**The Second Sex (Vintage Feminism Short Edition)** Simone de Beauvoir, 2015-03-05 Vintage Feminism classic feminist texts in short form WITH AN INTRODUCTION BY NATALIE HAYNES When this book was first published in 1949 it was to outrage and scandal Never before had the case for female liberty been so forcefully and successfully argued De Beauvoir's belief that One is not born but rather becomes woman switched on light bulbs in the heads of a generation of women and began a fight for greater equality and economic independence These pages contain the key passages of the book that changed perceptions of women forever TRANSLATED BY CONSTANCE BORDE AND SHEILA MALOVANY CHEVALLIER ANNOTATED AND INTRODUCED BY MARTINE REID *The Existential Phenomenology of Simone de Beauvoir* Wendy O'Brien, Lester Embree, 2001-08-31 While earlier research considered Simone de Beauvoir in the perspectives of Existentialism or Feminism this work is the first to emphasize her reflective and descriptive approach and the full range of issues she addresses There are valuable chapters and sections that are historical and or comparative but most of the contents of this work critically examine Beauvoir's views on old age whereon she is the first phenomenologist to work biology gender ethics ethnicity where she is among the first and politics again among the first Besides their systematic as well as historical significance these chapters show her philosophy as on a par with those of Merleau Ponty and Jean Paul Sartre in quality richness and distinctiveness of problematics and the penetration of her insight into collective as well as individual human life within the socio historical world *Translating Simone de Beauvoir's The Second Sex* Julia C. Bullock, Pauline Henry-Tierney, 2023-05-19 This collection offers insights into the transnational and translingual implications of Simone de Beauvoir's *Le Deuxieme Sexe* The Second Sex a text that has served as foundational for feminisms worldwide since its publication in 1949 Little scholarly attention has been devoted to how the original French language source text made its way into languages other than English This is a shocking omission given that many but by no means all other translations were based on the 1953 English translation by Howard M Parshley which has been widely criticized by Beauvoir scholars for its omissions and careless attention to its philosophical implications This volume seeks to fill this gap in scholarship with an innovative collection of essays that interrogate the ways that Beauvoir's essay has shifted in meaning and significance as it has travelled across the globe This volume brings together for the first time scholars from Translation Studies Literary Studies and Philosophical Studies and over half of it is dedicated to non Western European engagements with *Le Deuxieme Sexe* including chapters on the Chinese Japanese Arabic Hungarian and Polish translations As such this collection will be essential to any scholar of Beauvoir's philosophy and its contributions to feminist discourses *Simone de Beauvoir's The Second Sex* Ruth Evans, 2024-06-04 Acknowledged by many feminists as the single most important theoretical work of the twentieth century Simone de Beauvoir's *The Second Sex* 1949 nevertheless occupies an anomalous place in the feminist canon Yet it has had an undeniable impact not only on the development of critiques of sexual politics but on twentieth

century western thinking about the concept of woman in general This collection of six new essays by scholars from the disciplines of French English literature history cultural criticism feminist theory and philosophy makes a valuable contribution to the task of re reading and reassessing this enormously influential text for a new generation of feminist readers and also for cultural theorists for whom the question of the feminine is at the centre of key debates in philosophy and postmodernity The contributors provide a significantly new rethinking of the place of *The Second Sex* in cultural history and of women and representation the role of fictions and the problem of ethical agency in the work of the leading intellectual woman of this age *Le deuxième Sexe: Simone de Beauvoir*, 1979 *The Second Sex* Simone de Beauvoir, 1997 Of all the writing that emerged from the existentialist movement Simone de Beauvoir's groundbreaking study of women will probably have the most extensive and enduring impact It is at once a work of anthropology and sociology of biology and psychoanalysis from the pen of a writer and novelist of penetrating imaginative power *THE SECOND SEX* stands five decades after its first appearance as the first landmark in the modern feminist upsurge that has transformed perceptions of the social relationship of man and womankind in our time

**On Becoming God: Late Medieval Mysticism and the Modern Western Self** Ben Morgan, 2013 Do we have to conceive of ourselves as isolated individuals inevitably distanced from other people and from whatever we might mean when we use the word God *On Becoming God* offers an innovative approach to the history of the modern Western self by looking at human identity as something people do together rather than on their own as a way of managing and keeping at bay the impulses and experiences associated with the word God The self is a way of doing things or of not doing things with God The book draws on phenomenology Heidegger gender studies Beauvoir Butler and contemporary neuroscience It surveys existing approaches to modern selfhood Foucault Charles Taylor and proposes an alternative account by investigating late medieval mysticism in particular texts written in Germany by Meister Eckhart and others It concludes by exploring the parallel between late medieval confessors and their spiritual charges and late nineteenth century psychoanalysts and their patients in search of a vocabulary for acknowledging and nurturing our everyday commitments to others and to our spiritual longings

**Writing the Voice of Pleasure** A. Callahan, 2001-11-09 *The Voice of Pleasure* makes a persuasive and fascinating argument that the romantic couple of Western representation is not heterosexual Nor is it homosexual With insightful new readings of landmarks of Western culture from *Tristan and Yseult* to *Seinfeld* Callahan demonstrates that the illusion of heterosexuality is created by a male artist's assumption of a feminine voice to express desire Named the troubadour effect for the first time here this tradition of male femininity in romantic writing results in a cultural model of desire best described as heterosexuality without women The most compelling aspect of the book is its attention to the effect of this paradox on women writers Illuminating her argument with striking examples from the troubadour to Toni Morrison the author shows how women writers inscribe their vagabondage a term she coins to name the consequences of the troubadour effect for women's agency as both writers and lovers

