Beyond The Pleasure Principle Norton Library:

The Mental Mechanisms of Patient Adherence to Long-Term Therapies Gérard Reach, 2015-01-06 How can we accept that we ought to stop smoking follow a diet exercise or take medications The goal of this book is to describe the mechanisms of patients adherence to long term therapies whose improvement according to the World Health Organization WHO would be more beneficial than any biomedical progress For example approximately half of the patients do not regularly follow medical prescriptions resulting in deleterious effects on people s health and a strong impact on health expenditure This book describes how our beliefs desires and emotions intervene in our choices concerning our health by referring to concepts developed within the framework of the philosophy of mind In particular it tries to explain how we can choose between an immediate pleasure and a remote reward preserving our health and our life We postulate that such an intertemporal choice can be directed by a principle of foresight which leads us to give priority to the future Just like patients non adherence to prescribed medications doctors often don t always do what they should They are non adherent to good practice guidelines We propose that what was recently de scribed as clinical inertia could also represent a case of myopia From time to time doctors fail to consider the long term interests of their patient Both patients non adherence and doctors clinical inertia represent major barriers to the efficiency of care However it is also necessary to respect patients autonomy The analysis of relationship between mind and care which is provided in this book sheds new light on the nature of the therapeutic alliance between doctor and patient solving the dilemma between the ethical principles of beneficence and autonomy

The Rhetoric of Topics and Forms Gianna Zocco, 2021-01-18 The fourth volume of the collected papers of the ICLA congress The Many Languages of Comparative Literature includes articles that study thematic and formal elements of literary texts Although the question of prioritizing either the level of content or that of form has often provoked controversies most contributions here treat them as internally connected While theoretical considerations inform many of the readings the main interest of most articles can be described as rhetorical in the widest sense given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor irony or satire but also that of topoi which were originally viewed as the places where certain arguments could be found but later came to represent the arguments or intellectual themes themselves Another feature shared by most of the articles is the tendency of undeclared thematology which not only reflects the persistence of the charge of positivism but also shows that most scholars prefer to locate themselves within more specific often interdisciplinary fields of literary study In this sense this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology but provides contributions to currently flourishing research areas among them literary multilingualism literature and emotions and ecocriticism

Existence, Historical Fabulation, Destiny Anna-Teresa Tymieniecka, 2009-06-18 Surging from the onto-poietic vital timing of life human self consciousness prompts the innermost desire to rise above its brute facts Imaginatio creatrix inspires us to

fabulate these facts into events and plots with personal significance attempting to delineate a life course in life stories within the ever flowing stream existence Seeking their deep motivations causes and concatenations we fabulate relatively stabilized networks of interconnecting meaning history But to understand the meaning and sense of these networks reconfigurations call for the purpose and telos of our endless undertaking they remain always incomplete carried onwards with the current of life while fluctuating with personal experience in the play of memory Facts and life stories subjective desires and propensities the circumambient world in its historical moves creative logos and mythos personal freedom and inward stirrings thrown in an enigmatic interplay prompt our imperative thirst for the meaning of this course its purpose and its fulfillment the sense of it all To disentangle all this animates the passions of the literary genius The focus of this collection is to isolate the main arteries running through the intermingled forces prompting our quest to endow life with meaning Papers by Jadwiga Smith Lawrence Kimmel Alira Ashvo Munoz William D Melaney Imafedia Okhamafe Michel Dion Franck Dalmas Ludmila Molodkina Victor Gerald Rivas Rebecca M Painter Matti Itkonen Raymond J Wilson III Christopher S Schreiner Bruce Ross Bernadette Prochaska Tsung I Dow Jerre Collins Cezary Jozef Olbromski Victor Kocay Roberto Verolini **The Legend of Freud** Samuel Weber, 2000 Psychoanalysis is dead Again and again this obituary is pronounced with ever increasing conviction in newspapers and scholarly journals alike But the ghost of Freud and his thought continues to haunt those who would seal the grave The Legend of Freud shows why psychoanalysis has remained uncanny not just for its enemies but for its advocates and practitioners as well and why it continues to fascinate us For psychoanalysis is not just a theory of psychic conflict it is a thought in conflict with itself Often violent the conflicts of psychoanalysis are most productive where they remain unresolved thus producing a text that must be read deciphered interpreted rewritten Psychoanalysis legenda est Review The Legend of Freud is a fine example of what can be done with Freud's texts when philosophical and literary approaches converge and you leave the couch in the other room Like Lacan and Derrida Weber doesn't so much explain or interpret Freud as engage him performing what Freud would have called an Auseinandersetzung a discussion or argument that's also a taking apart a deconstruction Deconstruction has picked up a bad name especially in the minds of those who don't understand it but this wouldn't be the case if there were more books like Weber's The Legend of Freud is the best deconstructive work I've seen lately and the best response to Freud it merits close attention from anyone who wants a challenge not merely a guide to what's right and wrong Weber is brilliantly imaginative respectful of his subject and his readers and productive of new ideas Village Voice Literary Supplement *The Strange Works of Taro Yoko* Nicolas Turcev, 2019-05-21 Throughout his career Taro Yoko was despaired by the image of humanity returned by most big budget video games Taro Yoko's strange work reviews the entire career of this extraordinary creator his games Drakengard NieR and sheds light on the link that constitutes his work Check out this complete book on Taro Yoko which explores the contours of its games their development the complexity of their stories and their thematic depth With a preface by Taro Yoko himself

