can fix Americans struggle to even converse about politics and the usual explanations for our condition have failed to make things better America's future requires that we begin a new story by each of us asking a question posed by theologian Bernard Lonergan Is the universe on our side According to Ledewitz when we commit to live honestly and fully by our answer to that question even if our immediate answer is no America can begin to heal

The Other Side of Truth Paul Kimball,2013-04-02 In The Other Side of Truth filmmaker Paul Kimball crosses the Rubicon of the imagination to explore the idea that what we call the paranormal is actually a form of artistic expression created by an advanced non human intelligence to inspire us to think about who we are where we have been and where we are going Using his own journey of discovery as the starting point Kimball presents the other side of truth the world not as we have been told it is but as we are being encouraged to imagine that it could become

The Wisdom of Creation Barbara Ellen Bowe,2004 Description There has been a growing awareness of the plight of the earth at the hands of human beings over the past several decades An important theological contribution to this discussion over the past two decades has been the work of Dianne Bergant She brings first of all a deep concern for the earth and its creatures As a professor of Hebrew Bible she also brings the contribution of the Wisdom literature of the Jewish tradition It is at the intersection of these two resources concern for the earth and the Wisdom literature that much of her work has been done The Wisdom of Creation written to honor her takes up the themes of creation and Wisdom from a variety of perspectives both biblical and theological to think along with Bergant about the challenge of caring for the earth and for those who dwell upon it The work of a theology that will contribute to the care of and the future of the earth is still in many ways in its early stages Dianne Bergant's own work on themes of wisdom creation prayer and preaching has made a significant contribution to that theology It is hoped that these essays will continue that important task of making a better world in which the next generation will grow and mature Essays and contributors are The Creatures Know by Walter Brueggemann Redeeming Gospel Feminism From Anti Judaism by Mary C Boys S N J M The Divine I Am Wisdom Motifs in the Gospel of John by Barbara E Bowe Creation as a Divine Human Collaboration by Herman E Schaalman Creation Revelation and Redemption Recovering the Biblical Tradition as a Conversation Partner to Ecology by Carol J Dempsey O P Three Who Loved Wisdom by Agnes Cunningham S S C M Charged with the Grandeur of God The Created World as a Path to Prayer by Anthony J Gittins C S Sp The Myth of the Garden and Spiritual Ministry in Postmodern America by Mary Frohlich R S C J Nature's Parables and the Preaching of the Gospel by Mary Catherine Hilker O P and Preaching Morality without Moralizing by Andrew L Nelson

Inventing the Child Joseph L. Zornado,2021-11-18 This book traces the historical roots of Western culture's stories of childhood in which the child is subjugated to the adult Going back 400 years it looks again at Hamlet fairy tales of the Brothers Grimm and Walt Disney cartoons Inventing the Child is a highly entertaining humorous and at times acerbic account of what it means to be a

child and a parent in America at the dawn of the new millennium John Zornado explores the history and development of the concept of childhood starting with the works of Calvin Freud and Rousseau and culminating with the modern consumer childhood of Dr Spock and television The volume discusses major media depictions of childhood and examines the ways in which parents use different forms of media to swaddle educate and entertain their children Zornado argues that the stories we tell our children contain the ideologies of the dominant culture which more often than not promote happiness at all costs materialism as the way to happiness and above all obedience to the dominant order

Placing Nature on the Borders of Religion, Philosophy and Ethics Dr Forrest Clingerman, Mr Mark H Dixon, 2013-06-28 The natural world has been humanized even areas thought to be wilderness bear the marks of human impact But this human impact is not simply physical At the emergence of the environmental movement the focus was on human effects on nature More recently however the complexity of the term nature has led to fruitful debates and the recognition of how human individuals and cultures interpret their environments This book furthers the dialogue on religion ethics and the environment by exploring three interrelated concepts to recreate to replace and to restore Through interdisciplinary dialogue the authors illuminate certain unique dimensions at the crossroads between finding value creating value and reflecting on one's place in the world Each of these terms has diverse religious ethical and scientific connotations Each converges on the ways in which humans both think about and act upon their surroundings And each radically questions the damaging conceptual divisions between nature and culture human and environment and scientific explanation and religious ethical understanding This book self consciously reflects on the intersections of environmental philosophy environmental theology and religion and ecology stressing the importance of how place interprets us and how we interpret place In addition to its contribution to environmental philosophy this work is a unique volume in its serious engagement with theology and religious studies on the issues of ecological restoration and the meaning of place

