Between Two Towers The Drawings Of The School Of Miami:

Between Two Towers Vincent Joseph Scully, Vincent Scully (Jr.), Jorge Hernandez, Catherine Lynn, 1996 This publication combines the work of the students and faculty of the school of architecture at the University of Miami with a text by the school's distinguished visiting professor Vincent Scully *Between Two Towers* features a horizontal sketchbook like format capturing the detail complexity and scale of the original drawings *Modern Architecture and Other Essays* Vincent Scully, 2003 Combining the modes of historian and critic in unique and compelling ways Scully has profoundly influenced the way architecture is thought about and made This illustrated and elegantly designed volume distills Scully's incalculable contribution 300 illustrations **Pride in Modesty** Michelangelo Sabatino, 2011-05-21 Following Italy's unification in 1861 architects artists politicians and literati engaged in volatile debates over the pursuit of national and regional identity Growing industrialization and urbanization across the country contrasted with the rediscovery of traditionally built forms and objects created by the agrarian peasantry *Pride in Modesty* argues that these ordinary often anonymous everyday things inspired and transformed Italian art and architecture from the 1920s through the 1970s Through in depth examinations of texts drawings and buildings Michelangelo Sabatino finds that the folk traditions of the pre industrial countryside have provided formal practical and poetic inspiration directly affecting both design and construction practices over a period of sixty years and a number of different political regimes This surprising continuity allows Sabatino to reject the division of Italian history into sharply delimited periods such as Fascist Interwar and Democratic Postwar and to instead emphasize the long continuous process that transformed pastoral and urban ideals into a new modernist Italy **The Architectural Capriccio** Dr Lucien Steil, 2014-01-17 Bringing together leading writers and practicing architects including Jean Dethier David Mayernik Massimo Scolari Robert Adam David Watkin and Leon Krier this volume provides a kaleidoscopic multilayered exploration of the Architectural Capriccio It not only explains the phenomena within a historical context but moreover demonstrates its contemporary validity and appropriateness as a holistic design methodology an inspiring pictorial strategy an efficient rendering technique and an optimal didactic tool The book shows and comments on a wide range of historic masterworks and highlights contemporary artists and architects excelling in a modern updated refreshed and original tradition of the Capriccio *The Publishers Weekly*, 2006 **Encyclopedia of 20th Century Architecture** R. Stephen Sennott, 2004 For more information including the introduction a full list of entries and contributors a generous selection of sample pages and more visit the Encyclopedia of 20th Century Architecture website Focusing on architecture from all regions of the world this three volume set profiles the twentieth century's vast chronicle of architectural achievements both within and well beyond the theoretical confines of modernism Unlike existing works this encyclopedia examines the complexities of rapidly changing global conditions that have dispersed modern architectural types movements styles and building practices across traditional geographic and cultural boundaries **A Selection of Early Italian Painting from**

The Big Idea Scott Johnson, 2006-06-29

Scott Johnson is the highly acclaimed designer of some of L A s most recognized architecture As partner in the award winning Los Angeles architecture firm Johnson Fain he was the creative force behind extraordinary buildings such as the Sun America Building and the Fox Tower affectionately nicknamed the Die Hard Building after its starring role in the film In this engaging memoir Johnson shares his personal experiences as a designer and considers the relationship between practice and theory over the last forty years of American architecture From his childhood days in California s Salinas Valley to his tenure with legendary architect Philip Johnson to his time with Skidmore Owings Merrill to the formation of his own firm and its rise toward the top of the architectural firmament Johnson s unique insight makes for a fascinating discussion of each of the major movements that have characterized the world of architecture since Modernism in one of America s most interesting metropolises *Metropolitan Home* , 1996

Education of an Architect Ulrich Franzen, Alberto Pérez Gómez, Kim Shkapich, 1999 In 1971 the exhibition Education of an Architect A Point of View opened at the Museum of Modern Art in New York To accompany the exhibition the Cooper Union published an extremely influential limited edition book long since out of print This new volume is a smaller format that includes all material from the original book *The Architecture of Duany Plater-Zyberk and Company* Joanna Lombard, 2005 The Architecture of Duany Plater Zyberk and Company is a monograph on the highly successful urban design and architecture firm started by Andres Duany and Elizabeth Plater Zyberk in 1980 and is now known simply as DPZ Credited with popularizing small towns and villages as welcome alternatives to the bleak monotony of the suburbs DPZ champions vernacular architecture traditional buildings with ties to local culture in neighborhoods that share the same common features that made small town living so livable This book illustrates representative buildings mainly houses that make up some of these communities in such places as Seaside Florida Kentlands Maryland and Markham Ontario In addition the book showcases individual buildings that demonstrate DPZ s reinvigoration of a simple vernacular architecture including the Hibiscus House in Coconut Grove Florida and the Carambola Villas in St Croix **Architektur - Sprache** Anette Sommer, Hans Friesen, Eduard Führ, Eduard Führ, *Design Book Review* , 1996

Preservation , 1997 **Tropical Architecture** Alexander Tzonis, Bruno Stagno, Liane Lefaivre, 2001 The tropical region covers a significant proportion of the globe and yet its architecture receives relatively little outside comment or exposure Dispersed widely throughout the world the region incorporates areas as far flung as the Caribbean islands India South East Asia and large parts of Australia Africa and South and Central America Despite their great cultural diversity these areas share both climatic and ecological factors as well as a post colonial condition and the pressures of modernization in the world of globalization Architects reactions to the tropical context are as varied as the region is diverse Tropical Architecture brings together architects and critics from throughout the tropical region examining the implications of the opposing forces of tradition and innovation and the struggle between global and local order Among the issues covered are sustainability bio and

cultural diversity micro climatic control and technology and multi disciplinary design The argument centres on Critical Regionalism a concept introduced into the architectural debate in the early 1980s by two of the book s co authors Tzonis and Lefaivre This is not a style but rather an approach to architecture that asks for design to be conceived in response to the needs and opportunities of a specific region although it is not inherently opposed to global potentials The theoretical debate is backed up by case studies of a range of projects from small scale designs using minimal technology to super sophisticated high tech solutions and from schemes that look to environmental comfort to ones concerned with issues of symbolism and memory It is out of this multiplicity of approaches that the general global lesson of Critical Regionalism as applied to tropical architecture is to be found THE PRINCE CLAUS FUND stimulates and supports activities in the field of culture and development by granting awards funding and producing publications and by financing and promoting networks and innovative cultural activities Support is given both to persons and to organizations in African Asian Latin American and Caribbearn countries

Stretto House Steven Holl Architects, 1996 The Stretto House built near Dallas Texas in 1992 exemplifies the poetic nature of his architecture as well as his method of following an initial concept to its fullest realization The need for protection from the scorching Texas sun led the architect to explore the ideas of shadow and overlap the bold overlapping stretto between heavy percussion and light strings in Bela Bartok s *Music for Strings Percussion and Celeste* proved fertile for the form and construction of the residence Like Bartok s score the house has four sections each consisting

of heavy concrete block spatial dams with light metal roofed aqueous space flowing between Orthogonal floors pull one space through to the next while curvilinear roofs stretch space over the walls Essential to the sequential balance are rich details and carefully selected materials including glass slumped or cast in fluid shapes and liquid terrazzo *American Book Publishing Record*, 1996 **Close at Hand** Anne Hayden Schwartzburg, 1997 The Writers Directory 2008 Michelle Kazensky, 2007-06 Features bibliographical biographical and contact information for living authors worldwide who have at least one English publication Entries include name pseudonyms addresses citizenship birth date specialization career information and a bibliography
