Mordecai Roshwald

"I have read this book with very great interest and complete approval. I wish that it could be read by every adult in both the eastern and western blocs. With admirable skill it brings home to the reader the madness of present policies and the utter disaster to which they may well lead."

Level 7 By Mordecai Roshwald:

Level 7 Mordecai Roshwald, 2004-07-15 *Level 7* is the diary of Officer X 127 who is assigned to stand guard at the Push Buttons a machine devised to activate the atomic destruction of the enemy in the country's deepest bomb shelter Four thousand feet underground *Level 7* has been built to withstand the most devastating attack and to be self-sufficient for five hundred years Selected according to a psychological profile that assures their willingness to destroy all life on Earth those who are sent down may never return Originally published in 1959 and with over 400 000 copies sold this powerful dystopian novel remains a horrific vision of where the nuclear arms race may lead and is an affirmation of human life and love *Level 7* merits comparison to Huxley's *A Brave New World* and Orwell's 1984 and should be considered a must-read by all science fiction fans

Nuclear Fictions Michael Gardiner, 2024-11-30 In this book Michael Gardiner suggests that the conception of the war-ending weapon was tied up with a longer commitment to unified space and singular progress The mission for total weapons can be seen rising with the highly technical defensive war of the later nineteenth century and passing through twentieth-century atomic research then the targeting of the outskirts of commercial empire and the post-war consensus with deterrence as its foundation The end of the Cold War brought an opportunity to fully naturalise deterrence but also brought a tacit acceptance of nuclear violence while forms of violence against the individual were rigorously sought out If the world-unifying role of deterrence has always been undermined by the rise of rival empires it has also been questioned by critical communities including the consensus-sceptics of the 1950s 60s 1980s 90s Nuclear Criticism and readers of nuclearism millennial campaigns for Scottish independence and twenty-first-century descriptions of nuclear colonialism Recently it has become more obvious that an Anglosphere concept of worldly deterrence was bound to a singular and ultimately nihilistic idea of progress bio Michael Gardiner is Professor in the Department of English and Comparative Literature at the University of Warwick

Explorations and Proposals toward Market Socialism and World Government James A. Yunker, 2022-09-26 This book blends real-world history intellectual history and personal history into a compelling case for a new way of thinking about such highly controversial and highly misunderstood concepts as market socialism a Global Marshall Plan and world government It argues that if properly designed according to clear and specific blueprints all three of these possibilities would indeed greatly benefit humanity if they were fully implemented The book puts a human face on these proposals by documenting their origin and development through a detailed account of the author's professional efforts over a long and productive academic career This story of steadfast determination in the face of steep odds will resonate deeply with every person who has nourished a vision that is commonly dismissed as excessively idealistic and unrealistic

American Science Fiction and the Cold War David Seed, 2013-10-31 American Science Fiction in both literature and film has played a key role in the portrayal of the fears inherent in the Cold War The end of this era heralds the need for a reassessment of the literary output of the forty-year period since 1945 Working through a series of key texts American

Science Fiction and the Cold War investigates the political inflections put on American narratives in the post war decades by Cold War cultural circumstances Nuclear holocaust Russian invasion and the perceived rise of totalitarianism in American society are key elements in the author s exploration of science fiction narratives that include Fahrenheit 451 Invasion of the Body Snatchers and Dr Strangelove

The Cuban Missile Crisis Alice George, 2013-03-20 For thirteen days in October of 1962 a truly perilous flirtation with nuclear war developed between the United States and USSR as the superpowers argued over the installation of Soviet nuclear weapons in Cuba Launched by rash judgment and concluded through circumspect leadership the Cuban Missile Crisis acted as a catalyst for change during the Cold War Resolved through back channel negotiations the moment is popularly remembered as the closest the world has ever come to full scale nuclear war Using government memoranda personal letters and newspaper articles The Cuban Missile Crisis details the actual events of the political history while explaining widespread public response In six concise chapters Alice George introduces the history of Cold War America and contextualizes its political social and cultural legacy This will be a must read for anyone looking for an in depth summary of these important events For additional resources please visit the companion website at <http://www.routledge.com/cw/criticalmoments>

Awaiting Armageddon Alice L. George, 2003 The historian and former Philadelphia Daily News editor revisits the nation s response to the Cuban Missile Crisis finding Americans woefully unprepared to face the realities of nuclear brinksmanship and war because of years of concealment and cultural denial History

