MacNamara, 1982 La región más transparente Carlos Fuentes, 2002 *The Fragmented Novel in Mexico* Carol Clark D'Lugo, 2010-01-01 From Mariano Azuela's 1915 novel Los de abajo to Rosamar Roffiel's *Amora* of 1989 fragmented narrative has been one of the defining features of innovative Mexican fiction in the twentieth century In this innovative study Carol Clark D'Lugo examines fragmentation as a literary strategy that reflects the social and political fissures within modern Mexican society and introduces readers to a more participatory reading of texts D'Lugo traces defining moments in the development of Mexican fiction and the role fragmentation plays in each Some of the topics she covers are nationalist literature of the 1930s and 1940s self-referential novels of the 1950s that focus on the process of reading and writing the works of Carlos Fuentes novels of *La Onda* that came out of rebellious 1960s Mexican youth culture gay and lesbian fiction and recent women's writings With its sophisticated theoretical methodology that encompasses literature and society this book serves as an admirable survey of the twentieth century Mexican novel It will be important reading for students of Latin American culture and history as well as literature

Onetti and Others Gustavo San Roman, Gustavo San Román, 1999-07-01 Explores the connections between Onetti a foundational figure of the 1960s Boom in Latin American literature and other relevant writers and texts from Latin America

and beyond The Censorship Files Alejandro Herrero-Olaizola, 2008-01-03 Investigates the role played by censorship in the Spanish language publishing industry which led to the Latin American Boom literature of the 1960s and 1970s **The Twentieth-Century Spanish American Novel** Raymond Leslie Williams, 2009-07-21 A Choice Magazine Outstanding Academic Book Spanish American novels of the Boom period 1962-1967 attracted a world readership to Latin American literature but Latin American writers had already been engaging in the modernist experiments of their North American and European counterparts since the turn of the twentieth century Indeed the desire to be modern is a constant preoccupation in twentieth century Spanish American literature and thus a very useful lens through which to view the century's novels In this pathfinding study Raymond L Williams offers the first complete analytical and critical overview of the Spanish American novel throughout the entire twentieth century Using the desire to be modern as his organizing principle he divides the century's novels into five periods and discusses the differing forms that the modern took in each era For each period Williams begins with a broad overview of many novels literary contexts and some cultural debates followed by new readings of both canonical and significant non canonical novels A special feature of this book is its emphasis on women writers and other previously ignored and or marginalized authors including experimental and gay writers Williams also clarifies the legacy of the Boom the Postboom and the Postmodern as he introduces new writers and new novelistic trends of the 1990s **The Mexican Novel Comes of Age** Walter M. Langford, 1971 **Pierre Bourdieu in Hispanic Literature and Culture** Ignacio M. Sánchez Prado, 2018-03-08 Pierre Bourdieu in Hispanic Literature and Culture is a collective reflection on the value of French sociologist Pierre Bourdieu's work for the study of Spanish and Latin American literature and culture The authors deploy Bourdieu's concepts in the study of Modernismo avant garde Mexico contemporary Puerto Rican literature Hispanism Latin American cultural production and more Each essay is also a contribution to the study of the politics and economics of culture in Spain and Latin America The book as a whole is in dialogue with recent methodological and theoretical interventions in cultural sociology and Latin American and Iberian studies **The theme of sacrifice in Carlos Fuentes' La región más transparente and Cambio de piel** Lorraine Ann Hilbert, 1976 *Ecrire le Mexique* Centre de recherches interuniversitaires sur les champs culturels en Amérique latine, 1999 In the Shadow of the State Nicola Miller, 1999 Carlos Fuentes once observed that to be a Spanish American intellectual was to fulfill the roles by default of a tribune a member of parliament a labor leader a journalist a redeemer of his society Such statements reflect the view that the region's intellectuals have often acted as substitutes for the structures of a civil society An alternative view casts Spanish American intellectuals in a far more reactionary role Here it is suggested that the elaboration of inert popular stereotypes such as the stoic Indian and the heroic gaucho has resulted in an infinite postponement of authentic cultural identity and a perpetuation aided by intellectuals of a social order in which popular demands were either ignored or repressed In the context of this debate this book explores the roles played by intellectuals in the creation of popular national identities in

twentieth century Spanish America and seeks to identify the factors which lie behind two such contrasting evaluations of their contribution. Ranging across the intellectual centers of Argentina, Chile, Cuba, Mexico and Peru, it illustrates vividly the diversity and evolution of intellectual life in the region. Particular attention is paid to the idea of peripheral modernity and its influence on intellectual activity as well as to the contributions made by intellectuals to the three major strands in debates on popular national identity: bi-culturalism, anti-imperialism and history.

The Decline and Fall of the Lettered City Jean FRANCO, Jean Franco, 2009-06-30. The cultural Cold War in Latin America was waged as a war of values: artistic freedom versus communitarianism, Western values versus national cultures, the autonomy of art versus a commitment to liberation struggles, and at a time when the prestige of literature had never been higher. The projects of the historic avant-garde were revitalized by an anti-capitalist ethos and envisaged as the opposite of the republican state. *The Decline and Fall of the Lettered City* charts the conflicting universals of this period: the clash between avant-garde and political vanguard. This was also a twilight of literature at the threshold of the great cultural revolution of the seventies and eighties, a revolution to which the Cold War indirectly contributed. In the eighties, civil war and military rule together with the rapid development of mass culture and communication empires changed the political and cultural map. A long-awaited work by an eminent Latin Americanist, widely read throughout the world, this book will prove indispensable to anyone hoping to understand Latin American literature and society. Jean Franco guides the reader across minefields of cultural debate and histories of highly polarized struggle. Focusing on literary texts by García Márquez, Vargas Llosa, Roa Bastos and Juan Carlos Onetti, conducting us through this contested history with the authority of an eyewitness, Franco gives us an engaging overview as involving as it is moving.

Cruelty and Utopia Jean-François Lejeune, Centre international pour la ville, l'architecture et le paysage, 2005-02-03. This landmark collection of illustrated essays explores the vastly underappreciated history of America's other cities: the great metropolises found south of our borders in Central and South America: Buenos Aires, São Paulo, Mexico City, Caracas, Havana, Santiago, Rio Tijuana, and Quito are just some of the subjects of this diverse collection. How have desires to create modern societies shaped these cities, leading to both architectural masterworks by the likes of Luis Barragán, Juan O'Gorman, Lcio Costa, Roberto Burle Marx, Carlos Raúl Villanueva, and Lina Bo Bardi, and the most shocking favelas? How have they grappled with concepts of national identity, their colonial history, and the continued demands of a globalized economy? Lavishly illustrated, *Cruelty and Utopia* features the work of such leading scholars as Carlos Fuentes, Edward Burian, Lauro Cavalcanti, Fernando Oyarzún, Roberto Segre, and Eduardo Subirats, along with artwork ranging from colonial paintings to stills from Chantal Akerman's film *From the Other Side*. Also included is a revised translation of Spanish King Philip II's influential planning treatise of 1573, the *Laws of the Indies*, which did so much to define the form of the Latin American city.

An Introduction to Spanish-American Literature Jean Franco, 1994. A revised, updated edition of Jean Franco's *Introduction to Spanish American Literature*, first published in 1969.
