Body Politics Rethinking Gender and Masculinity Tanmoy Baghira & Ananya Mukherjee, 2021-01-31 The

research on men and masculinities traces back to the women's and gay liberation movements that challenged existing understandings of gender and power. This proposes to look into gender as socially constructed rather than what was earlier thought to be biological. As a logical extension of Feminism, Masculinity Studies looks into sex/gender as a discursive social construct and tries to understand them through theoretical hermeneutics. Instead of considering masculinity to be a natural character type, a behavioural average or a norm, the focus should be given to the process through which the gendered bodies perform. In this regard, sex/gender is not fixed; instead, it is in a continuous flux, thus masculinity should be recognised as a gender presentation that is continuously transforming and evolving. This volume, *Body Politics: Rethinking Gender and Masculinity*, will engage with the current developments in the field of Masculinity Studies and will try to diversify the issues of gender and masculinity.

Textual Transformations in Children's Literature Benjamin Lefebvre, 2013-01-04. This book offers new critical approaches for the study of adaptations, abridgments, translations, parodies, and mash-ups that occur internationally in contemporary children's culture. It follows recent shifts in adaptation studies that call for a move beyond fidelity criticism, a paradigm that measures the success of an adaptation by the level of fidelity to the original text, toward a methodology that considers the adaptation to be always already in conversation with the adapted text. This book visits children's literature and culture in order to consider the generic, pedagogical, and ideological underpinnings that drive both the process and the product. Focusing on novels as well as folktales, films, graphic novels, and anime, the authors consider the challenges inherent in transforming the work of authors such as William Shakespeare, Charles Perrault, L. M. Montgomery, Laura Ingalls Wilder, and A. A. Milne into new forms that are palatable for later audiences, particularly when for perceived ideological or political reasons the textual transformation is not only unavoidable but entirely necessary. Contributors consider the challenges inherent in transforming stories and characters from one type of text to another across genres, languages, and time, offering a range of new models that will inform future scholarship.

Outlook, 2008-03-17. **Multicultural Comics** Frederick Luis Aldama, 2010-09-15. Frederick Aldama has done it again with another timely and valuable book about comics. Picking up from his pioneering book *Your Brain on Latino Comics*, he has gathered an insightful group of authors in *Multicultural Comics* that deftly engage the intersectionality of race and identity, image and idea, theory and methods, and comics and politics. The impressive range of critical essays covers steep theoretical and cultural ground yet surely footedly demonstrates that the grand fantasyscapes illustrated across various comic book configurations are a site of real and imagined racial differentiation intensely dialoguing with the self, the nation, and the world.