Wild Earth, Wild Soul Bill

Pfeiffer,2013-06-28 Humankind has the capacity and know how to create Earth honoring cultures in a new way for new times Through tapping into ancestral memories taking what s best from the human potential movement and collaborating with present day indigenous peoples we can find our way home Practicing the key ingredients of a lasting culture is an ecstatic way to live This book shows you how The God of All Flesh Walter Brueggeman,2017-01-26 Biblical faith is passionately and relentlessly material in its emphasis This claim is rooted in the conviction that the creator God loves the creation and summons creation to be in sync with the will of the creator God This collection of essays is focussed on the bodily life of the world as it ordered in all of its problematic political and economic forms The phrase of the title all flesh in the flood narrative of Genesis 9 refers to all living creatures who are in covenant with God human beings animals birds and fish as recipients of God s grace as dependent upon God s generosity and as destined for praise and obedience to God The insistence on the materiality of life as the subject of the Bible means that the difficult issues of economics and the demanding questions of politics are front and centre in the text So the Pentateuch pivots around the Exodus narrative and the emancipation from an unbearable context of abusive labour practices In a similar manner the prophets endlessly address such questions of social policy and the wisdom teachers reflect on how to manage the material things of life and social relationships for the well being of the community This emphasis pervasive in these essays is a powerful alternative and a strong resistance against all of the contemporary efforts to transcend escape the material into some form of the spiritual All around us are efforts to find an easier more harmonious faith This may be evoked simply because of a desire to shield economic political advantage from the inescapable critique of biblical faith Such a temptation is a serious misreading of the Bible and a critical misjudgment about the nature of human existence Thus the Bible addressed the most urgent issues of our day and refuses the religious temptation that avoids lived reality where the power of God is a work Darwin, Divinity, and the Dance of the Cosmos Bruce Sanguin,2007 In March 2005 the United Nations released its Millennium Ecosystem Assessment Among the findings 2 3 of the world s ecosystems are seriously degraded 90 percent of the world s fish stocks are depleted and climate change is not just something that might happen it is already upon us Many people including many Christians will hear this and delude themselves into thinking that technology can and will save the day A wiser and more helpful response especially for Christians is to find a way to step back into the flow of nature from which we have extricated ourselves In Darwin Divinity and the Dance of the Cosmos Bruce Sanguin shows us the way Sanguin draws on the latest scientific understandings of the nature of the universe and weaves them together with biblical meta narratives and frequently overlooked strands of the Judeo Christian tradition to create an ecological and truly evolutionary Christian theology a feat few theologians have even attempted This book and more importantly the work of integration it suggests represents a fundamental challenge to our theological and liturgical models But for those who are ready and willing to embark on an exciting theological journey of discovery it also represents a rich opportunity to become reacquainted with the Spirit of God moving in and through the very

dynamics of an unfolding universe In Darwin Divinity and the Dance of the Cosmos Sanguin draws on the latest scientific understandings of the nature of the universe and weaves them together with biblical meta narratives and frequently overlooked strands of the Judeo Christian tradition to create an ecological and truly evolutionary Christian theology

The Ocean in a Drop Dr Roz Savage MBE,2022-11-24 The bad news is that our civilisation is collapsing The good news is that you are already helping create a new and better one The Ocean in a Drop follows the quest of Roz Savage a frustrated environmentalist and ocean adventurer to find out why her own endeavours and the environmental movement more generally have failed to achieve change of the necessary scope scale and speed Her journey takes her from the environment through economics and politics into patriarchy and a global culture of domination the domination of rich over poor strong over weak humanity over nature She examines the tragic psychological flaws in the way we think and the apparent inevitability of civilisational collapse and deduces that our best hope is to transcend the current trap of runaway materialism But how Exploring cutting edge theories on the nature of reality and the relationship between matter and consciousness she peels back the veils of our shared delusions to arrive at a new narrative about what it means to be human in the twenty first century She paints a bold exciting vision of a future in which people and planet thrive

PRICELESS THOUGHTS ON KNOWLEDGE FOLORUNSHO MEJABI,2016-01-10 The range of human knowledge today is so great that we re all specialists and the distance between specializations has become so great that anyone who seeks to wander freely between them almost has to forego closeness with the people around him Mankind have a great aversion to intellectual labour but even supposing knowledge to be easily attainable more people would be content to be ignorant than would take even a little trouble to acquire it Samuel Johnson In the word of John Quincy Adams To furnish the means of acquiring knowledge is the greatest benefit that can be conferred upon mankind It prolongs life itself and enlarges the sphere of existence Only a blind man can easily define what light is When you do not know you are bold Ignorance is always bold

knowledge hesitates And the more you know the more you feel that the ground underneath is dissolving The more you know the more you feel how ignorant you are Enjoy the compiled PRICE THOUGHTS ON KNOWLEDGE by great men
