Generation Mixed Goes to School Ralina L. Joseph, Allison Briscoe-Smith, 2021 Grounded in the life experiences of children youth teachers and caregivers this book investigates how implicit bias affects multiracial kids in unforeseen ways Drawing on critical mixed race theory and developmental psychology the authors employ radical listening to examine both how these children experience school and what schools can do to create more welcoming learning environments They examine how the silencing of mixed race experiences often creates a barrier to engaging in nuanced conversations about race and identity in the classroom and how teachers are finding powerful ways to forge meaningful connections with their mixed race students This is a book written from the inside integrating not only theory and research but also the authors own experiences negotiating race and racism for and with their mixed race children It is a timely and essential read not only because of our nation s changing demographics but also because of our racially hostile political climate Book Features Examination of the most contemporary issues that impact mixed race children and youth including the racialized violence with which our country is now reckoning Guided exercises with relevant action oriented information for educators parents and caregivers in every chapter Engaging storytelling that brings the school worlds of mixed race children and youth to life Interdisciplinary scholarship from social and developmental psychology critical mixed race studies and education Expansion of the typical Black White binary to include mixed race children from Asian American Latinx and Native American backgrounds

Mixed Heritage in the Family Carolyn Liebler, Miri Song, 2025-05-15 As interracial unions and multiracial people become more common in the United States mixed heritage people have come to be regarded by some as a bellwether of race relations in the country Is the growth of this population a sign that we are now in a post racial era and our racial identities no longer impact our daily lives In *Mixed Heritage in the Family* sociologists Carolyn A Liebler and Miri Song explore how racially mixed people navigate racial boundaries as they choose spouses and raise families Liebler and Song break new ground by being the first to combine and integrate the study of three aspects of life for people of mixed racial heritage identity spouse choice and childrearing This integrated approach reveals how complicated racial identification can

be and how it can be expressed in one's choice of partner or in how one raises their children. The authors draw on census data and interviews with Asian White, Black White, and American Indian Alaska Native White mixed people to better understand how their identity choices are related to their choice of spouse and how they racially identify and raise their children. Increasingly mixed people in the United States are identifying with multiple races. However, the authors find that mixed race people are not a monolith and that how and why they identify varies considerably between and within each group. They found several common factors that influenced whether mixed race people choose to identify as biracial, solely White, or solely as a racial minority. These factors include the history of the specific minority race in the U.S., the racial demographics of where they were raised, their social and cultural exposure to their White and non-White backgrounds, their attachment to their racial backgrounds, and how they are seen racially by others. The way mixed heritage people identify was closely tied to the race of their spouse. However, having a White spouse did not necessarily mean the mixed race person felt disconnected from their non-White heritage. White spouses varied in their racial consciousness and their interest in the culture of their mixed race spouse's minority ancestry. The spouse's race and the nature of racial overlap between the spouses was also key in the racial upbringing of a mixed heritage person's child. In families where the parents share a minority racial heritage, couples lean into their shared family race, which guides their parenting choices and family life. Many mixed heritage parents found it important to foster racial pride in their children and combat negative racial stereotypes. Liebler and Song caution against making superficial predictions about the state of race relations in the U.S. based on an increase in the multiracial population. They show that race has not become less salient in the lives of many mixed race people. American society is not post-racial. *Mixed Heritage in the Family* breaks new ground, provides compelling insights in its examination of the lives of mixed race people, and shows how complicated racial identification can be. Consumer Culture Theory Russell W. Belk, Linda Price, Lisa Penaloza, 2013-12-06. Mixed Race Identities in Asia and the Pacific Zarine L. Rocha, 2015-10-08 Mixed race is becoming an important area for research and there is a growing body of work in the North American and British contexts However understandings and experiences of mixed race across different countries and regions are not often explored in significant depth New Zealand and Singapore provide important contexts for investigation as two multicultural yet structurally divergent societies Within these two countries mixed race describes a particularly interesting label for individuals of mixed Chinese and European parentage This book explores the concept of mixed race for people of mixed Chinese and European descent looking at how being Chinese and or European can mean many different things in different contexts By looking at different communities in Singapore and New Zealand it investigates how individuals of mixed heritage fit into or are excluded from these communities Increasingly individuals of mixed ancestry are opting to identify outside of traditionally defined racial categories posing a challenge to systems of racial classification and to sociological understandings of race As case studies Singapore and New Zealand provide key examples of the complex relationship between state categorization and individual identities The book explores the divergences between identity and classification and the ways in which identity labels affect experiences of mixed race in everyday life Personal stories reveal the creative and flexible ways in which people cross boundaries and the everyday negotiations between classification heritage experience and nation in defining identity The study is based on qualitative research including in depth interviews with people of mixed heritage in both countries Filling an important gap in the literature by using an Asia Pacific dimension this study of race and ethnicity will appeal to students and scholars of mixed