The New Monuments and the End of Man Robert Slifkin, 2019-11-05 How leading American artists reflected on the fate of humanity in the nuclear era through monumental sculpture In the wake of the atomic bombings of Japan in 1945 artists in the United States began to question what it meant to create a work of art in a world where humanity could be rendered extinct by its own hand The New Monuments and the End of Man examines how some of the most important artists of postwar America revived the neglected tradition of the sculptural monument as a way to grapple with the cultural and existential anxieties surrounding the threat of nuclear annihilation Robert Slifkin looks at such iconic works as the industrially evocative welded steel sculptures of David Smith the austere structures of Donald Judd and the desolate yet picturesque earthworks of Robert Smithson Transforming how we understand this crucial moment in American art he traces the intersections of postwar sculptural practice with cybernetic theory science fiction cinema and literature and the political debates surrounding nuclear warfare Slifkin identifies previously unrecognized affinities of the sculpture of the 1940s and 1950s with the minimalism and land art of the 1960s and 1970s and acknowledges the important contributions of postwar artists who have been marginalized until now such as Raoul Hague Peter Grippe and Robert Mallery Strikingly illustrated throughout The New Monuments and the End of Man spans the decades from Hiroshima to the Fall of Saigon when the atomic bomb cast its shadow over American art

(Eco)Anxiety in Nuclear Holocaust Fiction and Climate Fiction Dominika Oramus, 2023-07-07 Eco Anxiety in Nuclear Holocaust Fiction and Climate Fiction Doomsday Clock Narratives demonstrates that disaster fiction nuclear holocaust and climate change alike allows us to unearth and anatomise contemporary psychodynamics and enables us to identify pretraumatic stress as the common denominator of seemingly unrelated types of texts These Doomsday Clock Narratives argue that earth s demise is soon and certain They are set after some catastrophe and depict people waiting for an even worse catastrophe to come References to geology are particularly important in descriptions of the landscape the emphasis falls on waste and industrial bric a brac which is seen through the eyes of a future posthuman archaeologist Their protagonists have the uncanny feeling that the countdown has already started and they are coping with both traumatic memories and pretraumatic stress Readings of novels by Walter M Miller Nevil

Shute John Christopher J G Ballard George Turner Maggie Gee Paolo Bacigalupi Ruth Ozeki and Yoko Tawada demonstrate that the authors are both indebted to a century old tradition and inventively looking for new ways of expressing the pretraumatic stress syndrome common in contemporary society This book is written for an academic audience postgraduates researchers and academics specialising in British Literature American Literature and Science Fiction Studies A Companion to Science Fiction David Seed, 2008-06-09 A Companion to Science Fiction assembles essays by an international range of scholars which discuss the contexts themes and methods used by science fiction writers This Companion conveys the scale and variety of science fiction Shows how science fiction has been used as a means of debating cultural issues Essays by an international range of scholars discuss the contexts themes and methods used by science fiction writers Addresses general topics such as the history and origins of the genre its engagement with science and gender and national variations of science fiction around the English speaking world Maps out connections between science fiction television the cinema virtual reality technology and other aspects of the culture Includes a section focusing on major figures such as H G Wells Arthur C Clarke and Ursula Le Guin Offers close readings of particular novels from Mary Shelley's *Frankenstein* to Margaret Atwood's *The Handmaid's Tale* *Environments in Science Fiction* Susan M. Bernardo, Donald E. Palumbo, C.W. Sullivan III, 2014-03-26 The all new essays in this book respond to the question How do spaces in science fiction both built and unbuilt help shape the relationships among humans other animals and their shared environments Spaces as well as a sense of place or belonging play major roles in many science fiction works This book focuses especially on depictions of the future that include but move beyond dystopias and offer us ways to imagine reinventing ourselves and our perspectives especially our links to and views of new environments There are ecocritical texts that deal with space place and science fiction criticism that deals with dystopias but there is no other collection that focuses on the intersection of the two Cold War Stories Andrew Hammond, 2017-08-28 This book is the first comprehensive study of mainstream British dystopian fiction and the Cold War Drawing on over 200 novels and collections of short stories the monograph explores the ways in which dystopian texts charted the lived experiences of the period offering an extended analysis of authors concerns about the geopolitical present and anxieties about the national future Amongst the topics addressed are the processes of Cold War autocracy militarism propaganda intelligence nuclear technologies the decline of Britain's standing in global politics and the reduced status of intellectual culture in Cold War Britain Although the focus is on dystopianism in the work of mainstream authors including George Orwell Doris Lessing J G Ballard Angela Carter and Anthony Burgess a number of science fiction novels are also discussed making the book relevant to a wide range of researchers and students of twentieth century British literature *Science Fiction* Sherryl Vint, 2021-02-16 How science fiction has been a tool for understanding and living through rapid technological change The world today seems to be slipping into a science fiction future We have phones that speak to us cars that drive themselves and connected devices that communicate with each other in languages we don't

understand Depending the news of the day we inhabit either a technological utopia or Brave New World nightmare This volume in the MIT Press Essential Knowledge surveys the uses of science fiction It focuses on what is at the core of all definitions of science fiction a vision of the world made otherwise and what possibilities might flow from such otherness

