Los Angeles Documentary and the Production of Public History, 1958-1977 Joshua Glick, 2018-01-23 Los Angeles Documentary and the Production of Public History 1958 1977 explores how documentarians working between the election of John F Kennedy and the Bicentennial created conflicting visions of the recent and more distant American past Drawing on a wide range of primary documents Joshua Glick analyzes the films of Hollywood documentarians such as David Wolper and Mel Stuart along with lesser known independents and activists such as Kent Mackenzie Lynne Littman and Jes s Salvador Trevi o While the former group reinvigorated a Cold War cultural liberalism the latter group advocated for social justice in a city plagued by severe class stratification and racial segregation Glick examines how mainstream and alternative filmmakers turned to the archives civic institutions and production facilities of Los Angeles in order to both change popular understandings of the city and shape the social consciousness of the nation Discoverers, Conquerors, Colonial Settlers, Liberators, National Leaders of Latin America Viola E. Peterson, 1946 *The Dao of World Politics* L. H. M. Ling, 2013-10-30 This book draws on Daoist yin yang dialectics to move world politics from the current stasis of hegemony hierarchy and violence to a more balanced engagement with parity fluidity and ethics The author theorizes that we may develop a richer more representative approach towards sustainable and democratic governance by offering a non Western alternative to hegemonic debates in IR The book presents the story of world politics by integrating folk tales and popular culture with policy analysis It does not exclude current models of liberal internationalism but rather brackets them for another day another purpose The deconstruction of IR as a singular unifying school of thought through the lens of a non Westphalian analytic shows a unique perspective on the forces that drive and shape world politics This book suggests new ways to articulate and act so that global politics is more inclusive and less coercive Only then the book claims could IR realize what the dao has always stood for a world of compassion and care The Dao of World Politics bridges the humanities and social sciences and will be of interest to scholars and students of the global international as well as policymakers and activists of the local domestic *Recruiter Journal* ,1994 **The Metamorphosis of Leadership in a Democratic Mexico** Roderic Ai Camp, 2010-11-11 The Metamorphosis of Leadership in a Democratic Mexico is a broad analysis of Mexico s changing leadership over the past eight decades stretching from its pre democratic era 1935 1988 to its democratic

transition 1988 2000 to its democratic period 2000 the present In it Roderic Camp one of the most distinguished scholars of Mexican politics seeks to answer two questions 1 how has Mexican political leadership evolved since the 1930s and in what ways beyond ideology has the shift from a semi authoritarian one party system to a democratic electoral system altered the country s leadership and 2 which aspects of Mexican leadership have been most affected by this shift in political models and when and why did the changes in leadership occur Rather than viewing Mexico s current government as a true democracy Camp sees it as undergoing a process of consolidation under which the competitive electoral process has resulted in a system of governing institutions supported by the majority of citizens and significant strides toward plurality Accordingly he looks at the relationship between the decentralization of political power and the changing characteristics experiences and paths to power of national leaders The book which represents four decades of Camp s work is based upon a detailed study of 3000 politicians from the 1930s through the present incorporating regional media accounts and Camp s own interviews with Mexican presidents cabinet members assistant secretaries senators governors and party presidents *When Mexicans Could Play Ball* Ignacio M. García, 2014-01-06 In 1939 a team of short scrappy kids from a vocational school established specifically for Mexican Americans became the high school basketball champions of San Antonio Texas Their win and the ensuing riot it caused took place against a backdrop of shifting and conflicted attitudes toward Mexican Americans and American nationalism in the WWII era Only when the Mexicans went from perennial runners up to champs García writes did the emotions boil over The first sports book to look at Mexican American basketball specifically *When Mexicans Could Play Ball* is also a revealing study of racism and cultural identity formation in Texas Using personal interviews newspaper articles and game statistics to create a compelling narrative as well as drawing on his experience as a sports writer García takes us into the world of San Antonio s Sidney Lanier High School basketball team the Voks which became a two time state championship team under head coach William Carson Nemo Herrera An alumnus of the school himself García investigates the school administrators project to Americanize the students Herrera s skillful coaching and the team s rise to victory despite discrimination and violence from other teams and the world outside of the school Ultimately García argues through their participation and success in basketball at Lanier the Voks players not only learned how to be American but also taught their white counterparts to question long held assumptions about Mexican Americans **The Hilltopper** California Institution for Men. Tehachapi Branch, 1989 *The Report: Peru 2012*, 2012 *The Drug Company Next Door* Alexa S. Dietrich, 2013-06-07 This fascinating and most timely critical medical anthropology study successfully binds two still emergent areas of contemporary anthropological research in the global world the nature and significant impact of multinational pharmaceutical manufacturers on human social life everywhere and the contribution of corporations to the fast paced degradation of our life support system planet Earth Focusing on a pharmaceutically impacted town on the colonized island of Puerto Rico Dietrich ably demonstrates the value of ethnography carried out in small places in framing the large

issues facing humanity Merrill Singer University of Connecticut The production of pharmaceuticals is among the most profitable industries on the planet Drug companies produce chemical substances that can save extend or substantially improve the quality of human life However even as the companies present themselves publicly as health and environmental stewards their factories are a significant source of air and water pollution toxic to people and the environment In Puerto Rico the pharmaceutical industry is the backbone of the island s economy in one small town alone there are over a dozen drug factories representing five multinationals the highest concentration per capita of such factories in the world It is a place where the enforcement of environmental regulations and the public trust they ensure are often violated in the name of economic development The Drug Company Next Door unites the concerns of critical medical anthropology with those of political ecology investigating the multi faceted role of pharmaceutical corporations as polluters economic providers and social actors Rather than simply demonizing the drug companies the volume explores the dynamics involved in their interactions with the local community and discusses the strategies used by both individuals and community groups to deal with the consequences of pollution The Drug Company Next Door puts a human face on a growing set of problems for communities around the world Accessible and engaging the book encourages readers to think critically about the role of corporations in everyday life health and culture Alexa S Dietrich is Assistant Professor of Anthropology at Wagner College

Congress,1999 **Indianizing Film** Freya Schiwy,2009-04-22 Latin American indigenous media production has recently experienced a noticeable boom specifically in Bolivia Ecuador and Colombia Indianizing Film zooms in on a selection of award winning and widely influential fiction and docudrama shorts analyzing them in the wider context of indigenous media practices and debates over decolonizing knowledge Within this framework Freya Schiwy approaches questions of gender power and representation Schiwy argues that instead of solely creating entertainment through their work indigenous media activists are building communication networks that encourage interaction between diverse cultures As a result mainstream images are retooled permitting communities to strengthen their cultures and express their own visions of development and modernization Indianizing Film encourages readers to consider how indigenous media contributes to a wider understanding of decolonization and anticolonial study against the universal backdrop of the twenty first century