race studies ethnicity Chinese diaspora and cultural anthropology **Multiracial Americans and Social Class** Kathleen Odell Korgen, 2010-04-27 Multiracial Americans and Social Class fills a noticeable void in a growing market by examining the impact of social class on the rapidly growing multiracial population. Noted scholars examine the impact of social class on the racial identity of multiracial Americans in highly readable essays from a range of sociological perspectives **Politics beyond Black and White** Lauren D. Davenport, 2018-03-29 The US is transforming into a multiracial society today one in six new marriages are interracial and the multiple race population is the fastest growing youth group in the country. In *Politics Beyond Black and White* Lauren D. Davenport examines the ascendance of multiracial identities and their implications for American society and the political landscape. Amassing unprecedented evidence, this book systematically investigates how race is constructed and how it influences political behavior. Professor Davenport shows that biracial identities are the product of family interpersonal interactions, environment, and most compellingly, gender stereotypes and social class. These identities in turn shape attitudes across a range of political issues from affirmative action to same sex marriage and multiracial identifiers are shown to be culturally and politically progressive. But the book also reveals lingering prejudices against race mixing and that intermarriage and identification are highly correlated with economic prosperity. Overall findings suggest that multiracialism is poised to dismantle some racial boundaries while reinforcing others **Biracial Women in Therapy** Cathy Thompson, Angela R. Gillem, 2019-07-18 Get a unique perspective on the female biracial experience. *Biracial Women in Therapy: Between the Rock of Gender and the Hard Place of Race* examines how physical appearance, cultural knowledge, and cultural stereotypes affect the experience of mixed race women in belonging to and being accepted within their cultures. This unique book combines empirical research, theoretical papers, and first person narrative to address issues relevant to providing therapy to biracial women and girls, helping therapists and counselors develop a treatment framework based on sociocultural factors. Researchers, practitioners, and academics provide insight into the biracial reality, taking multiple aspects of clients' lives into account rather than looking for simple hierarchies of well-being based on race. *Biracial Women in Therapy* is a building block for mental health practitioners in the construction of theory and practice in working with biracial females. The book examines how a biracial woman's racial/ethnic identity intersects with her gender and sexual identity to affect her sense of belonging and acceptance, addressing issues of appearance, social class, disability, power, and guilt, and dating and marriage. Topics addressed in the book include the complexities of multiple minority status, how ethnic differences affect biracial adolescents' issues encountered by biracial women from a sociohistorical context, biracial women's attitudes toward counseling, stereotypes of marginalization and identity confusion, a multicultural feminist approach to counseling, and a first person narrative of one author's racial and sexual identity development. *Biracial Women in Therapy: Between the Rock of Gender and the Hard Place of Race* is a one-of-a-kind resource for counselors, therapists, researchers, and academics seeking insight into unique issues of mixed race women *Race Policy and Multiracial Americans* Kathleen Odell

Korgen, 2016-01-13 Race Policy and Multiracial Americans looks at the impact of multiracial people on race policies where they lag behind the growing numbers of multiracial people in the USA and how they can be used to promote racial justice
