The Long Mars Terry Pratchett, Stephen Baxter, 2015-04-01 2040-2045 In the years after the cataclysmic Yellowstone eruption, there is massive economic dislocation as populations flee Earth to myriad Long Earth worlds. Sally Joshua and Lobsang are all involved in this perilous work when, out of the blue, Sally is contacted by her long-vanished father and inventor of the original Stepper device, Willis Linsay. He tells her he is planning a fantastic voyage across the Long Mars and wants her to accompany him. But Sally soon learns that Willis has ulterior motives. Meanwhile, U.S. Navy Commander Maggie Kauffman has embarked on an incredible journey of her own, leading an expedition to the outer limits of the far Long Earth. For Joshua, the crisis he faces is much closer to home. He becomes embroiled in the plight of the Next, the super-bright post-humans who are beginning to emerge from their long childhood in the community called Happy Landings, located deep in the Long Earth. Ignorance and fear are causing normal human society to turn against the Next, and a dramatic showdown seems inevitable.

The Long War Terry Pratchett, Stephen Baxter, 2013 A new America called Valhalla grows restless under the controlling long arm of the Datum government, while all of the Long Earth is infused by the song of the trolls who are starting to react to humanity's thoughtless exploitation, bringing humankind to the brink of war.

An Informal History of the Hugos Jo Walton, 2018-08-07 Engaged, passionate, and consistently entertaining, *An Informal History of the Hugos* is a book about the renowned science fiction award for the many who enjoyed Jo Walton's previous collection of writing from Tor.com, the Locus Award-winning *What Makes This Book So Great*. The Hugo Awards, named after pioneer science fiction publisher Hugo Gernsback and voted on by members of the World Science Fiction Society, have been presented since 1953. They are widely considered the most prestigious awards in science fiction. Between 2010 and 2013, Jo Walton wrote a series of posts for Tor.com surveying the Hugo finalists and winners from the award's inception up to the year 2000. Her contention was that each year's full set of finalists generally tells a meaningful story about the state of science fiction at that time. Walton's cheerfully opinionated and

vastly well informed posts provoked valuable conversation among the field's historians Now these posts lightly revised have been gathered into this book along with a small selection of the comments posted by SF luminaries such as Rich Horton Gardner Dozois and David G Hartwell A remarkable guided tour through the field a kind of nonfiction companion to *Among Others* It's very good It's great New York Times bestselling author Cory Doctorow *Being Boing on What Makes This Book So Great* The Long Earth Terry Pratchett, Stephen Baxter, 2013-12-16 The stepper enables a person using it to step sideways into another America another wherever that person happened to be another Earth And if the person using it keeps on stepping they keep on entering even more Earths This is the Long Earth And the further away a stepper travels the stranger and sometimes more dangerous the Earths become International Who's Who of Authors and Writers 2004 Europa Publications, 2003 Accurate and reliable biographical information essential to anyone interested in the world of literature The International Who's Who of Authors and Writers offers invaluable information on the personalities and organizations of the literary world including many up and coming writers as well as established names With over 8 000 entries this updated edition features Concise biographical information on novelists authors playwrights columnists journalists editors and critics Biographical details of established writers as well as those who have recently risen to prominence Entries detailing career works published literary awards and prizes membership and contact addresses where available An extensive listing of major international literary awards and prizes and winners of those prizes A directory of major literary organizations and literary agents A listing of members of the American Academy of Arts and Letters **The Long Cosmos** Terry Pratchett, Stephen Baxter, 2016-06-30 THE EXTRAORDINARY FINAL INSTALMENT OF THE BESTSELLING LONG EARTH SERIES Intricately described gently immersive Guardian Enthralling and thought provoking in equal measure Daily Mail A love letter to science fiction itself SFX 2070 71 Nearly six decades after Step Day and in the Long Earth the new Next post human society continues to evolve For Joshua Valient now in his late sixties it is time to take one last solo journey into the High Meggers an adventure that turns into a disaster Alone and facing death his only hope of salvation lies with a group of trolls But as Joshua confronts his mortality the Long Earth receives a signal from the stars A signal that is picked up by radio astronomers but also in more abstract ways by the trolls and by the Great Traversers Its message is simple but its implications are enormous JOIN US The super smart Next realise that the Message contains instructions on how to develop an immense artificial intelligence but to build it they have to seek help from throughout the industrious worlds of mankind Bit by bit byte by byte they assemble a computer the size of a continent a device that will alter the Long Earth's place within the cosmos and reveal the ultimate life affirming goal of those who sent the Message Its impact will be felt by and resonate with all mankind and other species young and old communities and individuals who inhabit the Long Earths _____ The Long Cosmos is the fifth and final novel in the Long Earth series The Long Earth series deserves a place on the bookshelves of hardcore SF fans and general readers alike Independent on Sunday Damn You, Entropy!
