As Andrzej Mencwel observed as a result of fundamental historical changes the need arises for restructuring of the whole present memory and tradition system Rodzinna Europa po raz pierwszy Changes of such significance took place in Poland during the Second World War and several following decades Collective experience of that time was made up of apart from political antagonisms social and cultural phenomena such as change of elites reinterpretation of their grand narratives or symbolic world the ultimate inclusion of the masses into the national project based on the post gentry tradition and national history the intensive development of urban lifestyle and the expansion of popular culture industrialization and the process of forming a single nationality state that diverted from the politics of domination over eastern neighbors and instead focused on developing the so called Polish Western and Northern Lands Tadeusz R ewicz s work referred to these experiences on both the intellectual and biographical level Comparing Juliusz Mieroszewski s political journalism with Tadeusz R ewicz s works Andrzej Mencwel stressed its unique relationship of the author of Niepok j According to him both writers were writing as though they had truly experienced the end of the world Przedwio nie czy potop Studium postaw polskich w XX wieku In the afterword to the German anthology of R ewicz s works Karl Dedecius mentioned Stunde Null hour zero as the founding experience of his writing It was this experience that induced him to undertake the challenge of attempting a new collective and national as well as individual self identification searching for a radically new way of thinking and writing about man and verifying the essential components of his identity Andrzej Walicki called this urge the catastrophism after a catastrophe explaining that once the catastrophe took place a ca tastrophist acknowledging its inevitability must think about a new beginning about determining his own place in a new world Zniwolony umys po latach Hanna Gosk specifies that it gave rise to situations when the necessity of discovering one s place in new geographical social axiological and world view related environment urged self identification Bohater swoich czas w Posta literacka w powojennej prozie polskiej o tematyce wsp czesnej It must be stressed that the need for re establishing the sense of identity resulting from a major crisis was by no means limited to the postwar artistic and political elites On the contrary due to social changes and democratization of the access to national culture it concerned more than ever in the past the everyman who did not belong to one class solely the intelligentsia bourgeoisie peasantry or proletariat but most often represented multiple social rooting Tadeusz R ewicz alongside with writers such as Tadeusz Borowski Marek H asko or Miron Bia oszewski made the Polish everyman Tadeusz Drewnowski the central figure of his work This study discusses the modern identity of an individual in Poland in two variants a cultured man with traditions and an ordinary transitional temporal or new man By adopting the narrativist approach

identity can be described through its articulations in culture for example in literary texts Analyzing methods of modern identification and self awareness throughout this book I try to prove that prose works of the author of miewstarych dekoracjach present an extensive interesting and diverse material in the matter When necessary I refer also to his dramatic works and poetry especially to some longer poems published after 1989 The author's most important prose works have so far been written in the first 30 year period starting from his debut volume of partisan novellas notes and humorous sketches Echa le nie mimeographed in 1944 While focusing on this period I also analyze later works published in collections Nasz starszy brat and Matka odchodzi published in the last decade of the 20th century although written at an earlier date Rewicz's prose works analyzed here were published predominantly in the threevolume edition of *Utwory zebrane* in 2003 2004 in the reportage collection entitled *Kartki z Wgier 1953* as well as in the collection of newspapers features letters and notes written in the 60s and 70s in most cases entitled *Marginesy* 2010 I also make use of the earlier editions of his works containing prose works not included in *Utwory zebrane* for example from the volume *Opad y li cie z drzew* as well as of some narratives published in journals and anthologies *Conversations with the writer* published in *Wbrew sobie Rozmowy z Tadeuszem Rewiczem* 2011 and his letters to Jerzy and Zofia Nowosielscy included in *Korespondencja* comprise an auxiliary material What specifically draws my attention in Tadeusz Rewicz's prose I read his works in the context of identity narratives manifest in culture and historical biographical stories The questions then arise about their formative influence on an individual what within them presents a reference for the self seeking identification When and how does individual experience take on an intersubjective meaning Under what circumstances is it expressed in the public sphere Have new identification patterns emerged in the Polish modernity and if so then what fields and phenomena of the 20th century culture or history have taken on such model significance How and where were boundaries drawn between what is individual in an identity of a person speaking and thinking in Polish on the one hand and on the other what is collective What has been considered native in this identity and what alien for example Western bourgeois communist German Jewish non normative in terms of religion or sexuality and in what way has cultural otherness been constructed at that time Trying to answer these questions I refer to categories of cultural anthropology such as symbolic universe collective memory autobiographical identity body and space in culture as well as to notions from the social sciences interpersonal relationship public discourse and communicative community To put it simply using these categories I try to describe the most important narrative forms and topics of Rewicz's prose that allow the writer to address and express in a literary form identity problems faced by an individual and the community I also attempt to analyze the very process through which Rewicz develops his own unique identity narratives as well as the evolution of narrative conventions of his literary work Reading Rewicz's works in this manner and organizing chapters of this book from the ones presenting public identity displayed publicly and codified in ideology or aesthetic to the ones presenting private identity I put an especial emphasis on some issues related to cultural studies and social