Hype Jon Helgason, Sara Kärrholm, Ann Steiner, 2015-01-01 In the world of books and literature hype is associated with bestsellerism the books that sell the most are read by vast numbers and constantly talked about in media and staff rooms Often it is the success in itself that generates an interest because popularity begets popularity Quite often though a hyped bestseller is met with a skeptic criticism of poor language a badly constructed plot a predictable story line or all three The bestseller phenomenon is sometimes conceived as a threat against real literature Research into the creation reception and meaning of bestsellers is utterly scarce and Hype Bestsellers and Literary Culture is an important contribution to the understanding of the literature read by the masses Popular literature plays an important role in the lives of millions of readers offering entertainment social commentary and alternate perspectives on everyday life This volume brings together such diverse issues as the creation of hype the role and the meaning of the author in the present day media landscape changes in the book trade and the relationship between bestsellers and research into them Further articles give an historical overview on postapocalyptic stories desert romances and the role of the authors This book offers new knowledge on a subject that is increasingly popular within university curricula Although the anthology is a work of academic research the texts are of equal interest to general readers

British Fiction and the Cold War A. Hammond, 2013-09-19 This book offers a unique analysis of the wide ranging responses of British novelists to the East West conflict Hammond analyses the treatment of such geopolitical currents as communism nuclearism clandestinity decolonisation and US superpowerdom and explores the literary forms which writers developed to capture the complexities of the age

The Palgrave Handbook of Cold War Literature Andrew Hammond, 2020-09-04 This book offers a comprehensive guide to global literary engagement with the Cold War Eschewing the common focus on national cultures the collection defines Cold War literature as an international current focused on the military and ideological conflicts of the age and characterised by styles and approaches that transcended national borders Drawing on specialists from across the world the volume analyses the period s fiction poetry drama and autobiographical writings in three sections dominant concerns socialism decolonisation nuclearism propaganda censorship espionage common genres postmodernism socialism realism dystopianism migrant poetry science fiction testimonial writing and regional cultures Asia Africa Oceania Europe and the Americas In doing so the volume forms a landmark contribution to Cold War literary studies which will appeal to all those working on literature of the 1945 1989 period including specialists in comparative literature postcolonial literature contemporary literature and regional literature

Future Perfect Howard Bruce Franklin, 1995 Critics science fiction writers scientists and scholars throughout the world hailed the original publication of Future Perfect in 1966 as a book that would transform our evaluation of science fiction and

our understanding of American culture The praise has proved well founded for Future Perfect has been more responsible than any other single work for the recognition of the value and significance of science fiction **The Last Man and Gothic Sympathy** Michael Cameron,2024-03-28 This Element explores the theme of Gothic sympathy as it appears in a collection of Last Man novels A liminal site of both possibility and irreconcilability Gothic sympathy at once challenges the anthropocentric bias of traditional notions of sympathetic concern premising compassionate relations with other beings animal vegetal etc beyond the standard measure of the liberal humanist subject and at the same time acknowledges the horror that is the ineluctable and untranslatable otherness accompanying interrupting and shaping such a sympathetic connection Many examples of Last Man fiction explore the dialectical impasse of Gothic sympathy by dramatizing complicated relationships between a lone liberal humanist subject and other than human or posthuman subjects that will persist beyond humanity s extinction Such confrontations as they appear in Mary Shelley s The Last Man H G Wells s The Time Machine and Richard Matheson s I Am Legend will be explored *The Religion of Science Fiction* Frederick A. Kreuziger,1986 Science fiction captures contemporary sentiment with its faith in a scientific technological future its explorations of the ultimate meaning of man s existence Kreuziger is interested particularly in the apocalyptic visions of science fiction compared to the biblical revelations of John and Daniel For some time our confidence has been placed largely in science which has practically become a religion Science fiction articulates the consequences of a faith in a technological future