**Translation and**

**Censorship in Different Times and Landscapes** Maria Lin Moniz, Teresa Seruya, 2009-03-26 This volume is a selection of papers presented at the international conference on Translation and Censorship From the 18th Century to the Present Day held in Lisbon in November 2006 Although censorship in Spain under Franco dictatorship has already been thoroughly studied the Portuguese situation under Salazar and Caetano has been so far almost ignored by the academic research This is then an attempt to start filling this gap At the same time new case studies about the Spanish context are presented thus contributing to a critical view of two Iberian dictatorial regimes However other geographical and time contexts are also included former dictatorships such as Brazil and Communist Czechoslovakia present day countries with very strict censoring apparatus such as China or more subtle censorial mechanisms as Turkey and Ukraine Specific situations of past centuries are given some attention the reception of Ovid in Portugal the translation of English narrative fiction into Spanish in the 18th century the translation of children literature in Victorian England and the emergence of the picaresque novel in Portugal in the 19th century Other forms of censorship namely self censorship are studied in this volume as well The book fits in one of the most innovative fields of research in translation studies i e the study of social and political constraints on translation processes and translation functions More specifically the concept of censorship is crucial to the understanding of these constraints especially in spatio temporal settings where translation exhibits conflicts between what is acceptable for and what is prohibited by a given culture For that reason detailed descriptive research is needed in as many situations as possible It gives an excellent view on the complex mechanisms of censorship with regard to translation within a large number of modern European and non European cultures In addition to articles devoted to cases dealing with China Brazil Great Britain Turkey Ukraine or Czechoslovakia Spain and Portugal occupy a prominent role As a whole the volume marks an important step forward in our growing understanding of the role of socio political factors for the development and changes of translation policies I highly recommend the publication Prof dr Lieven D hult Professor of Translation Studies at K U Leuven Belgium

**Differences** Emily Parker, Anne M. Van Leeuwen, 2018 Simone de Beauvoir and Luce Irigaray famously insisted on their philosophical differences and this mutual insistence has largely guided the reception of their thought What does it mean to return to Simone de Beauvoir and Luce Irigaray in light of questions and problems of contemporary feminism including intersectional and queer criticisms of their projects How should we now take up amplify and surpass the horizons opened by their projects Seeking answers to these questions the essays in this volume return to Beauvoir and Irigaray to find what the two philosophers share And as the authors make clear the richness of Beauvoir and Irigaray s thought far exceeds the reductive parameters of the Eurocentric bourgeois second wave debates that have constrained interpretation of their work The first section of this volume places Beauvoir and Irigaray in critical dialogue exploring the place of the material and the corporeal in Beauvoir s thought and in doing so reading Beauvoir in a framework that goes beyond a theory of gender and the humanism of phenomenology The essays in the second section of the volume take up the challenge of articulating

points of dialogue between the two focal philosophers in logic ethics and politics Combined these essays resituate Beauvoir and Irigaray's work both historically and in light of contemporary demands breaking new ground in feminist philosophy

The French Invention of Menopause and the Medicalisation of Women's Ageing Alison M. Downham Moore, 2022-10-06 Doctors writing about menopause in France vastly outnumbered those in other cultures throughout the entire nineteenth century The concept of menopause was invented by French male medical students in the aftermath of the French Revolution becoming an important pedagogic topic and a common theme of doctors' professional identities in postrevolutionary biomedicine Older women were identified as an important patient cohort for the expanding medicalisation of French society and were advised to entrust themselves to the hygienic care of doctors in managing the whole era of life from around and after the final cessation of menses However menopause owed much of its conceptual weft to earlier themes of women as the sicker sex of vitalist crisis of the vapours and of astrological climacteric years This is the first comprehensive study of the origins of the medical concept of menopause richly contextualising its role in nineteenth century French medicine and revealing the complex threads of meaning that informed its invention It tells a complex story of how women's ageing featured in the demographic revolution in modern science in the denigration of folk medicine in the unique French field of hygiene and in the fixation on women in the emergence of modern psychiatry It reveals the nineteenth century French origins of the still current medical and alternative health approaches to women's ageing as something to be managed through gynaecological surgery hormonal replacement and lifestyle intervention Feminist Interpretations of Jean-Paul Sartre Julien S.

Murphy, 2010-11-01 While Sartre was committed to liberation struggles around the globe his writing never directly addressed the oppression of women Yet there is compatibility between his central ideas feminist beliefs In this first feminist collection on Sartre philosophers reassess the merits of Sartre's radical philosophy of freedom for feminist theory Contributors are Hazel E Barnes Linda A Bell Stuart Z Charme Peter Diers Kate Edward Fullbrook Karen Green Sarah Lucia Hoagland Sonia Kruks Guillermine de Lacoste Thomas Martin Phyllis Sutton Morris Constance Mui Iris Marion Young **Encyclopedia of**