communication According to the reconstruction model I assume that even private experiences shape one's identity through culture and language In R ewicz's narratives I describe and compare both more collective and more individual premises for constructing identity The criterion for differentiating between these premises is determined by the narrativist approach adopted in this book An individual's identity even autobiographical one is created and expressed within the existing culture and public sphere and for this reason I am interested in history of ideas in social relationships symbols and role models changes of customs and everyday life which left a distinct impression on literary political or historical narratives Reading these narratives I make use of the following authors Jan Assmann Jean Baudrillard Zygmunt Bauman Ernst Cassirer Michel Foucault Marc Fumaroli Hans Georg Gadamer Jerzy Jedlicki Anthony Giddens Izabela Kowalczyk Philippe Lejeune Maurice Merleau Ponty Stanisław Ossowski Ewa R ewers Paul Ricoeur Richard Rorty Elżbieta Rybicka Richard Shusterman Georg Simmel Jerzy Szacki Magdalena Roda Charles Taylor Nikodem Boćka Tomaszewski Christian Vandendorpe Anna Wiczorkiewicz I rely on their reconstruction of social historical background of modern identity presented by these authors as well as on language used by them The book structure results from the overlapping or even conflict of two research objectives My task is to analyze the most important premises and forms of identity in R ewicz's prose and I describe them in separate chapters as problems of culture literature and history of ideas as well as models and social projects It is my wish that all these perspectives make up a coherent identity narrative of man of the second half of the 20th century a biographical case study The study covers the process of political empowerment of an individual his/her participation in democratized mass culture his/her attitude towards collective memory towards Polish and European cultural community experiencing of body sexuality and everyday existence emotional and social relationship with space and finally an autobiographical identity which I reconstruct as a transitional and provisional whole One of the most significant issues covered in the book is the western orientation of Polish collective identity in the 20th century related to the modernization of Central Europe and the postwar division of the continent by the Iron Curtain which created in Poland a phantom idea of the West as well as to the shifted borders of the Polish state to the territories by the Odra river and the Baltic Sea to polonization of former German lands and finally to historical and political discourse legitimizing this transfer of territories Tadeusz R ewicz as a travelling writer and journalist has relentlessly problematized the relationship between Europe and its Polish idea as a resident in Gliwice and Wrocław not only has he described since the trip down the Odra river on a fishing boat from Kołobrzeg to Szczecin in 1947 symbolic colonization of the post German Nadodrze but also artistically diagnosed the birth of the new individual and social identity of the inhabitants of this border area with its clashing narratives of history biography and national literature alongside the overlapping traces of different cultures and traditions Writing about R ewicz's man in this book I clearly do not mean the writer himself It is obvious that among many convictions and attitudes that the author of *Sobowtór* manifests there are some of which he is fond and there are others of which he is not I do not disregard his views voiced in non fiction

narratives and public speeches yet I am mostly interested in experience world view and self comprehension of his literary persona and literary hero presented or partially derived from an idea of man and of community in his texts Analyzing R ewicz s works I therefore distinguish between his self evident journalistic approach and his humanistic reflection which is a result of a philosophical or literary presentation of identity problems an individual faces I read his prose as an element of a public discourse and at the same time as an indirect formulated in fictional intimate or notebook narratives criticism of social reality and European culture in the 20th century In most cases I leave open questions such as whether or not R ewicz was or is committed to a specific political project whether or not he is a modern man in different meanings of this notion whether or not his personal identity coincides with identity narratives in his books Finding an answer to these questions is not a purpose of this book It is distinctively the problem of Tadeusz R ewicz s intellectual commitment to modern culture literature and history and a problem of the writer s role in creative and critical understanding of them that I find more interesting and important

**Post-Communist**

**Poland - Contested Pasts and Future Identities** Ewa Ochman, 2013-07-18 This book explores the reinterpretations of Poland's past which have been undertaken by Polish national and local elites since the fall of communism. It focuses on remembrance practices and traces the decommemorating of communism to examine the ways in which collective remembering and forgetting shapes present power constellations in Poland and impacts on foreign and domestic policy. The book outlines the detail of the new hegemonic national myths which are being established but also investigates fragmentation and diversification of commemorative practices at the local level that has the most potential to challenge the dominant vision of national Polish identity historically centred on martyrdom, heroism and independence as less relevant to Poland's new aspirations for the future. *Niewygodny prorok. **Canon Constitution and Canon Change in Children's Literature** Bettina Kümmerling-Meibauer, Anja Müller, 2016-12-01 This volume focuses on the de-canonization processes in children's literature, considering the construction and cultural/historical changes of canons in different children's literatures. Chapters by international experts in the field explore a wide range of different children's literatures from Great Britain, Germany, Scandinavia, the Low Countries, Eastern and Central Europe, as well as from Non-European countries such as Australia, Israel, and the United States. Situating the inquiry within larger literary and cultural studies conversations about canonicity, the contributors assess representative authors and works that have encountered changing fates in the course of canon history. Particular emphasis is given to sociological canon theories which have so far been under-represented in canon research in children's literature. The volume therefore relates historical changes in the canon of children's literature not only to historical changes in concepts of childhood but to more encompassing political, social, economic, cultural, and ideological shifts. This

volume's comparative approach takes cognizance of the fact that if canon formation is an important cultural factor in nation building processes a comparative study is essential to assessing transnational processes in canon formation This book thus renders evident the structural similarities between patterns and strategies of canon formation emerging in different children's literatures
