Displacing the Anxieties of Our World Ildikó Limpár,2017-01-06 Monster studies dystopian literature and film studies have become central to research on the now proliferating works that give voice to culture specific anxieties This new development in scholarship reinforces the notion that the genres of fantasy and science fiction call for interpretations that see their spaces of imagination as reflections of reality not as spaces invented merely to escape the real world In this vein Displacing the Anxieties of Our World discusses fictive spaces of literature film and video gaming The eleven essays that follow the Introduction are grouped into four parts I Imagined Journeys through History Gaming and Travel II Political Anxieties and Fear of Dominance III The Space of Fantastic Science and Scholarship and IV Spaces Natural and Spaces Artificial The studies produce a dialogue among disciplinary fields that bridges the imagined space between sixteenth century utopia and twenty first century dystopia with analyses penetrating fictitious spaces beyond utopian and dystopian spheres This volume argues consequently that the space of imagination that conjures up versions of the world s frustrations also offers a virtual battleground and the possibility of triumph coming from a valuable gain of cognizance once we perceive the correspondence between spaces of the fantastic and those of the mundane

sequence of rooms impossible in real life in Nemo's submarine recounts the competition among nineteenth century cities to build the most spectacular aquatic world and explains the workings of the bathysphere an early underwater vessel modeled on a hot air balloon He considers the aquarium's function in films as a sort of viewing lens describes the chlorine proof artificial sea life seen by passengers on the submarine ride at Disneyland and reports that Jacques Cousteau's famous underwater documentaries were in fact highly staged The oceans of today are not those imagined by Verne they are changing from both natural processes and human influence Memo for Nemo documents the power of the undersea in both art and life
