American Fiction in Transition Adam Kelly,2013-04-25 American Fiction in Transition is a study of the observer hero narrative a highly significant but critically neglected genre of the American novel Through the lens of this transitional genre the book explores the 1990s in relation to debates about the end of postmodernism and connects the decade to other transitional periods in US literature Novels by four major contemporary writers are examined Philip Roth Paul Auster E L Doctorow and Jeffrey Eugenides Each novel has a similar structure an observer narrator tells the story of an important

person in his life who has died But each story is equally about the struggle to tell the story to find adequate means to narrate the transitional quality of the hero's life In playing out this narrative struggle each novel thereby addresses the broader problem of historical transition a problem that marks the legacy of the postmodern era in American literature and culture

Postmodern Literature and Race Len Platt, Sara Upstone, 2015-02-19 Postmodernism and Race explores the question of how dramatic shifts in conceptions of race in the late twentieth and early twenty first centuries have been addressed by writers at the cutting edge of equally dramatic transformations of literary form An opening section engages with the broad question of how the geographical and political positioning of experimental writing informs its contribution to racial discourses while later segments focus on central critical domains within this field race and performativity race and the contemporary nation and postracial futures With essays on a wide range of contemporary writers including Bernadine Evaristo Alasdair Gray Jhumpa Lahiri Andrea Levy and Don DeLillo this volume makes an important contribution to our understanding of the politics and aesthetics of contemporary writing The Crisis of Capitalism in the Contemporary Novel Andrew Rowcroft, 2024-02-16 This book explores the role of radical ideas in contemporary fiction by nine critically acclaimed authors Jonathan Lethem Dana Spiotta China Mieville Thomas Pynchon Rachel Kushner Teddy Wayne Colson Whitehead Jacqueline Woodson and Kim Stanley Robinson All of them share interests in the politics of the left the problems of protracted economic crisis and the potentiality of post capitalist ideas Novels by these authors this book argues are defined by an imperative to confront current anxieties in left thought while at the same time evincing a nuanced degree of self consciousness about the legacy of political radicalisms the costs they accrue and where they have led **British Literature** in Transition, 1980-2000 Eileen Pollard, Berthold Schoene-Harwood, 2019 This volume shows how British literature recorded contemporaneous historical change It traces the emergence and evolution of literary trends from 1980 2000

Robert Coover and Thomas Pynchon busy in experimenting new themes and strategies Updike ignored the main stream of contemporary fiction and distanced himself from the contemporary writers His mission was to write a new kind of fiction to create a new kind of world to depict the new future of mankind the way Karl Marx had done **American Studies after Postmodernism** Theodora Tsimpouki, Konstantinos Blatanis, Angeliki Tseti, 2023-12-22 This book explores the major challenges that the long standing and diversely debated demise of postmodernism signifies for American literature art culture history and politics in the present third decade of the twenty first century Its scope comprises a vigorous discussion of all these diverse fields undertaken by distinguished scholars as well as junior researchers U S Americanists and European Americanists alike Focusing on socio political and cultural developments in the contemporary U S their contributions highlight the interconnectedness of the geopolitical economic environmental and technological crises that define the historical present on global scale Chapter 16 is available open access under a Creative Commons Attribution 4 0 International License via link springer com Jonathan Franzen at the End of Postmodernism Stephen J. In these short spirited and imaginative essays 23 leading Americanists gamely fashion new unorthodox literary periods from 600 B C E to the present from the Age of Van Buren to the Age of Microeconomics They bring to light literary and cultural histories that have been obscured by traditional timelines and raise provocative questions What is our definition of modernism if we imagine it stretching from 1865 to 1965 instead of 1890 to 1945 How does the captivity narrative change when we consider it as a contemporary not just a colonial genre What does the course of American literature look like set against the backdrop of federal denials of Native sovereignty or housing policies that exacerbated segregation Filled with challenges to scholars inspirations for teachers anchored by an appendix of syllabi and entry points for students Timelines of American Literature gathers some of the most exciting new work in the field to showcase the revelatory potential of fresh thinking about how we organize the Postmodern/Postwar and After Jason Gladstone, Andrew Hoberek, Daniel Worden, 2016-07 Within the past literary past ten years the field of contemporary American literary studies has changed significantly Following the turn of the twenty first century and mounting doubts about the continued explanatory power of the category of postmodernism new organizations have emerged book series have been launched journals have been created and new methodologies periodizations and thematics have redefined the field Postmodern Postwar and After aims to be a field defining book a sourcebook for the new and emerging critical terrain that explores the postmodern postwar period and what comes after The first section of essays returns to the category of the post modern and argues for the usefulness of key concepts and themes from postmodernism to the study of contemporary literature or reevaluates postmodernism in light of recent developments in the field and historical and economic changes in the late twentieth and early twenty first centuries These essays take the contemporary abandonments of postmodernism as an occasion to assess the current states of postmodernity After that the essays move to

address the critical shift away from postmodernism as a description of the present and toward a new sense of postmodernism as just one category among many that scholars can use to describe the recent past The final section looks forward and explores the question of what comes after the postwar postmodern Taken together these essays from leading and emerging scholars on the state of twenty first century literary studies provide a number of frameworks for approaching contemporary literature as influenced by yet distinct from postmodernism The result is an indispensable guide that seeks to represent and understand the major overhauling of postwar American literary studies that is currently underway Introduction to Postmodernism Brian McHale, 2015-06-26 This Introduction surveys the full spectrum of postmodern culture from architecture and visual art to fiction poetry and drama Maximalism in Contemporary American Literature Nick Levey, 2016-11-18 This book begins a new and foundational discussion of maximalism by investigating how the treatment of detail in contemporary literature impels readers to navigate tolerate and enrich the cultural landscape of postindustrial America It studies the maximalist novels of David Foster Wallace Nicholson Baker Thomas Pynchon and others considering how overly detailed writing serves the institutional emotional and intellectual needs of contemporary readers and writers The book argues that maximalist novels not only exceed perceived limits of style subject matter and scope but strive to remake the usefulness of books in contemporary culture refreshing the act of reading Levey shows that while these novels are preoccupied with detail and description they are relatively unconcerned with the traditional goals of representation Instead they use detail to communicate particular values and fantasies of intelligence enthusiasm and ability attached to the management of complex and excessive information Whether reinvigorating the banal and trivial in mainstream culture or soothing anxieties of human insufficiency in the age of automation and the internet these texts model significant abilities rather than just objects of significance and encourage readers to develop habits of reading that complement the demands of an increasingly detailed culture Drawing upon a diverse range of theoretical schools and cultural texts including Thing Theory Marxism New Formalism playlists blogs and archival manuscripts the book proposes a new understanding of maximalist writing and a new way of approaching the usefulness of literary objects in contemporary culture American Culture in the 1990s Colin Harrison, 2010-03-31 American Culture in the 1990s focuses on the dramaticcultural transformations of the last decade of the millennium Lodgedbetween the fall of Communism and the outbreak of the War on Terror the 1990s was witness to America's expanding influence across the world but also aperiod of anxiety and social conflict National traumas such as the LosAngeles riots the Oklahoma City bombing and the impeachment of PresidentClinton lend an apocalyptic air to the decade but the book looks beyondthis to a wider context to identify new voices emerging in the nation Thisis one of the first attempts to bring together developments taking placeacross a range of different fields from Microsoft to the Internet fromblank fiction to gangsta rap from abject art to new independent cinema and from postfeminism to posthumanism Students of American culture andgeneral readers will find this a lively and
