Three Little Birds Jacqueline McDaniels Martin, 2014-03 *Three Little Birds Faith Hope and Love* is a raw and true story written during the life and loss of Jacqueline Martin's third child James Robert. This story is meant to inspire and counsel readers especially those facing a difficult journey of their own. James was born prematurely and with a rare congenital heart defect on May 17, 2011 and passed away on September 14, 2011. *Three Little Birds Faith Hope and Love* is a testimony to the power of prayer and provides proof that God made sure Jacqueline and her family did not have to face this painful journey to physical and emotional wholeness alone. Jacqueline's story speaks about her personal experience as a mom and about her attempt to live her life faithfully as a Christian while she managed the toughest trial of her life during a parent's worst nightmare: losing a child. Living life as a Christian means living life to a higher calling. Jacqueline's story is about taking a parent's worst nightmare and turning it into something extraordinary by improving the lives of others one baby step at a time. Imbued in Jacqueline's writing is the Martin family's message of faith, hope, and love in a direct metaphor for the three little birds. The three little birds are represented by her three children as well as the greatest gifts of God. Everyone endures hardships in their lives and receives tests of their faith during these difficult times. These tests of faith enable us to continue to count as well as remember our blessings. They seem to hide the world's nature and beautiful colors, silencing the chirping and singing of birds. During difficult times, community and help from others allow us to continue standing and to get through the trials. With the help of others, the world's colors shine brightly and open our eyes to different experiences, trials, and journeys in our life as well as the journeys of others.

Rhetoric, History, and Women's Oratorical Education David Gold,Catherine L. Hobbs,2013-05-02 Historians of rhetoric have long worked to recover women s education in reading and writing but have only recently begun to explore women s speaking practices from the parlor to the platform to the varied types of institutions where women learned elocutionary and oratorical skills in preparation for professional and public life This book fills an important gap in the history of rhetoric and suggests new paths for the way histories may be told in the future tracing the shifting arc of women s oratorical training as it develops from forms of eighteenth century rhetoric into institutional and extrainstitutional settings at the end of the nineteenth century and diverges into several distinct streams of community embodied theory and practice in the twentieth Treating key rhetors genres settings and movements from the early republic to the present these essays collectively challenge and complicate many previous claims made about the stability and development of gendered public and private spheres the decline of oratorical culture and the limits of women s oratorical forms such as elocution and parlor rhetorics and women s responses to rhetorical constraints on their public speaking Enriching our understanding of women s oratorical education and practice this cutting edge work makes an important contribution to scholarship in rhetoric and communication