EXTRACT Nowadays most of the players who have heard of Taro Yoko do not associate his name to any particular face Inconvenienced by public appearances the director systematically equipped himself with a device to cover his face during meetings with the press at least since the creation of NieR Shortly before the announcement of NieR Automata at the E3 2015 Yoko even had a mask made based on the character Emil by a plastic artist from PlatinumGames for a mere four hundred euros Since then he has worn it every time he is in the presence of photo and video cameras His persistence in hiding his face under this thick layer of plastic naturally arouses curiosity One might be led to believe that this is a communication strategy or the eccentricity of an enigmatic creator Nevertheless the visual anonymity of the director is in no way a means to nurture the mystery of his personality Far from comparing himself to the likes of Banksy a famous street artist and statement maker who prefers to remain anonymous Yoko just prefers to let his games speak for themselves In fact ask him and he will answer with no difficulty that he grew up in Nagoya in the Japanese prefecture of Aichi Restaurant managers izakayas ramens tempuras etc his parents flitted from one restaurant opening to the next and entrusted their son s education to his grandmother WHAT CRITICS THINK Overall I enjoyed my time with The Strange Works of Taro Yoko especially as a fan of the man s works It s a great companion piece for long time fans and if you re looking for more unofficial content to read about for the Drakenier universe you can t go too wrong RPG Site ABOUT THE AUTHOR Nicolas Turcev Journalist specialized in pop culture he has contributed to the following magazines Chronic Art Carbone Games and Gamekult and occasionally participates in the video game analysis site Merlanfrit He is also the author of several articles of the Level Up collection at Third ditions

Allegory Revisited Anna-Teresa Tymieniecka, 2012-12-06 Focusing mainly upon language communication textuality etc as is overwhelmingly today s fashion we miss the very raison d tre of literature and language itself Moving a step further in our investigation of the anthropologico ontopoietic sources of the life significance of literature by unravelling the function of imaginatio creatrix in man s self interpretation in existence this collection seeks to bring forth the royal role of allegory in the fostering of culture A conjoint work of human elemental passions and of the human spirit allegory mediates between lofty ideals of the highest human strivings and the pedestrian realm of facts Interpretative or theoretical studies encompass allegory mediaeval modern and post modern in various literatures Among the authors are Tymieniecka Kronegger Jorge Garcia Gomez V Osadnik H Hellerstein H Rudnick R Kiefer V Fichera K Haney Ch Raffini J Williamson B Ross and Sitansu Ray

TRUSTING IN THE TRINITY: Compass Psychotheology Applied Dr. Dan & Kate Montgomery, 2009-01-01 The Trinity one God in three Persons sets apart Christianity from other world religions and philosophies Yet you may wonder who the Trinity really is and the relevance of the Father Son and Holy Spirit to your daily life Trusting In The Trinity shows you how to know and feel the Trinity s extravagant love Topics include how the Trinity relates to God s nature and human nature personality and relationships holiness and worship miracles and prayer science and philosophy psychology and creativity Praised by professors at Yale Fuller Gordon Conwell Dubuque Andover Newton and

Dallas theological seminaries Theologian Tremper Longman writes Dr Dan and Kate Montgomery integrate their counseling method with a thoroughly biblical Trinitarian theology and the result is insight that can transform our life and our relationships

Images of Traumatic Memories Anja Meyer, 2020-12-14 By employing the lens of the most recent critical studies on intermediality the author analyses the interaction between literature and photography in three contemporary hybrid novels *Miss Peregrine's Home for Peculiar Children* by Ransom Riggs 2011 *Extremely Loud and Incredibly Close* by Jonathan Safran Foer 2005 and *The Dark Room* by Rachel Seiffert 2001 sharing the narration of traumatic historical events The intermedial dimension realised by the confluence of the two media devices offers new ways to create meaning and to reflect upon the nature of collective and individual trauma by re enacting the distortion and the inaccessibility to the memories of those experiences In this context the reader emerges as an active participant in the process of fiction making as the act of reading becomes a renewed act of witnessing

Masculinities in Contemporary Argentine Popular Cinema Carolina Rocha, 2012-04-14 Examines contemporary cinematic representations of Argentine masculinities the social construction of gender and the financing of domestic film production following Argentina's 1990 change to a neo liberal economic model

