Critical Essays on Children's Literature** Ciara Ní Bhroin,Patricia Kennon,2012-03-15 This peer reviewed collection of critical essays on

children's literature addresses contemporary debates regarding what constitutes suitable texts for young audiences. The volume examines what adult writers tell their child readers with particular focus on the following areas: the representation of sexuality, gender and the body; the treatment of death and trauma; concepts of race, prejudice and national identity; and the use of children's literature as a tool for socializing, acculturating, politicizing and educating children. The focus of the collection is on Irish and international fiction addressed at readers from mid childhood to young adulthood. One section of the book examines what child readers were told in the past while another section examines young readers' capacity for self-invention through the participatory culture of the twenty-first century. Topics explored include the controversial issue of teenage prostitution and the commodification of the male body in contemporary young adult fiction; the allure of celebrity and the impact of today's surveillance culture on young people; the representation of the Holocaust for young readers; and representations of Muslim characters and culture in a post-9/11 mediascape. This collection, which offers insights into a range of literary constructions and representations of childhood, will be a valuable resource for students and scholars working in children's literature, youth culture and childhood studies.

Drugs and Popular Culture Paul Manning, 2013-01-11. The use of illegal drugs is so common that a number of commentators now refer to the normalisation of drug consumption. It is surprising then that to date very little academic work has explored drug use as part of contemporary popular culture. This collection of readings will apply an innovative multi-disciplinary approach to this theme, combining some of the most recent research on the normalisation thesis with fresh work on the relationship between drug use and popular culture. In drawing upon criminological, sociological and cultural studies approaches, this book will make an important contribution to the newly emerging field positioned at the intersection of these disciplines. The particular focus of the book is upon drug consumption as popular culture. It aims to provide an accessible collection of chapters and readings that will explore drug use in popular culture in a way that is relevant to undergraduates and postgraduates studying a variety of courses including criminology, sociology, media studies, health care and social work.
