UNDERSTAND THEMSELVES AND THE PEOPLE IN THEIR LIVES AS NEVER BEFORE Using a mix of experiential reportage personal storytelling and fresh scientific discovery Steven Johnson describes how the brain works its chemicals structures and subroutines and how these systems connect to the day to day realities of individual lives For a hundred years he says many of us have assumed that the most powerful route to self knowledge took the form of lying on a couch talking about our childhoods The possibility entertained in this book is that you can follow another path in which learning about the brain's mechanics can widen one's self awareness as powerfully as any therapy or meditation or drug In *Mind Wide Open* Johnson embarks on this path as his own test subject participating in a battery of attention tests learning to control video games by altering his brain waves scanning his own brain with a 2 million fMRI machine all in search of a modern answer to

the oldest of questions who am I Along the way Johnson explores how we read other people how the brain processes frightening events and how we might rid ourselves of the scars those memories leave what the neurochemistry is behind love and sex what it means that our brains are teeming with powerful chemicals closely related to recreational drugs why music moves us to tears and where our breakthrough ideas come from Johnson's clear engaging explanation of the physical functions of the brain reveals not only the broad strokes of our aptitudes and fears our skills and weaknesses and desires but also the momentary brain phenomena that a whole human life comprises Why when hearing a tale of woe do we sometimes smile inappropriately even if we don't want to Why are some of us so bad at remembering phone numbers but brilliant at recognizing faces Why does depression make us feel stupid To read *Mind Wide Open* is to rethink family histories individual fates and the very nature of the self and to see that brain science is now personally transformative a valuable tool for better relationships and better living