Mourning and Resilience in Indian Ocean Life Writing Esther Pujolràs-Noguer, Felicity Hand, 2023-12-28 This volume examines a selection of life writing in English by authors from the South West Indian Ocean namely South Africa East Africa Mauritius and Sri Lanka The two motifs that run through the chapters mourning and resilience are theoretical frameworks that have so far not been brought into conversation in this way The combination of trauma studies and autobiographical analysis sharpens the focus of the discussions on Indian Ocean life writing privileging an Indian Ocean imaginary that is transnational and cross oceanic in its orientation and pointing to networks of connections that transcend the nation state which is often the origin of trauma in the first place Filling a gap in Indian Ocean studies in its close readings of trauma and resilience the book also broadens perspectives on postcolonial life writing since little attention has been paid so far to Indian Ocean autobiographical literary products By the same token the volume also enriches the field of Indian Ocean literary studies by incorporating life writing as an aesthetic strategy which helps to configure Indian Ocean subjectivities

Consciousness more **Total Mobilization** Roy Scranton, 2019-07-24 Since World War II the story of the trauma hero the noble white man psychologically wounded by his encounter with violence has become omnipresent in America's narratives of war an imaginary solution to the contradictions of American political hegemony In *Total Mobilization* Roy Scranton cuts through the fog of trauma that obscures World War II uncovering a lost history and reframing the way we talk about war today Considering often overlooked works by James Jones Wallace Stevens Martha Gellhorn and others alongside cartoons and films Scranton investigates the role of the hero in industrial wartime showing how such writers struggled to make sense of problems that continue to plague us today the limits of American power the dangers of political polarization and the conflicts between nationalism and liberalism By turning our attention to the ways we make war meaningful and by excavating the politics implicit within the myth of the traumatized hero *Total Mobilization* revises the way we understand not only World War II but all of postwar American culture **Theology and Geometry** Leslie Marsh, 2020-01-29 This collection the first of its kind brings together specially commissioned academic essays to mark fifty years since the death of John Kennedy Toole

Dark Academe Jeffrey R. Di Leo, 2024-04-27 This book argues that a critical understanding of dark academe is vital to the futures of democracy and education Drawing upon contemporary literary and cultural theory particularly affect theory queer epistemology and critical race theory as well as critiques of capitalism and accounts of the death drive it builds a case for identifying dark academe as anything that prohibits the pursuit of democratic education and critical citizenship It also argues that dark times require a reassessment of the ways theory and knowledge are approached in the humanities This is necessary if the aim is to truly understand the darkness at the heart of the higher education today Dark academe works to negate education and learning by continuously telling us that the quest for knowledge is empty and the pursuit of critique is blind In this educational darkness the death drive of neoliberal academe becomes a force that works against intellectual transformation and the deepening of critical sights Living according to Nature. Volume One: Myths, Insights, and Perspectives

, 2025-02-27 This edited collection is the first of two volumes offering critical philosophical and interdisciplinary perspectives on contemporary and historic accounts of living in accordance with the broad natural world as at the center of a good and wise life It also explores the meaning and idea of nature in these different perspectives as it relates to and is distinguished from cultural life It builds on the work of Pierre Hadot and others on the connection that philosophers mystics scholars and others ancient and modern have seen between nature as articulated in physics metaphysics ontologies ecologies biologies and evolutionary theories and forms of self communal cultivation *Early Modern Trauma* Erin Peters, Cynthia Richards, 2021-08 This edited collection explores what trauma seen through an analytical lens can reveal about the early modern period and conversely what conceptualizations of psychological trauma from the period can tell us about trauma theory itself **Freud** Jonathan Lear, 2005 Sigmund Freud 1856-1939 developed the theory and practice of psychoanalysis

one of the twentieth century's most influential schools of psychology. He also made profound insights into the psychology and understanding of human beings. In this brilliant and long-awaited introduction Jonathan Lear, one of the most respected writers on Freud, shows how Freud also made fundamental contributions to philosophy and why he ranks alongside Plato, Aristotle, Marx, and Darwin as a great theorist of human nature. Freud is one of the most important introductions and contributions to understanding this great thinker to have been published for many years and will be essential reading for anyone in the humanities, social sciences, and beyond with an interest in Freud or philosophy.

Fear and Fantasy in a Global World, 2015-09-01

At a time when the mass media insist on bombarding us with news about natural, political, and economic disasters, words, ideas, and images associated with such crises and catastrophes shape to a great extent collective memory and current imagination. *Fear and Fantasy in a Global World* seeks to stir the debate on the processes and meanings of as well as on the relations between fear and fantasy in the globalized world. Collective fears and fantasies are analysed from a number of cross-disciplinary perspectives promoted by the epistemological underpinnings of comparative literature. In various ways and from different disciplinary angles, the 17 essays here gathered respond to and scrutinize key questions related to the imaginaries of fear and fantasy as well as their relations to trauma, crisis, anxiety, and representations of both the conscious and the unconscious.
