a living record of search stumble and silence If you too have walked enough circles you may hear the echoes of your own story here And

perhaps beyond these words you may sense the same silence that patiently waits for every one of us Moreover it is essential for curious readers to know that the long quest toward the reality of expressed consciousness manifesting through experiences such as Kundalini awakening self realisation the disciplines of Kundalini Yoga the power of mantras and tantras the wisdom of the Vedas and Puranas the diverse insights of the world s religions and the wide spectrum of meditation techniques with their varied effects has been explored in depth in the Kundalini Science A Spiritual Psychology series Volumes 1 5 This book belongs to that current of exploration carrying forward the same spirit of seeking questioning and discovering **Beyond Consolation** John Waters,2010-04-22 Waters explores the process by which the hope of a society was sabotaged and plundered in the name of a mis defined freedom
