Between Ocean And City Columbia History Of Urban Life:

Ed Koch and the Rebuilding of New York City Jonathan Soffer, 2012-01-31 In 1978 Ed Koch assumed control of a city plagued by filth crime bankruptcy and racial tensions By the end of his mayoral run in 1989 and despite the Wall Street crash of 1987 his administration had begun rebuilding neighborhoods and infrastructure Unlike many American cities Koch s New York was growing not shrinking Gentrification brought new businesses to neglected corners and converted low end rental housing to coops and condos Nevertheless not all the changes were positive AIDS crime homelessness and violent racial conflict increased marking a time of great if somewhat uneven transition For better or worse Koch's efforts convinced many New Yorkers to embrace a new political order subsidizing business particularly finance insurance and real estate and privatizing public space Each phase of the city's recovery required a difficult choice between moneyed interests and social services forcing Koch to be both a moderate and a pragmatist as he tried to mitigate growing economic inequality Throughout Koch's rough rhetoric attacking his opponents as crazy wackos and radicals prompted charges of being racially divisive The first book to recast Koch's legacy through personal and mayoral papers authorized interviews and oral histories this volume plots a history of New York City through two rarely studied yet crucial decades the bankruptcy of the 1970s and the recovery and crash of the 1980s America, History and Life, 2005 Article abstracts and citations of reviews and dissertations covering the United States and Canada **Triumph of Order** Lisa Keller, 2009 Abstract **Drawings and Watercolors in the Metropolitan Museum of Art** Kevin J. Avery, Metropolitan Museum of Art (New York, N.Y.),2002 The Metropolitan Museum began acquiring American drawings and watercolors in 1880 just ten years after its founding Since then it has amassed more than 1 500 works executed by American artists during the eighteenth and nineteenth centuries in watercolor pastel chalk ink graphite gouache and charcoal This volume documents the draftsmanship of more than 150 known artists before 1835 and that of about 60 unidentified artists of the period It includes drawings and watercolors by such American masters as John Singleton Copley John Trumbull John Vanderlyn Thomas Cole Asher Brown Durand George Inness and James Abbott McNeill Whistler Because the 504 works illustrate such a wide range of media techniques and styles this publication is a veritable history of American drawing from the eighteenth through most of the nineteenth century Metropolitan Museum of Art website Henry George and the Crisis of Inequality Edward O'Donnell, 2015-06-09 America's remarkable explosion of industrial output and national wealth at the end of the nineteenth century was matched by a troubling rise in poverty and worker unrest As politicians and intellectuals fought over the causes of this crisis Henry George 1839 1897 published a radical critique of laissez faire capitalism and its threat to the nation s republican traditions Progress and Poverty 1879 which became a surprise best seller offered a provocative solution for preserving these traditions while preventing the amassing of wealth in the hands of the few a single tax on land values George's writings and years of social activism almost won him the mayor's seat in New York City in 1886 Though he lost the

election his ideas proved instrumental to shaping a popular progressivism that remains essential to tackling inequality today Edward T O Donnell's exploration of George's life and times merges labor ethnic intellectual and political history to illuminate the early militant labor movement in New York during the Gilded Age He locates in George's rise to prominence the beginning of a larger effort by American workers to regain control of the workplace and obtain economic security and opportunity The Gilded Age was the first but by no means the last era in which Americans confronted the mixed outcomes of modern capitalism George's accessible forward thinking ideas on democracy equality and freedom have tremendous value for contemporary debates over the future of unions corporate power Wall Street recklessness government regulation and political polarization Upsetting the Apple Cart Frederick Douglass Opie, 2014-12-02 Upsetting the Apple Cart surveys the history of black Latino coalitions in New York City from 1959 to 1989 In those years African American and Latino Progressives organized mobilized and transformed neighborhoods workplaces university campuses and representative government in the nation's urban capital Upsetting the Apple Cart makes new contributions to our understanding of protest movements and strikes in the 1960s and 1970s and reveals the little known role of left of center organizations in New York City politics as well as the influence of Jesse Jackson s 1984 and 1988 presidential campaigns on city elections Frederick Douglass Opie provides a social history of black and Latino working class collaboration in shared living and work spaces and exposes racist suspicion and divisive jockeying among elites in political clubs and anti poverty programs He ultimately offers a different interpretation of the story of the labor student civil rights and Black Power movements than has been traditionally told His work highlights both the largely unknown agents of historic change in the city and the noted politicians political strategists and union leaders whose careers were built on this history Also as Napoleon said An army marches on its stomach and Opie's history equally delves into the role that food plays in social movements with representative recipes from the American South and the Caribbean included throughout The Global 1930s Marc Matera, Susan Kingsley Kent, 2017-07-14 Cover Title Copyright Contents Acknowledgments Introduction the Wilsonian moment betrayed 1919 1929 Part I Primitive modern 1 30s modern Part II Internationalism 2 Imperial internationalisms 3 Anti colonial internationalisms Part III International crisis 4 The Great Depression 5 Revolts Part IV International challenges to liberalism 6 Global communism 7 Global fascism Conclusion the road to war Index The ^AOxford Companion to United States History Paul S. above By constructing a unified theoretical framework this book attempts to open a new field of interdisciplinary research that should take globalizations from below out of their current scholarly marginality. This is one of the first scholarly works to collectively present more than one globalization from below and will be of great interest to students scholars and researchers of International Relations International Political Economy Development Studies Economic History Anthropology Diaspora History of the Columbia River Valley from the Dalles to the Sea Fred Lockley, 1928 Studies and Chinese Studies Ocean Dumping Quandary Donald Fleming Squires, 1983-01-01 Dumping of sewage sludge dredge spoils and toxic wastes in the coastal waters of New York and New Jersey is an old practice In the 1970s ocean dumping became an important environmental issue the subject of legislation and litigation and of scientific inquiry After a decade of study and debate the basic issues of the environmental effects of ocean dumping and its impact on the ocean and surrounding coastal region remain unresolved This nontechnical review of ocean dumping issues looks at the development of the metropolitan coastal region from a societal view particularly in how we have used the waters of the New York Bight What is being dumped and the current state of our knowledge on the environmental effects of ocean dumping are closely examined as well as legislative and legal issues surrounding contemporary court actions Between Ocean and City ,2003 **Reorienting the Middle East** Dale Hudson, Alia Yunis, 2024-01-16 Stories of desert landscapes cutting edge production facilities and lavish festivals often dominate narratives about film and digital media on the Arabian Peninsula However there is a more complicated history that reflects long standing interconnections between the Persian Gulf Arabian Sea and Indian Ocean Just as these waters are fluid spaces so too is the flow of film and digital media between cultures in East Africa Europe North Africa South Asia Southwest Asia and Southeast Asia Reorienting the Middle East examines past and contemporary aspects of film and digital media in the Gulf that might not otherwise be apparent in dominant frameworks Contributors consider oil companies that brought film exhibition to this area in the 1930s the first Indian film produced on the Arabian Peninsula in the late 1970s blackness in Iranian films the role of Western funding in reshaping stories Dubai's emergence in global film production uses of online platforms for performance art the development of film festivals and cinemas and short films made by citizens and migrants that turn a lens on racism sexism national identity and other rarely discussed social issues Reorienting the Middle East offers new methods to analyze the often neglected littoral spaces between nation states and regions and to understand the role of film and digital media in shaping dialogue between area studies and film and media studies Readers will find new pathways to rethink the limitations of dominant categories and frameworks in both fields Monthly Catalog of United States Government Publications United States.
