archaeology germane to the general public as well as to researchers in other disciplines In thirty one richly illustrated
chapters a wide variety of projects is presented by an international group of anthropologists archaeologists architects and
artists These aim to broaden the applicability of archaeology by reflecting on archaeological remains in novel ways or by
addressing contemporary concerns with archaeological theory and research methods Demonstrating the fascinating and
pertinent nature of archaeology the authors go far beyond its definition as a discipline that unearths objects of ancient
material culture Many chapters also provide arguments relevant to the soul searching discussions currently taking place
within archaeology worldwide and accelerated by the Black Lives Matter movement and the recent Covid 19 pandemic
