Beyond The Congregation The World Of Christian Nonprofits:

Beyond the Congregation Christopher P. Scheitle, 2010-09-09 Beyond the Congregation utilizes data on almost 2 000 of the largest and most influential Christian nonprofits in the United States to answer some of the key questions raised by these organizations What explains the growth of Christian nonprofits What activities are they pursuing How are they funded and how do they use those funds *The Nonprofit Sector* Walter W Powell, Patricia Bromley, 2023-05-25 Timely unique and definitive not only chronicles the history of the nonprofit sector but also provides a broad but critical analysis of its current state Vartan Gregorian President Carnegie Corporation of New York The nonprofit sector has changed in fundamental ways in recent decades As the sector has grown in scope and size both domestically and internationally the boundaries between for profit governmental and charitable organizations have become intertwined Nonprofits are increasingly challenged on their roles in mitigating or exacerbating inequality And debates flare over the role of voluntary organizations in democratic and autocratic societies alike The Nonprofit Sector takes up these concerns and offers a cutting edge empirical and theoretical assessment of the state of the field This book now in its third edition brings together leading researchers economists historians philosophers political scientists and sociologists along with scholars from communication education law management and policy schools to investigate the impact of associational life Chapters consider the history of the nonprofit sector and of philanthropy the politics of the public sphere governance mission and engagement access and inclusion and global perspectives on nonprofit organizations Across this comprehensive range of topics The Nonprofit Sector makes an essential contribution to the study of civil society Praise for previous editions Takes a decidedly multidisciplinary approach invaluable Journal of Policy Analysis and Management A major contribution to the field Social Forces **The Priesthood of All Students** Timothée Joset, 2023-06-30 Drawing on archival records and firsthand accounts this work explores the history theology and missiology of the International Fellowship of Evangelical Students IFES It examines how IFES s commitment to immediacy mediation and participation are grounded upon a firm belief in the priesthood of all believers and a missional ecclesiology that presupposes God s involvement in all aspects of life including the university It traces the impact of diverse cultures and theologies upon the manifold expressions of mission IFES has engaged and the role of IFES in extending the presence of God s people in places and among ideologies where traditional church structures have limited access This book is a powerful reminder of the transformative impact created when believers whether students or otherwise participate in the missio Dei as faithful and creative witnesses in their own contexts Bearing relevance for all those interested in a Christian perspective on the university or the theological reverberations of student ministry it also offers a robust theological framework for understanding the legitimacy of parachurch organizations and lay ministry Nurturing Happiness Robert Wuthnow, Oxford Editor, 2025 How does religious faith contribute to happiness The usual answer is that religious belief relieves the anxieties of ordinary life and that religious belonging provides emotional support But a growing

body of literature suggests that happiness is more complicated than that Happiness is not only a feeling It is a practice that we engage in actively that we attempt to manage and that is in many ways managed for us by social norms and institutions In Nurturing Happiness Robert Wuthnow develops the concept of emotional practice and locates it in the sociological literature on practice theory He describes how American faith leaders at pivotal moments in their history attempted to nurture and control their adherents thoughts about happiness and their experiences of it He shows how religious authorities used their discursive power to draw moral distinctions among kinds of happiness and their institutional power to manage where it took place and how it was expressed And he demonstrates that religious authorities efforts to nurture happiness while not always effective played a crucial role in faith communities adaptation to changing social conditions This book describes these adaptations in colonial era arguments about heavenly joy and virtuous living nineteenth century revival meetings and festive events Progressive era advocacy for useful service recent efforts to link play with transcendence and to associate joyful spirituality with personal discipline and current responses to the fallout from illicit pursuits of happiness Nurturing Happiness is required reading for anyone interested in understanding how religious faith relates to happiness

The Oxford History of Protestant Dissenting Traditions, Volume V Mark P. Hutchinson,2018-10-17 The five volume Oxford History of Protestant Dissenting Traditions series is governed by a motif of migration out of England It first traces organized church traditions that arose in Britain and Ireland as Dissenters distanced themselves from a state church defined by diocesan episcopacy the Book of Common Prayer the Thirty Nine Articles and Royal Supremacy but then follows those traditions as they spread beyond Britain and Ireland and also analyses newer traditions that emerged downstream in other parts of the world from earlier forms of Dissent Secondly it does the same for the doctrines church practices stances toward state and society attitudes toward Scripture and characteristic patterns of organization that also originated in earlier British and Irish dissent but that have often defined a trajectory of influence independent of ecclesiastical organizations The Oxford History of Protestant Dissenting Traditions Volume V follows the spatial cultural and intellectual changes in dissenting identity and practice in the twentieth century as these once European traditions globalized While in Europe dissent was often against the religious state dissent in a globalizing world could redefine itself against colonialism or other secular and religious monopolies The contributors trace the encounters of dissenting Protestant traditions with modernity and globalization changing imperial politics challenges to biblical denominational and pastoral authority local cultures and languages and some of the century s major themes such as race and gender new technologies and organizational change In so doing they identify a vast array of local and globalizing illustrations which will enliven conversations about the role of religion and in particular Christianity

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and gripping novel that will keep you speculating until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
