**Material World** Peter Menzel, Charles C. Mann, 1994 A photo journey through the homes and lives of 30 families revealing culture and economic levels around the world *Mother Jones Magazine*, 1995-09 *Mother Jones* is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues **Material World Curriculum Guide**, *Making the Modern World* Vaclav Smil, 2013-12-16 How much further should the affluent world push its material consumption Does relative dematerialization lead to absolute decline in demand for materials These and many other questions are discussed and answered in *Making the Modern World* Materials and Dematerialization Over the course of time the modern world has become dependent on unprecedented flows of materials Now even the most efficient production processes and the highest practical rates of recycling may not be enough to result in dematerialization rates that would be high enough to negate the rising demand for materials generated by continuing population growth and rising standards of living This book explores the costs of this dependence and the potential for substantial dematerialization of modern economies *Making the Modern World* Materials and Dematerialization considers the principal materials used throughout history from wood and stone through to metals alloys plastics and silicon describing their extraction and production as well as their dominant applications The evolving productivities of material extraction processing synthesis finishing and distribution and the energy costs and environmental impact of rising material consumption are examined in detail The book concludes with an outlook for the future discussing the prospects for dematerialization and potential constraints on materials This interdisciplinary text provides useful perspectives for readers with backgrounds including resource economics environmental studies energy analysis mineral geology industrial organization manufacturing and material science *Mother Jones Magazine*, 1995-11 *Mother Jones* is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues ***Mother Jones Magazine***, 1994-09 *Mother Jones* is an award winning national magazine widely respected for its groundbreaking investigative reporting and coverage of sustainability and environmental issues *Fevered Lives* Katherine Ott, 1996 Consider two polar images of the same medical condition the pale and fragile Camille ensconced on a chaise in a Victorian parlor daintily coughing a small spot of blood onto her white lace pillow and a wretched poor man in a Bowery flophouse spreading a dread and deadly infection Now Katherine Ott chronicles how in one century a romantic ambiguous affliction of the spirit was transformed into a disease that threatened public health and civic order She persuasively argues that there was no constant identity to the disease over time no core tuberculosis What we understand today as pulmonary tuberculosis would have been largely unintelligible to a physician or patient in the late nineteenth century Although medically the two terms described the same disease of the lungs Ott shows that tuberculosis and consumption were diagnosed defined and treated distinctively by both lay and professional health workers Ott traces the

shift from the pre industrial world of 1870 in which consumption was conceived of primarily as a middle class malaise that conferred virtue heightened spirituality and gentility on the sufferer to the post industrial world of today in which tuberculosis is viewed as a microscopic enemy fought on an urban battleground and attacking primarily the outcast poor and AIDS patients Ott s focus is the changing definition of the disease in different historical eras and environments She explores its external trappings from the symptoms doctors chose to notice whether a pale complexion or a tubercle in a dish to the significance of the economic and social circumstances of the patient Emphasizing the material culture of disease medical supplies advertisements for faraway rest cures outdoor sick porches and invalid hammocks Ott provides insight into people s understanding of illness and how to combat it *Fevered Lives* underscores the shifting meanings of consumption tuberculosis in an extraordinarily readable cultural history

transnational narratives fuse into a discourse on the persistent materiality of ephemera especially when magnified through narrative and digital embodiment The Afterlife of Discarded Objects is printed in full color and includes references an index and over seventy hi resolution color images The Afterlife of Discarded Objects Memory and Forgetting in a Culture of Waste uses contemporary theory literature popular culture and personal narratives to investigate how we assign political socio cultural and aesthetic meaning to objects The book is unique in applying personal narratives and testimonies of contributors from around the world to provide insights and critiques of Western attitudes toward these objects The Afterlife of Discarded Objects provides transformative social commentary through scrutiny and stories of discarded found objects in Eastern Europe and in the West encouraging us to reflect more critically on our relationships with things The stories and theories interwoven in Guruianu and Andrievskikh s book turn memory into matter and aspire to teach through their exploration It s a lofty goal and the book succeeds Sohui Lee      *Capitalism at the Crossroads* Stuart L. Liberating youth through theological reflection on vocation. Jeremy Paul Myers, a seasoned expert in youth and family ministry, calls the church to challenge the dominant societal view of adolescents as underdeveloped consumers who can only contribute creatively when they mature into adulthood. Myers argues that young people are innately creative creatures called by God to love and serve right now. We need to see young people as the called cocreators with God that they are. Using current studies, Myers shows how marketing and consumer science target young people with the hope of making them find their identity in buying and using things. This strong cultural emphasis underserves young people and even at times defines their lives as mere commodities. Myers tells the stories of a number of young people whose lives buck the consumer paradigm and myth of the underdeveloped young person in order to live as the called cocreators God has created them to be. Each chapter provides a set of ideas that congregations can use to take a closer look at how young people in their midst are or could be invited to be creative contributors to the life of the congregation. Questions for discussion are also provided to encourage discussion and facilitate action. **The Green Braid** Kim Tanzer, Rafael Longoria, 2007-04-11

This volume presents the discipline's best thinking on sustainability in written, drawn, and built form, drawing on over fifteen years of peer-reviewed essays and national design awards published by the Association of Collegiate Schools of Architecture (ACSA). Providing a primer on sustainability useful to teachers and students alike, the selected essays address a broad range of issues. Combined with design projects that highlight issues holistically, they promote an understanding of the principles of sustainability and further the integration of sustainable methods into architectural projects. Using essays that alternately revise and clarify twentieth-century architectural thinking, *The Green Braid* places sustainability at the centre of excellent architectural design. No other volume addresses sustainability within the context of

architectural history theory pedagogy and design making this book an ideal source for architects in framing their practices and therefore their architectural production in a sustainable manner New Age of Sustainable Capitalism Stuart L.
