Innocence in the house in which his hero's fictional family lived to display Kemal's strange collection of objects associated with Fusun and their relationship. The house opened to the public in 2012 in the Beyoglu district of Istanbul. Pamuk has created a work concerning romantic love worthy to stand in the company of *Lolita*, *Madame Bovary* and *Anna Karenina*. Financial Times *Pamuk's Istanbul* Pallavi Narayan, 2022-04-28. This book reconstructs Istanbul through the prism of Orhan Pamuk's fiction. It navigates the multiple selves and layers of Istanbul to present how the city has shaped the writings of Pamuk and has in turn been shaped by it. Through everyday objects and architecture it shows how Pamuk transforms the city into a living museum where different objects converse along with characters to present a rich tapestry across space and time. Further, the monograph explores the formation of communal and literary identity within and around nation-building narratives informed by capitalism and modernization. The book also examines how Pamuk uses the postmodern city to move beyond its postmodern confines and utilizes the theories and universes of Bakhtin, Benjamin and Foucault to open up his fiction and radically challenge the idea of the novel. The volume will be of great interest to scholars and researchers of literature, literary theory, museum studies, architecture and cultural studies and especially appeal to readers of Orhan Pamuk.

The Turkish Novel and the Quest for Rationality Ayse Ozge Kocak Hemmat, 2019-02-04. The Turkish Novel and the Quest for Rationality is the first book to contextualize the Turkish novel with regard to the intellectual developments motivating the Turkish modernization project since the 18th century. The book provides a dialectical narrative for the emergence and development of the Turkish novel in order to highlight the genre's critical role within the modernization project. In doing so, it also delineates the changing forms the novel assumes in the Turkish context from a platform for new literature to a manifestation of crisis in the face of totalizing rationality. Vis à vis modernization's engagement with rationality, *The Turkish Novel and the Quest for Rationality* reveals unexplored ways of conceptualizing the development of the genre in non-western contexts. Turkish Language, Literature, and History Bill Hickman, Gary Leiser, 2015-10-14. The twenty-two essays collected in *Turkish Language, Literature, and History* offer insights into Turkish culture in the widest sense. Written by leaders in their fields from North America, Europe and Turkey, these essays cover a broad range of topics focusing on various aspects of Turkish language, literature and history between the eighth century and the present. The chapters move between ancient and contemporary literature, exploring Sultan Selim's interest in dream interpretation, translating newly uncovered poetry and exploring the works of Orhan Pamuk. Linguistic complexities of the Turkish language and dialects are analysed while new translations of 16th-century decrees offer insight into Ottoman justice and power. This is a festschrift volume published for the leading scholar Bob Dankoff, and the diverse topics covered in these essays reflect Dankoff's valuable contributions to the study of Turkish language and literature. This cross-disciplinary book offers contributions from academics specialising in linguistics, history, literature and sociology amongst others. As such, it is of key interest to scholars working in a variety of disciplines with a focus on Turkish Studies. *The Languages of World Literature* Achim Hölter, 2024-03-04. This volume
